➤ Citymobil

Taxi market is rapidly growing, three major trends will shape the market in short to long term

Russian urban mobility market size and share of aggregators, 2019-2023, %, bn RUR

Major Market Trends

- 1 Short term**
Rapid market growth, expansion of online aggregators, especially in the regions
- 2 Mid term**
Multimodal products, market consolidation, improvements in profitability
- 3 Long term**
Integrated urban mobility systems
Self-driving

Source: Consensus is based on analysis of UBS, Goldman Sachs, VTB Capital, Otkritie, RU Government analytics, Citymobil Management

Citymobil is well positioned to seize this growth due to three major competitive advantages

Demand

Access to largest audience, both online and offline, given access to Sberbank and MRG

Platform

Technological stack of Sberbank and MRG ecosystems

Supply

Superior product offering to taxi fleet operators, including through access to Sberbank

Strong focus on drivers as well as customer care

Eleven 1M+ cities launched YTD bringing population coverage of Citymobil to 38M
