Appendix No. 3	Accounting Policy of Sberbank as amended Part 1 Part 2	770

Introduction

The obligation of Sberbank to disclose information in the form of a quarterly report arises in connection with the fact that a securities prospectus has been registered in respect of the Bank's securities and in connection with the admission of the Bank's exchange-traded bonds to organized trading at the stock exchange (with the submission of an exchange-traded bond prospectus to the stock exchange).

This quarterly report contains estimates and forecasts of the authorized management bodies of the issuing credit institution regarding future events and/or actions, the development outlook for the sector of economy where the issuing credit institution conducts its principal activity, and the performance results of the issuing credit institution, including its plans, the probability of the occurrence of certain events, and the performance of certain actions. Investors should not fully rely on the estimates and forecasts of management bodies of the issuing credit institution as the actual performance results of the issuing credit institution in the future may differ from the predicted results for many reasons. The acquisition of securities of the issuing credit institution entails risks, which are described herein.

Information on the financial and business activities of Sberbank is disclosed in this quarterly report on the basis accounting (financial) statements under RAS.

The management of the issuing credit institution is unable to predict all of the trends that could affect the development of the banking sector and the impact, if any, they may have on the financial standing of the issuing credit institution and its subsidiaries (the Group).

II. Main Information on the Financial and Economic State of the Issuing Credit Institution

2.1. Indicators of Financial and Economic Performance of the Issuing Credit Institution

For 6 months of the current year and the similar period of the previous year:

Name of the indicator	1st half of 2021	1st half of 2020
Authorized capital, thous. RUB	67,760,844	67,760,844
Equity (capital) (BASEL III), thous. RUB (form 0409123)	4,722,319,772	4,624,728,636
Net profit, thous.RUB	594,843,562	337,529,993
Return on Average Assets (ROAA) %	3.5	2.4
Return on Average Equity (ROAE), %	24.7	14.7
Raised funds (loans, deposits, customer accounts, etc.), RUB thousand	29,574,406,347	24,492,679,293

Methodology for calculating indicators:

The return on average equity is calculated using the method accepted in the Bank as discounted to the annual basis ratio of the net profit received in the reporting period to the average value of equity in the same period.

The return on average assets is calculated using the method accepted in the Bank as discounted to the annual basis ratio of the net profit received in the reporting period to the average value of net assets in the same reporting period.

Analysis of the financial and economic performance of the issuing credit institution based on the economic analysis of the dynamics of the given indicators:

Main results of the Bank's activities in the 1st half of 2021 compared to the 1st half of 2020:

- **Assets** grew by 16.5%, or by RUB4.9 trillion, compared to 1 July 2020, to RUB34.8 trillion, mainly due to the outstanding loans of customers and investment in financial assets carried at fair value through other comprehensive income.
- **The Bank's liabilities** rose by 19,6% or RUB4.9 trillion to RUB30.0 trillion, mainly due to funds raised from corporate and individual customers, as well as funds from the Federal Treasury and the Bank of Russia.
- **Total capital** increased by 2.1% or RUB98 billion to RUB 4 722.3 billion, mainly due to the profit earned in the 2nd half of 2020 and the 1st half of 2021, as well as the inclusion of subordinated bonds worth RUB56 billion issued in January 2021, in accordance with the approval of the Bank of Russia in February 2021, in the capital estimate. The factor that restrained the equity growth for the year starting on 1 July 2020 was the payment of dividends made twice - in October-November 2020 following the results of 2019 in the amount of RUB422 billion and in May-June 2021 following the results of 2020 also in the amount of RUB422 billion.
- **Net income** increased by 76.2% as compared to the 6 months of 2020 to RUB 594.8 billion. The noticeable growth was due to an overall improvement in the economic situation, against which the bank was steadily increasing its loan portfolio and developing its transactional business, which had a positive effect on net interest income and net fee and commission income. In addition, the stable quality of the portfolio enabled the reduction of provision expenses. Return on assets increased from 2.4% to 3.5%, while return on equity increased from 14.7% to 24.7%.

2.2. Market Capitalization of the Issuing Credit Institution

Information on the market capitalization of the issuing credit institution as of the end date of the last completed reporting year and as of the end date of the reporting period consisting of the 6 months of the current year

Date	Trade organizer	Individual state registration number of securities	Quantity of shares, pcs	Market price of a share, RUB	Market capitalization, RUB billion
1	2	3	4	5	6
01/01/21	Moscow Exchange PJSC	10301481B	21586948000	272.08	5,873.4
01/01/21	Moscow Exchange PJSC	20301481B	1000000000	242.28	242.3
Total capitalization:					6,115.7
01.07.21	Moscow Exchange PJSC	10301481B	21586948000	304.98	6,583.6
01/07/21	Moscow Exchange PJSC	20301481B	1000000000	281.11	281.1
Total capitalization:					6,864.7

Method to determine the market price of a share:

Market capitalization is calculated as the number of shares in the relevant category (type) multiplied by the market price per share disclosed by the trade organizer.

2.3. Liabilities of the Issuing Credit Institution

2.3.1. Borrowed funds and accounts payable

Structure of borrowings of the issuing credit institution as of the end date of the reporting period consisting of the 6 months of the current year:

01/07/2021			
Amounts by the term to maturity (demand), thous. RUB			
Main items of borrowings	Short-term**	Long-term***	total
CB funds*	138,502,706	360,319,979	498,822,685
Credit institutions funds*	823,548,440	14,053,704	837,602,144
Customer funds*	22,416,413,117	4,384,909,651	26,801,322,768
Issued debt obligations*	249,957,705	708,921,842	958,879,547

* The information conforms to the Information on the assets and liabilities by the term to demand and maturity (OKUD form code 0409125)

**Short-term borrowings refer to the funds raised for a period left to maturity of less than 1 year

***Long-term borrowings refer to the funds raised for a period left to maturity of over 1 year.

Structure of accounts payable of the issuing credit institution as of the end date of the reporting period (consisting of the 6 months of the current year)

Item No.	Name of the indicator	Indicator value, RUB thousand
		01/07/2021
1	2	3
1	Settlements with customers on factoring and forfeiting operations	0
2	Settlements with currency and stock exchanges	0
3	Including overdue	0
4	Settlements with respect to taxes and duties	15,195,914
5	Salaries payable to employees, including settlements with employees on wages and imprest amounts	74,934,707
6	Settlements with suppliers, contractors and buyers	9,020,036
7	Settlements related to trust management	0
8	Other accounts payable	129,808,880
9	Including overdue	0
10	Total	228,959,537
11	Including overdue	0

Information on the creditors in the issuing credit institution's accounts payable accounting for at least 10 percent of the total accounts payable or at least 10 percent of the total borrowings (both long-term and short-term) for the corresponding reporting period:

None.

Information on compliance with the reserve requirements (insufficient contributions to the obligatory reserves, failure to fulfill the obligation for averaging the obligatory reserves) and on penalties, whether imposed or not, for violation of the reserve requirements shall be disclosed for the last 12 months (reporting periods) to the end date of the reporting quarter.

Reporting period (month, year)	Amount of insufficient payment to obligatory reserves, RUB	Amount of unfulfilled obligation for averaging of obligatory reserves, RUB	Amount of penalty imposed for violation of reserve requirements, rubles
1	2	3	4

July 2020	0	0	0
August 2020	0	0	0
Sep-20	0	0	0
October 2020	0	0	0
November 2020	0	0	0
December 2020	0	0	0
Jan-21	0	0	0
February 2021	0	0	0
March 2021	0	0	0
Apr-21	0	0	0
May 2021	0	0	0
June 2021	0	0	0

2.3.2. Credit History of the Issuing Credit Institution.

As at 1 January 2021 and 1 July 2021, there were no obligations with principal debt of five or more percent of the book value of assets.

2.3.3. Liabilities of the Issuing Credit Institution Arising from the Security Provided by such Issuing Credit Institution

Information on the total amount of security provided by the issuing credit institution as of the end of the last completed reporting period consisting of the 6 months of the current year:

No No.	Name of the indicator	Indicator value, RUB thousand
		01/07/2021
1	Total amount of provided security (amount of outstanding obligations, in respect of which the Bank provided the security, if the performance of relevant obligations is secured in full in accordance with the terms of the provided security)	1,664,667,414
	Amount of security provided for the obligations of third parties	1,664,667,414
2	Amount of security provided by the Bank in the form of a pledge	0
	Amount of security in the form of collateral provided for obligations of third parties	0
3	Amount of security provided by the Bank in the form of a surety*	191,566,550
	Amount of security in the form of a surety provided for obligations of third parties	191,566,550
4	Amount of security provided by the Bank in the form of a bank guarantee**	1,473,100,864
	Amount of security in the form of a bank guarantee provided for obligations of third parties	1,473,100,864

*Sureties issued by the Bank under trade finance transactions (account 91315.02+91315.03+91315.05+91315.06+91315.07+91315.09)

** Guarantees (sureties) issued by the Bank (account 91315.01 + account 91315.10)

Information on each instance of the provision of security, the amount of which is 5 percent of the book value of the assets of the issuer as of the date of the end of the reporting period:

None.

2.3.4. Other Liabilities of the Issuing Credit Institution

None.

2.4. Bank risks related to acquisition of placed securities (securities to be placed).

Basic principles for creating the risk and capital management system are defined in the Risk and Capital Management Strategy of Sberbank Group that is approved by the Supervisory Board of the Bank.

The primary goals and objectives of the risk management system are as follows:

- to ensure/maintain the acceptable risk level within the risk appetite and/or other limits and containments;
- to ensure capital adequacy for covering significant/material risks, including in case of stress conditions
- to identify and assess risk materiality, assess and forecast risk levels; set risk limits and containments; monitor and control the amount of accepted risk; take steps to reduce the level of the Group's accepted risk in order to maintain it within the set external and internal containments;
- to ensure the efficient resource allocation for optimization of the risk-return ratio of the Group;
- to ensure the uniform understanding of risks on the Group's level;
- to carry out strategic planning with due regard to the level of accepted risk.

2.4.1. Credit Risk.

Credit risk means the risk of losses associated with full or partial loss of asset value or increase in liabilities due to default or deterioration of the credit quality (migration) of a counterparty/issuer/third party under the following instruments (including those received as security):

- a financial instrument under a counterparty transaction
- an issuer's security
- a derivative financial instrument tied to a credit event of a third party

The objective of credit risk management are:

- ensuring compliance of credit risks level of the Group to the risk appetite set within the Integrated Risk Management (and/or other limits and restrictions) and optimizing its level as part of management decisions to provide sustainable development of the Group, the Bank and other members of the Group in accordance with macroeconomic parameters and the Development Strategy of the Group approved by the Bank's Supervisory Board;
- complying the requirements of the state bodies and local regulators of the countries of the Group members' operation in terms of credit risk management;
- ensuring compliance with international standards and best banking practices in the area of credit risk management;

The Group's policy on credit risk management is aimed at:

- implementation of a systemic approach to credit risk management, optimization of the industrial, regional and product structure of the Group's, Bank's and other Members of the Group's credit portfolios, to manage the level of credit risks;
- improving competitiveness of the Group in terms of products subject to credit risks due to a better assessment of assumed credit risks and implementing measures for managing credit risks;
- preservation of stability when expanding the product line of Group members (implementing more complicated products) as a result of adequate assessment and management of accepted risks, particularly credit risks.

The Group applies the following methods of credit risk management:

- preventing credit risk by the identification, analysis, and evaluation of potential risks at the stage which precedes conducting operations exposed to credit risk;
- planning the level of credit risk by assessing the level of expected losses;
- implementing unified processes of risk evaluation and identification;
- limiting the credit risk by imposing limits and/or restrictions for the risk;

- creating provisions for possible losses from loans issued;
- structuring of transactions;
- managing the collateral for transactions;
- using the system of authorities when making decisions;
- monitoring and controlling the risk level.

Credit risk is evaluated for the Group in general and in terms of different portfolios of assets exposed to credit risk, and also in terms of individual credit risks of specific counterparties and groups of counterparties, countries, geographical regions, types of economic activities.

The Group uses a system of internal ratings based on economic and mathematical models of estimating the probability of default by counterparties. Counterparty credit risk assessment depends on the types of counterparties:

- corporate customers, credit institutions, financial companies, small business entities, countries, subjects of the Russian Federation, municipal entities, insurance and leasing companies – on the basis of the credit ratings system, as well as by building models of predicted cash flow or other important indicators;
- individuals and micro businesses – based on an assessment of counterparty solvency, credit rating system, an express assessment, and information from external sources available to Sberbank.

The system of credit ratings provides a differentiated assessment of probability of default/non-execution by the counterparties of their obligations by analyzing quantitative (financial) and qualitative factors of credit risk (factors of market and external influence, characteristics of management quality, assessment of business reputation and others), materiality of their impact on the ability of the counterparty to serve and repay their obligations.

In accordance with the developed macroeconomic scenarios, the Group performs analysis of sensibility of the credit risks level at the level of individual counterparties and the credit portfolio as a whole, and, according to the results, it detects the macro factors to the maximum extent correlating with the probability of counterparties' default. For the purposes of stress testing, the statistical information about rapid changes of macro factors is used when modeling the ratings in stress situations.

The system of monitoring and controlling the level of the Group's credit risks is implemented on the basis of the principles which ensure preliminary, current and further control of transactions exposed to credit risks, compliance with the established risk limits, and their timely actualization.

A multilevel system of limits for each line of business based on limiting credit risks by loan operations and operations on financial markets is developed in the Group.

The Group pays close attention to the control of concentration of major credit risks and compliance with the prudential requirements of the regulating authority, analysis and forecast of the level of credit risks. By credit risk concentration analysis, control and management the following stages are applied:

- Keeping the group of related borrowers list based on complex criteria for economic and legal relationships among borrowers
- Setting up a system of limits and warning indicators
- Controlling the provision of large loans to single borrowers or groups of related borrowers
- Controlling the industry and country risk level

The bank conducts monitoring of major credit risks and forecasting of compliance with the requirements set out by the Bank of Russia on mandatory ratios¹ and the index of risk concentration (RCI6.1):² (N6, N21 (maximum risk per borrower or group of related borrowers, bank and banking group), N7, N22 (maximum size of major credit risks, bank and banking group), N25 (the maximum risk per bank-related person (group of bank-related persons))). For these purposes, the List of Major and Related Borrowers is maintained and monitored. The Bank's largest borrowers come from various sectors of the economy; therefore, the credit risk is adequately diversified.

One of the main instruments for reducing credit risk is collateral. Several kinds of security can be taken for credit risk limitation. The need to accept collateral and the volume of accepted collateral depends on the credit risk level of the borrower/transaction and is fixed in the terms of the loan products.

¹ Bank of Russia Instruction No. 199-И (199-И), dated 29 November 2019, "On Banks' Required Ratios and Capital Adequacy Buffers for Banks with a Universal Licence" and Bank of Russia Regulation No. 509-П (509-П), dated 3 December 2015, "On Calculating the Capital, Required Ratios and Open Currency Position Limits of Banking Groups".

² Directive of the Bank of Russia "On the list, forms and procedures for preparing and submitting reporting forms by credit institutions to the Central Bank of the Russian Federation", No. 4927-У, dated 08/10/2018

When granting loans, the most efficient combination of requirements to the borrower's creditworthiness level and to collateral used, which significantly increases the efficiency of loan workflow.

In order to hedge credit risks, a Collateral Policy defining the basic principles and elements of organizing the work with funded and unfunded collateral has been developed and implemented. The Collateral Policy is aimed at the creation of such approaches to working with collateral that allows to reduce credit risks, maintain the required quality level of the credit portfolio in terms of collateral, drive an increase in the level of return of bad debts. The quality of the collateral is determined by the degree of credit risk protection provided by it and the probability of obtaining funds in the amount of the estimated collateral value upon foreclosing on the subject of the collateral or its sale. The quality of the collateral is indirectly characterized by the list and materiality of the risks associated with the collateral and is determined by a number of factors: liquidity, reliability of the assessment of value, risks of impairment, exposure to risks of loss and damage, risks caused by legal reasons, and others. In general, liquid and reliable collateral is preferred in lending.

Collateral valuation is carried out based on an internal expert appraisal, an appraisal by independent appraisers, or, when it is impossible / inexpedient to determine the market value, based on the value of the collateral item in the borrower's accounting reporting or nominal value with discount applied. The use of surety by solvent legal entities and individuals and guarantee for the adjustment of credit risk indicators requires the same risk assessment of the surety/guarantor as the borrower. Throughout the validity period of the credit product, pledged assets are regularly monitored to ensure control over quantitative, qualitative and cost parameters of the collateral items, their legal affiliation, and conditions of storage and upkeep.

The Group has a multidimensional system of authorities allowing the determination of the level of decision-making for every loan application. Each collegial body of regional business units and subsidiaries (unless otherwise set out in the IRD) is assigned a risk profile that determines the authority of such collegial body to make independent decisions on loan products and FMT approval depending on the limit position for the borrower/group of related borrowers, counterparty rating, and non-standard Transaction parameters. Thus, the existing systems of limits and authorities allow to optimize the credit process and to manage credit risk adequately.

2.4.2. Country Risk

Country risk is the risk of losses associated with the inability or unwillingness of counterparties of the Group's participants:

- that are residents of a foreign country (including sovereigns)
- that have assets in a foreign country
- that bear the ultimate risk in a foreign country (i.e., if residents of a foreign country are associated with the formation of sources of repayment of the obligations of a counterparty of a Group member)³.

fulfill its obligations as a result of economic, political, social changes in a foreign country, or as a result of the fact that the currency of a foreign country may not be available to the counterparty of the Group member due to the specifics of local and/or national legislation (regardless of the financial position of the counterparty itself).

The Bank organizes a country risk management system in the Group, which provides for standardized methodology, processes and a system for limiting operations exposed to country risk.

2.4.3 Market Risk.

For the purposes of recording and managing market risk, the Group highlights the following risks:

- market risk of the trading book;
- interest rate risk of the banking book;
- currency risk of the banking book;
- market credit spread risk of the banking book
- commodity risk of the banking book;
- stock market risk of the banking book (being the market risk of transactions in financial markets;

³ Customers, suppliers, investors, and other persons who influence the formation of the counterparty's revenue are residents of a foreign country.

- debt securities' liquidity risk of the banking book.

Market risk is managed in accordance with the adopted group policies on each risk type.

2.4.3.1. Market Risk of the Trading Book

Control over market risk of the trading book is carried out by business units organizationally independent from business units entering into transactions in financial markets. The process of risk monitoring involves continuous monitoring of trading transactions at all stages of the operating process.

Management of market risks of the trading book is performed in the Group through the system of authorized bodies making decisions depending on the risk level and portfolio hierarchy. Such system allows for the speed and flexibility of the decisions taken.

Market risks in the trading book are managed on a portfolio basis.. The main market risk management tool is setting market risk limits for separate portfolios. The portfolio consists of transactions in financial markets with common characteristics such as acceptable risks, currency, types of instruments, constraints used, and so on. The limits of market risk in the trading books are set in accordance with the requirements of the Bank of Russia, the Basel Committee on Banking Supervision and the best market risks management banking practices.

Value at risk (VaR) is used as the main metric for the valuation of market risk of the trading book. This metric is an estimate of the maximum portfolio loss for a given time period with a specified probability (level of trust) in the "normal" market. The "normal" market is characterized by the dynamics of market forces (currency quotes/shares/goods, interest rates) in the absence of a systemic crisis in the economy/banking sector of a country or a group of countries, or negative facts/events capable of causing a significant change in market forces and, as a result, the value of positions in financial instruments.

The VaR calculation is based on the following assumptions:

- the range of historical data used for the calculation is 2 years;
- VaR is calculated for a period of 10 working days, during which, on average, it is possible to close (or hedge) items that are exposed to market risk;
- the 99% one-way confidence level is used, which means that the amount of loss exceeding VaR is expected for one of the 100 periods.

The VaR metric at the level of each portfolio is subject to a regular backtesting process in accordance with a formal procedure designed to meet the requirements of the Basel Committee on Banking Supervision.

Although VaR allows for obtaining a risk assessment, one should also consider the drawbacks of this method, such as:

- the use of past price changes does not allow for a full assessment of possible future price fluctuations;
- the calculation for the 10-day period implies that it is possible to close (or hedge) all Group positions within the given time period. This assessment may be far from accurate in measuring risk exposure at the time of reduced market liquidity, when the period of closing (or hedging) the positions may increase;
- using a 99% one-way confidence level of probability does not provide for estimating losses with a probability below 1%;
- the VaR calculation is based on positions at market risk at the end of the day and may not reflect the risk accepted during the day.

Taking into account the shortcomings of the VaR method, in order to receive more detailed information on the market risk exposure, the Group extends its VaR calculation with market risk assessments using scenario analysis and stress testing.

2.4.3.2. Market risk of the banking book

Interest rate and currency risks in the banking book

The banking book interest rate risk is a risk of losses, decrease in profit, capital or capital adequacy due to an adverse change in interest rates of financial instruments in the banking book and/or market interest rates influencing the value of the banking book financial instruments.

Currency risk of the banking book is the risk of financial losses, decrease in capital or capital adequacy as a result of changes in foreign exchange rates and precious metal prices in the banking book positions.

The main sources of currency risk of the banking book are:

- transactions for creation and recovery of provisions for outstanding loans in foreign currency;
- transactions for restructuring of loans in terms of changes in the currency of debt;
- other income and expenses in foreign currency.

The key purposes of management of interest rate and currency risks of the banking book are as follows:

- limit possible financial losses and ensure financial stability of the Group;
- fulfillment of regulatory requirements established by the Bank of Russia and local regulators;
- risk containment by assessing Risk Appetite;
- maintaining the risk level within the established Risk Appetite.

To assess the interest and currency risks in the banking book, the Group mainly uses the following metrics:

- change in the net interest income with the given change in interest rates (parallel or nonparallel shift of the interest rate curve) over a given time horizon. Change in the net interest income is used to assess the impact of interest rate risk on the financial result of the Bank and Group in short-term (up to one year) and mid-term perspective (usually up to 3 years);
- change in fair value of the banking book instruments carried at current present fair value with the given change in market interest rates;
- change in the economic value of capital with a specified change in interest rates;
- regulatory OFXP reflects the structure of open items broken down by individual currencies for the Group and Group members, which is calculated as per the requirements of the Bank of Russia;
- economic OFXP reflects the sensitivity of the financial result to changes in foreign exchange rates and prices for precious metals.

As part of managing the interest rate risk of the banking book, the Group's business plan sets a target position for interest rate risk in Rubles across the bank. The Bank continuously monitors the level of interest rate risk in the banking book, controls compliance with limits, and analyzes the dynamics of interest rate risk indicators.

To limit currency risks for the business units of the Bank and individual subsidiaries in the Group, limits on the open foreign exchange position are established and controlled.

Credit spread risk of the banking book

The risk of a market credit spread of the banking book (RMCSBB) is the risk of losses or a decrease in capital due to a fall in market prices of debt securities of the banking book as a result of an adverse change in market credit spreads, except for investments being an equivalent of lending⁴.

Sberbank built a management system for the CSRBB and introduced appropriate control and management procedures for this type of risk.

The objectives of CSRBB are ensuring financial stability, limiting possible financial losses and negative impacts of the risk on Sberbank.

The tasks of the CSRBB management are as follows:

- to implement a systemic approach towards CSRBB management;
- to provide complete and reliable information in a timely manner to the Bank's management and members of the Group, which is required to make sound management decisions in CSRBB management;
- maximizing the profit of the Bank and the Group members while maintaining an acceptable level of the CSRBB.

To assess CSRBB, the Value-at-Risk metric (VaR) is used, which is an estimate of the maximum loss in the fair value of financial instruments⁵ as a result of changes in market credit spreads over a given period of time with a given probability (confidence level). To assess VaR for RMCSBB, the Monte Carlo method is used.

2.4.4. Liquidity Risk.

⁴For the purposes of this description, investments being an equivalent of lending mean debt securities bought for holding to obtain contractual cash flows and involving only repayment of principal debt and interest over the period of funds use

⁵ In accordance with the internal regulatory documents on risk management of Sberbank Group

The purpose of the Group liquidity risk management is to ensure that the Bank and all Group members are able to fulfil in an unconditional and timely manner all and any of their obligations to customers and counterparties, both in regular operations mode and in crisis situations, provided the compliance with liquidity risk management requirements of the Bank of Russia and those of local regulators in the countries of Group members' operation.

The Group is exposed to the liquidity risk because it does not accumulate funds in case of one-time fulfillment of all existing obligations. Instead, on the basis of the current market environment, assumptions about the future evolution of the balance sheet items and accumulated historical data, an assessment of an adequate level of cash and cash equivalents and liquidity reserves needed to perform these obligations on different time horizons is performed.

Liquidity risk is a risk reflecting the inability to finance activities, i.e. to ensure the growth of assets and/or perform obligations as they become due, or the violation of regulators' requirements relating to liquidity risk. The following components of liquidity risk are identified in liquidity risk management:

- physical liquidity risk is a risk of a failure by the Bank/ the Group member to meet its obligations to customers and counterparties in any currency or precious metal because of a shortage of cash or noncash funds (inability to make a payment, disburse a loan, etc.)
- regulatory liquidity risk is the risk of a failure to comply with the statutory liquidity ratios of the Bank of Russia (N2, N3, N4, N26, N28 and others⁶), as well as with statutory liquidity ratios established by local regulators in the countries of the Group members' operation.
- structural liquidity risk (concentration risk) is the risk of a significant deterioration of physical or regulatory liquidity due to an imbalance in the asset and liability structure, including strong dependence of the Bank's/ the Group member's liability base on one or several customers or funding sources in a certain currency or in a certain period, or, if necessary, on other parameters (such as economic sector, geography, type of instrument, etc).

Liquidity risk is evaluated by calculating values of liquidity risk metrics and the degree of their compliance with the established limits, warning indicators and other restrictions. Liquidity risk is assessed on an aggregated basis across all operations of the Bank/Group members/ the Group as a whole.

The liquidity risk is managed in the Group through establishment of the procedures to manage this type of risk, which are applied on an ongoing basis. No capital requirements are imposed for liquidity risk.

The key tool of liquidity risk containment is the system of limits and warning indicators of liquidity risk metrics. To ensure an acceptable liquidity risk level, the Group has a limit hierarchy in place, where the observance of lower-level limits ensures the compliance with upper-level limits.

The liquidity risk management system provides for various management tools depending on business environment: those available in a business-as-usual mode and those available in stress conditions. The liquidity management strategy shall be based both on management of assets (accumulation of liquid assets) and management of liabilities (attraction of funds in the amount sufficient to cover the expected demand for liquidity) with due regard to all established liquidity risk limits and containments. The planning of the balance sheet structure shall be carried out so as to ensure the compliance with regulatory requirements in terms of liquidity risk and established liquidity risk limits and containments. Operational management of liquidity risk is performed using procedures for forecasting liquidity risk metrics.

To reduce the risk, measures aimed at raising liquidity may be taken, as well as measures aimed at limitation of active operations, including price and non-price measures (administrative sanctions). The list of measures to reduce liquidity risk, the organization of liquidity risk management process, the functions and powers of the process participants are described in specific regulatory documents of the Bank and the Group members.

Key liquidity risk management methods:

- business planning and preparing the Funding Plan;
- system of limits and liquidity risk containment

⁶ In case that any other liquidity ratios are set as statutory ratios for the Bank/ the Group Member

- accounting for liquidity risk when pricing products;
- accounting for liquidity risk in the system of internal transfer pricing;
- use of a mechanism for motivating the activities of the units, depending on the objectives of managing liquidity risk;
- assessment of liquidity risk when agreeing terms of new banking products / services / transactions;
- coordination of major transactions in terms of impact on liquidity risk (in particular, the assessment of the impact on mandatory liquidity ratios);
- liquidity buffer management;
- development of the Liquidity Contingency Plan.

Liquidity risk within the Bank and the Group as a whole is managed by the Assets and Liabilities Management Committee of Sberbank. Sberbank Treasury organizes the formation of a management system, organizes and coordinates the process of liquidity risk management in the Bank and the Group, ensures compliance with the established risk appetite and other limits and restrictions in terms of liquidity risk, implements measures to manage physical, structural and regulatory liquidity. The Risks Block develops the target limit architecture, generates the values of limits (including Risk Appetite) and restrictions on liquidity risk metrics and submits them for consideration and further approval of by collegial bodies, exercises regular independent control over compliance with the established limits and restrictions on liquidity risk, validation of quantitative liquidity risk assessment models and escalating violations of limits and restrictions on collegial bodies, and organizes and coordinates the liquidity risk stress testing. The Group defines the general principles of liquidity risk management, including risk awareness and risk containment, division of functions based on the 3 lines of defense model, consideration of liquidity risk when introducing / developing new products, consideration of liquidity risk in pricing and performance assessment, diversification of funding sources, unified rules governing fundraising and placement operations by Group members, coordination of Group members activities in debt capital markets, and uniform principles of raising funds from capital markets for the purposes of the Bank's and the Group's liquidity risk management.

Management bodies of the Group members are responsible for effective liquidity management of relevant organizations and control of liquidity, as well as compliance with the limits and restrictions set by the Bank and local regulators. Liquidity risk in Group members is assessed, managed and controlled in accordance with the Group's unified standards taking into account the legislation and regulatory requirements of the country of a Group member's operation, as well as the diversification of requirements to various categories of Group members depending on the scale and nature of performed operations and on whether a Group member is included in the consolidation perimeter under RAS.

2.4.5. Operational Risk.

Operational risk is the risk of the Bank incurring losses as a result of any defects in internal processes, functioning of information systems, unauthorized / illegal actions or errors of employees or due to external events.

The operational risk management system is aimed at preventing such risk or the maximum possible decrease of the threat of potential losses (direct and/or indirect) connected with internal process organization and external factors (events), measurement of operational risk for the calculation of necessary regulatory and economic capital as well as the creation of an adequate system of internal control.

The operational risk management process in the Group includes the following main stages:

- operational risk identification;
- operational risk evaluation;
- analysis of problem areas of processes, development and making a decision on optimizing / changing the processes in order to reduce the level of operational risk;
- operational risk monitoring;
- control and/or reduction of operational risk.

In order to perform the stages mentioned above, the Group has implemented such operational risk management instruments as collection of internal data concerning losses caused by the realization of operational risk incidents, self-assessment of units and scenario analysis for operational risks.

Risk coordinators are appointed in all structural units of the Bank and the Group members from among unit employees, whose functions include, in particular, interaction with operational risk units in terms of identification, estimation, monitoring and control of operational risk. In particular, risk coordinators inform about materialized incidents of operational risk and estimate potential risks during self-assessment.

To monitor operational risk, the Group uses a system of reports for the management and collegial bodies involved in the risk management processes. Operational risk reporting is drawn up on a daily, monthly, and quarterly basis.

Data related to risk assessment and incurred losses help identify risk concentration areas for further development of a set of measures to mitigate the Group's risk level.

Risk reduction activities are being introduced at the Bank. These activities are intended both to change existing processes and technologies for operations and to improve the executive discipline of staff. The Bank regularly monitors measures implementation status and residual risks, both by business units and operational risk units, as well as executives and collegial bodies of the Bank management and Group members.

An approach to operational risk management based on operational risk management at the key processes level was approved. Key indicators for the main risk management zones were developed, including requirements for identification quality, quick identification and mitigation of risks, presence of early warning indicators, and the quality of operation of the first and second lines of defense.

The Supervisory Board approved threshold levels of operational risk level indicators and the risk to information security. The system of indicators was developed in accordance with new requirements of the Bank of Russia and includes 22 indicators cascaded to units. For taking into account operational risk in pricing, methodology and tools for evaluating expected losses from operational risks realization for existing and new products were developed.

The Bank approved the values of operational risk appetite, including those for units, the values of operational risk loss limits, and established the target level for identifying operational risk events of the first and second lines of defense (by business units and units of the Operational Risk Division).

To prevent and/or decrease losses that arise from materialized operational risk events, the Group has developed and applies such mechanisms and procedures as overall regulation of business processes and procedures; segregation of power; internal control over the compliance with the procedure established for operations and transactions, limit discipline; a complex of measures ensuring information security and business continuity; improvement of audit procedures and control over the quality of automated systems and hardware complex functioning; property and asset insurance; improvement of employees' qualification at all organizational levels, etc.

As of May 1, 2021, the Bank of Russia approved the calculation of operational risk capital requirements in accordance with Bank of Russia Regulation No. 744-P, dated December 7, 2020, "On the Operational Risk Calculation Method (Basel III) and Supervision of Compliance by the Bank of Russia", which reflects the main approaches of the Basel Committee on Banking Supervision (SA approach). The new amount of operational risk has been included in the statements under RAS. RWA operational risk savings amounted to 1 trillion rubles.

2.4.6. Legal Risk.

Legal risk arising from the possibility of the Group incurring losses as a result of the Group's and/or its counterparties' violation of conditions of concluded agreements, legal errors made by the Group in the implementation of activities, imperfections of the legal system, counterparty violations of regulatory legal acts, branches of the Group, legal entities, in respect of which the Group exercises control or significant influence, as well as the Group's counterparties, being under the jurisdiction of different states, is considered by the Group to be a component of operational risks.

The legal risk management process in the Group includes the following main stages:

- identification of legal risk;
- evaluation of the legal risk;
- making a decision on risk-related measures and legal risk regulation;
- monitoring and control of the level of legal risk and losses.

To implement these stages, the Group has introduced such legal risk management tools as collecting internal data on losses due to the occurrence of legal risk incidents, developing measures to minimize legal risk, preparation of reporting on legal risks.

While performing statutory activity, the Group strictly follows the requirements of effective laws and by-laws. To manage the legal risk, the following is carried out: monitoring of the lawmaking and

changes in laws and by-laws in legal banking system regulation, taxation and financial laws; legal expert examination of compliance of internal regulatory administrative documents and agreements, concluded by the Bank, with effective laws and other regulatory legal acts; regular analysis of the results of review of disputed issues with participation of the Group in judicial authorities; studies of the arbitration practice; minimizing the consequences of legal risk occurrence while protecting the interests of the Bank in courts and when interacting with public authorities.

III. Detailed Information on the Issuing Credit Institution

3.1. History of the Establishment and Development of the Issuing Credit Institution.

3.1.1. Information on the Issuing Credit Institution's Company Name.

Full company name	Sberbank of Russia
introduced on 4 August 2015	

Short company name:	Sberbank

3.1.3. Information on the Establishment and Development of the Issuing Credit Institution.

The issuing credit institution was established for an indefinite period.

Brief description of the history and development of the issuing credit institution.

Historically, Sberbank is considered to have been established on the date of the Decree issued by Emperor Nicholas I on the creation of savings banks signed on 30 October (12 November) 1841. The Decree read: "As Savings Banks may be of economic and moral use, we order to establish Savings Banks, on the grounds exposed in the Charter, for the first time under Petersburg and Moscow Saving Treasuries."

The first savings bank was opened in Petersburg on 1 March 1842, in the building of the Board of Trustees at 7 Kazanskaya St. The Petersburg Savings Bank operated in this building designed in 1810 by the architect Giacomo Quarenghi right up until 1917. On the day of its opening, the bank was visited by 76 depositors who opened accounts to a sum of 426.5 rubles. The first savings bank customer was Nikolay A. Kristofari, Court Counselor, Assistant to Expedition Director of the Saint Petersburg Loan Treasury, whose 10-ruble deposit started the Russian savings business. He received savings book No. 1.

The Moscow bank opened its doors for customers on 5 April 1842, in the building of the Board of Trustees of Solyanka Foundling Hospital. Up until 1862, it remained the only savings bank in the city that had no branches, in the same way as the one in Petersburg.

In June 1860, the savings banks passed from the jurisdiction of Boards of Trustees and Ministries of Internal Affairs to the jurisdiction of the Ministry of Finances. On 16 October 1862, the Emperor Alexander II approved a new draft for the Savings Banks Charter, under which "The purpose of the savings banks is to encourage poor people and especially the working classes to save a part of their earnings to cover for illnesses, lack of work or generally for a rainy day, providing all means for sure and profitable safekeeping of such savings."

In the 1880s, a period of rampant development of the national savings banks started. The progress was related to the changes in the government policy on savings banks under the influence of foreign experience. Since the mid 1880s, the government also started a significant expansion of the bank network outside the State Bank offices. In 1884, a decision was made to organize banks with all province and district treasuries (outlets of the Ministry of Finances), and also in any other town, suburb, or a large trade and industrial center, "where a great number of working and factory population is concentrated." As a result, while there were 42 outlets functioning under treasuries at the end of 1884, their number reached 206 in the next year, and there were 3,875 of them a decade later. The amount of deposits increased from RUB9.1 m to RUB367.9 m. The growth rate of money deposits in savings institutions was so significant that by the mid 1890s the savings outlets surpassed all other credit institutions, both state and private ones. Savings institutions started to penetrate the remote regions of the country involving different strata of the population in their activities and becoming a reliable accumulator not only for small savings of the poor but also for the income of the middle class. As a result, savings banks had assumed a leading place in the country's credit and banking system by the mid-1890s.

In the last decade of the 19th century, a new era opens up in the history of Russian savings banks connected with the name of Sergey Witte, a prominent Russian public figure of the turn of the 19th-20th centuries, and the Minister of Finance of Russia. He regarded people's savings first of all through the prism of "state enterprise foundation." S. Witte brought to perfection the mechanism of using internal savings in "state interests", and the type of the savings bank he created existed until 1917. The outlets were regarded by the Minister of Finances as "assistance to the government in financial and economic undertakings," first of all, during conversion operations and the issue of railway loans.

The huge increase in savings institutions at the turn of the 1880–1890s heralded the need for a reform of the 1862 Charter that did not satisfy the changed conditions. The new Charter was approved by Nikolai II on 1 June 1895. Article 1 read: "The state savings banks have the purpose of accepting deposits for interest accruals by giving ways of savings accumulation to the population." The government guaranteed the integrity of raised funds, and the outlets were obliged to maintain the confidentiality of deposits. The procedure of savings banks network development was simplified as much as possible: the Minister of Finances could issue an order and open savings institutions under all financial organizations, as well as any state, public or private body.

The savings banks were obliged to charge free funds to a special account in the State Bank, and they received at least 0.5% annual interest (earlier, the State Bank used the resources of savings banks free of charge). The bank operations now included ordinary on-demand deposits and conditional special-purpose deposits (for children until they come of age, for burial, etc.). The credit function of Russian banks was not developed to any noticeable extent. During the whole course of their history up to 1917, they remained "pumps" for the transfer of internal savings to the treasury's disposal. The 1895 Charter established the official status of state savings banks as financial assistance to the government.

During the First World War (1914–1917), the network of saving institutions was expanded as much as possible, and important changes took place in the composition of bank operations. The First World War was a time when the savings banks finally lost their role of charity organizations, as was intended initially, and they transformed into a kind of credit institutions. The first and one of the most important transformations was the law dated 7 July 1915, on cancellation of the maximum deposit sum and giving customers the right to deposit their savings with the banks without limiting them with any norms. In July 1915, an instruction was given to introduce operations of acceptance of state interest-bearing securities for keeping in the savings banks and their management on a paid-for basis. During the World War, one more important reform in the savings business was prepared: the introduction of check operations.

The period after the October Revolution of 1917 was marked by a crisis for the savings banks. Once again, private savings took the form of fully disorganized natural accumulations of products and deposits cautiously kept in thrift boxes in concealed locations. However, the system of state savings banks with their tradition where the state was using available population funds was an institution that did not contradict the new authorities' attitudes and could become useful in practice. Therefore the State Bank (renamed People's Bank) and the state savings banks were the only ones to survive from the former credit system. Based on the decree of the Council of People's Commissars dated 10 April 1919, the savings institutions were merged with the RSFSR People's Bank to create a unified cash apparatus, and it inherited all assets and liabilities of the savings banks. The savings banks organized at the end of 1922 were not the formal successors of the savings institutions in tsarist Russia. The savings business, just like many other things at this time, was actually created anew. Only certain organizational traits of the old apparatus and the external forms of operations were taken from the past. The essence of the savings bank policy in the tsarist time involved the provision primarily of a reliable place to keep money for the depositors and ensuring relatively moderate interest. "Labor" savings banks attracted funds first of all for their direct economic use. The royal banks were as a rule created in places where savings were available; the "labor" banks had to "generate" them; they were formed from scratch and had to conduct promotional and organizational work. From the start, the network of the Soviet savings banks was based on an attempt to have as many credit organizations as possible, locating them in cities and villages to achieve maximum reach to the population and, at the same time, create a convenient service for the people.

Further on, the line for the country's industrialization and agricultural collectivization brought about large-scale and deep structural transformations of the whole society. When the first five-year plan was approved in 1929, the development of the savings business in the country was also predetermined in many ways. A new Provision on state labor savings banks was approved. The Provision secured changes in the functioning of savings banks related to serving the widest circles of the population in maintaining simple banking as well as stock and settlement operations. The following operations were introduced in savings banks: depositing, transfer, letter of credit, securities operations, acceptance of payments, taxes and duties, cashless settlement operations, payment of pensions, and issuance of savings certificates. In addition, the savings banks had to participate directly in the realization of state loans and conduct operations with their bonds: sales, payment for express coupons, payment of prizes, interest and repayment capital, as well as acceptance of bonds for safekeeping and granting loans with bonds as collateral. Thus, the savings banks could perform

a wide range of operations, and in this respect their activities were much more extensive in comparison not only with pre-revolutionary banks but also with the savings banks of foreign countries that existed at the time.

During the Second World War, the savings banks had the task of preserving the main part of savings accumulated before the war in state circulation and also ensuring the attraction of new deposits; the use of flexible organizational forms for prompt service of customers allowing for their forced migration; development of new kinds of cash and credit operations, the need for which increased in conditions of war. During the war years, the priority in the operations of savings banks was holding loan campaigns and serving bondholders, making deposits, accepting tax and other payments. The savings banks also had the obligation of accepting money in the patriotic funds ("Defense" and "Red Army"), pay state benefits to single mothers and mothers with many children, pay cash benefits to families of officers, payments under merit certificates, personal pensions, etc. During the war, savings banks played a huge role in depositing state loans and also in organization of cash and prize lotteries.

In the post-war period, a new Charter of the State Labor Savings Banks of the USSR was approved in 1948, thus replacing the previous Charter of 1929. The approval of the 1948 Charter was the next stage in the transition from the system of state savings banks to the Savings Bank. Under the new Charter, the state labor savings banks became a unified state credit institution legally represented as the Main Administration of Labor Savings Banks and State Credit. Its inferior bodies in union and autonomous republics, territories, regions, and cities included relevant administrations of the state labor savings banks and state credit. Central savings banks, which were the basic type of savings banks, reported to local administrations. The main aim of savings institutions was to give the population the opportunity to store free funds reliably and make settlements, assist in accumulating funds and their use for development of the USSR national economy.

At the start of the 1960s, due to a considerable change in the role of savings institutions in budget financing and crediting of the national economy, the government set the task of establishing a tighter connection of savings business development with crediting of the national economy and support of stable circulation of funds and the purchasing power of the ruble. In accordance with the Decree of the USSR Council of Ministers No. 1061 dated 4 October 1962, the system of savings banks with all assets and liabilities as of 1 January 1963, passed from the jurisdiction of the USSR Ministry of Finances to that of the USSR State Bank. As a result, allocating the funds attracted by savings banks in the form of deposits for extending loans to the national economy, the State Bank concentrated up to 95 percent of all operations related to crediting of the national economy. The transfer of state labor savings banks to the system of the State Bank helped improve functioning of the cash service and cash collection service, introduce mechanical processing of reports, improve equipment of cash desks, and ensure their connection to cash management services provided to enterprises and institutions. In 1963, the savings banks started accepting utilities payments from the population. This decision played a substantially positive role in development of the savings system as now practically the entire population of the country numbered among its customers, which also made it possible to expect an increase in the number of depositors and the amount of deposits. It was followed by opening current accounts for schools, hospitals, children's institutions, and other organizations in savings banks with a small volume of settlement and cash services.

In 1977 the USSR Council of Ministers approved a new Savings Banks Charter, under which savings banks were defined as a "unified union credit institution". The savings banks were given monopoly rights to the organization of the savings business in the country: only savings banks had the right to issue a document called a "Savings Book" to the depositor. The government's further decisions envisaged a number of measures to expand the functions of savings banks and improve the culture of customer service. The savings banks received over 7 thousand new premises, and 600 more were built using own resources or on the terms of share participation, and equipment of savings banks was also improved. A number of organizational measures were taken aimed at improving the savings banks' working hours and creation of additional conveniences for the population: by 1985 over 70% of the savings banks worked outside working hours and on general days off.

In 1987, the system of institutions of the USSR State Labor Savings Banks was reorganized to form the Bank of Labor Savings and Lending for the USSR Population (USSR Savings Bank), a state specialized bank for serving the population and legal entities. Sberbank of the USSR included 15 republican banks, 166 provincial, regional and city offices, 4.1 thousand branch offices with 50.7 thousand branches and 22.1 thousand agencies. In 1988, the Executive Board of Sberbank of the USSR made a decision to transform the bank's activities related to transition of Sberbank's entire

system to economic methods of management, strengthening of the material and technical base, creation of modern infrastructure for savings institutions, active implementation of cashless settlement, better satisfaction of the growing demand of citizens for banking services, maximal use of automation means, creating a system of trained personnel preparation, and increasing labor remuneration. In 1988, all the branches of USSR Savings Bank shifted to full self-support and started to use the team form of labor organization and remuneration.

From the middle of 1990, due to the political situation in the country, the Board of USSR Sberbank started working on gradual internal reformation. Under the Decree of the RSFSR Supreme Council dated 13 July 1990, the Russian Republican Bank of USSR Sberbank was declared the sovereign property of the Russian Federation. In the fall of 1991, the process of dismantling the USSR structures gained momentum and their functions were switched to Russian ones. On 20 December 1991, the USSR State Bank ceased to exist. On 24 December 1991, self-liquidation of USSR Sberbank was declared on the basis of the decision of its Council. After the USSR dissolved, only Sberbank survived in the competitive struggle of all republican savings banks in the post-Soviet space. The savings banks in former Soviet republics either ceased to exist altogether or occupied a minor position in the financial system of their countries.

The Joint-Stock Commercial Savings Bank of the Russian Federation was created in the form of a joint-stock company in accordance with RSFSR Law dated 2 December 1990, "On Banks and Banking Activity in RSFSR". Central Bank of the RSFSR was the founder. On 22 March 1991, the General Meeting of Shareholders of RSFSR Savings Bank made a decision to approve the Charter of RSFSR Joint-Stock Commercial Savings Bank, registered with RSFSR Central Bank on 20 June 1991.

Today, Sberbank is a modern, universal bank that satisfies the needs of different groups of customers in a wide range of banking services, and it is the largest bank in the Russian Federation and the CIS. The share of the Bank in the assets of the banking system and banking capital stands at the level of 30 percent.

Sberbank has the largest share on the market of deposits and is the main creditor of the Russian economy. The Bank tries to efficiently invest the customers' attracted funds in the economy's real sector, it gives loans to citizens, contributes to stable functioning of the Russian banking system, and maintains deposits of the population.

Crediting enterprises of the real economy sector is the main priority of the bank's functioning. Sberbank occupies a leading position in the country's banking system by the amount of investment in the real sector of the economy: its share on the market of lending to legal entities stands at over 30 percent.

An important trend of Sberbank's credit work is financing of the customers' investment and construction projects. The loans provided for these purposes form the basis of the portfolio of specialized loans to legal entities.

Cooperation with Russian companies in raising funds is one of the most important areas of the bank's business. The Bank offers its corporate customers cash management services, international business services, and package services.

As part of optimizing the process of lending to individuals, Sberbank implemented a new technology, Credit Factory, in 2009, an integrated, automated and strictly formalized approach to lending decision making, which has helped reduce decision-making terms for customer applications, reduce expenses on analyzing transactions and on document flow. In 2011, all regional banks were already connected to Credit Factory technology. Credit Factory's scoring technology is also available to small businesses.

The Bank actively develops operations with bank cards relying on the extensive geography of card acceptance, a product line demanded by different categories of customers and competitive rates. Sberbank has been a confident leader in Europe since 2008 in terms of issued cards.

Sberbank is actively offering its customers a wide range of insurance products sold jointly with partner insurance companies (life and health insurance and insurance against accidents and diseases for individual customers and employees of various companies, insurance of property used as collateral for loans, insurance against financial risks and civil liability of corporate customers, bank card protection, insurance when traveling abroad and in Russia, and others).

Sberbank continues to actively develop its remote sales channels, in particular, by expanding its network of Self-Service Terminals. The Bank is also successfully developing Sberbank Online, another remote service. The number of its active users already exceeds 9 m. Customers are offered

new versions of Sberbank Online for iPhone, iPad and Android devices, and an application for Windows Phone.

3.2.6. Information on the Activity of Certain Categories of Issuers. Information on Activity of Issuing Credit Institutions.

The primary activity, that is, the prevailing and priority activity (types of activity and bank operations) for the issuing credit institution:

Sberbank's primary activity is banking operations:

- Operations with corporate customers: maintaining settlement and current accounts, opening deposits, offering financing, granting guarantees, supporting export and import operations, offering cash collection service, conversion services, transfers to legal entities, etc.
- Operations with retail customers: accepting funds as deposits and investments into the Bank's securities, loans, bank card services, operations with precious metals, buying and selling foreign currencies, payments, transfers, custody of valuables, etc.
- Financial markets transactions: involving securities, derivative financial instruments, foreign currency, etc.

The share of the income of the issuing credit institution from the main activity (types of activity, types of banking operations) in the total amount of income received by the issuing credit institution for the reporting period (for the last completed reporting year and for the reporting period consisting of 6 months of the current year):

The Bank refers the following kinds of income to income from its primary activity:

- interest and commission income from lending operations;
- income from operations with securities and other financial instruments;
- commission income;

- net income from operations with foreign currency and foreign currency revaluation.

The share of the Bank's Income from its primary activity (types of activity) in the Bank's total income received for the respective period

INDICATOR	6 months of 2021	6 months of 2020
Share of Bank's income from its primary activity	98,9 %	97.5%

Changes in the amount of income of the issuing credit institution from its primary activity (types of activity and bank operations) by 10 and more percent as compared to the similar periods of the previous year and reasons for such changes:

The Bank's operating income for the 6 months of 2021 totaled RUB 1,547.4 billion, up 0.7%, or RUB 10.9 billion, from the 6 months of 2020. The dynamics is mainly conditioned by growth in interest and fee and commission income, which increased due to an increase in operating assets, in particular, retail lending and investments in securities, as well as the recovery of transactional consumer activity.

3.3. Plans for future activities of the issuing credit institution.

Sberbank's medium-term development plans were defined by its Development Strategy for 2021–2023.

In accordance with the Strategy, Sberbank Group plans to implement initiatives which will allow the Bank to become a trusted assistant and navigate in the changing world: for a person, for business, for a state, by building a fully integrated ecosystem.

The Group's key tasks include creating single seamless customer experience of using financial and non-financial services, and involving a customer in the ecosystem via beneficial products.

For the people Sberbank is an assistant and a navigator: it helps individuals to optimize money, time, and energy.

For business Sberbank is a partner who helps maintain and grow a business: it increases revenues, reduces costs, protects against risks, and offers digitalization services.

For the country Sberbank supports the Government to increase economic growth: it promotes well-being of the population, develops small and medium-sized businesses, accelerates digitalization, transforms industries, supports education and science, and helps protect the environment and develop ESG (a responsible approach).

Sberbank connects the needs of people, business and the country using technologies and its solutions, integrating all its services into a single ecosystem, and establishes general processes: financial, operational, technological processes, risk management, team management, and culture for achieving maximum synergy.

The ESG agenda is becoming a new and important part of our Strategy. Sberbank is developing "green" products and principles for responsible financing, and continues many social and environmental initiatives to contribute to the development of standards of living, small and medium-sized businesses in Russia.

Sberbank is developing marketplaces and tools that are mutually beneficial for both corporate and retail customers. E-commerce will become one of such platforms.

In order to implement the new business model, Sberbank will continue to invest in the development of technologies and the team.

3.4. Issuing credit institution's membership in industrial, banking and financial groups, holding companies, concerns, and associations.

Organization: Association of Russian Banks

Credit institution's role (place), functions and period of membership in the organization:

A member of the association

The year of joining the organization: 2017

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: The FinTech Association

Credit institution's role (place), functions and period of membership in the organization:

A member of the association

The year of joining the organization: 2017

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: The Enterprise Ethereum Alliance, a non-profit alliance

Credit institution's role (place), functions and period of membership in the organization:

A member of the alliance

The year of joining the organization: 2017

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: The Association of Operators and Developers of Unmanned Aircraft Systems AERONET

Credit institution's role (place), functions and period of membership in the organization:

A member of the association

The year of joining the organization: 2018

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: Association of student olympiads Ya – Professional (I am a Professional)

Credit institution's role (place), functions and period of membership in the organization:

A member of the association

The year of joining the organization: 2018

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: Association of Big Data Market Participants

Credit institution's role (place), functions and period of membership in the organization:

A member of the association

The year of joining the organization: 2018

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: National Association of Robotics Market Participants

Credit institution's role (place), functions and period of membership in the organization:

A member of the association

The year of joining the organization: 2018

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: The Financial Literacy Association

Credit institution's role (place), functions and period of membership in the organization:

A member of the association

The year of joining the organization: 2019

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: National Association of International Information Security

Credit institution's role (place), functions and period of membership in the organization:

A member of the association

The year of joining the organization: 2019

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: National Association of Technology Transfer

Credit institution's role (place), functions and period of membership in the organization:

A member of the association

The year of joining the organization: 2019

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: AI Alliance Association

Credit institution's role (place), functions and period of membership in the organization:

A member of the association

The year of joining the organization: 2020

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: The International Bank Security Association

Credit institution's role (place), functions and period of membership in the organization:

A member of the association

The year of joining the organization: 1994

Membership has been suspended since 27 September 2016

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: The International Capital Markets Association

Credit institution's role (place), functions and period of membership in the organization:

A member of the association

The year of joining the organization: 1998

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: The National Finance Association, a self-regulatory organization

Credit institution's role (place), functions and period of membership in the organization:

A member of the association (dealing and depository services)

An associate member (brokerage services)

The year of joining the organization: 1996

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: The National Association of Stock Market Participants

Credit institution's role (place), functions and period of membership in the organization:

A member of the association (brokerage services)

An associate member (dealing and depository services)

The year of joining the organization: 2009

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: The MasterCard Members Association (a non-profit organization)

(The MasterCard Members Association)

Credit institution's role (place), functions and period of membership in the organization:

A member of the association

The year of joining the organization: 1995

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed.

Organization: The Russian National Association of SWIFT Members

Credit institution's role (place), functions and period of membership in the organization:

A member of the association

The year of joining the organization: 1995

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed.

Organization: The Russian-American Business Cooperation Council, a non-profit association of legal entities

Credit institution's role (place), functions and period of membership in the organization:

A member of the association

The year of joining the organization: 2001

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed.

Organization: Association of entities in the field of cash circulation, cash collection and transportation of valuables

Credit institution's role (place), functions and period of membership in the organization:

A member of the association

The year of joining the organization: 2017

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: The Union "Russian-German Chamber of Commerce"

Credit institution's role (place), functions and period of membership in the organization:

The Union member

The year of joining the organization: 2015

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

3.5. Entities controlled by the issuing credit institution and materially important for that issuing credit institution (controlled entities)

No.

3.6. Composition, structure, and cost of fixed assets of the issuing credit institution, plans to buy, replace, or write off fixed assets, information about encumbrance of fixed assets of the issuing credit institution.

Initial (replacement) value of fixed assets and accrued depreciation:

No No.	Group of fixed assets	Initial (replacement) value, thous. RUB	Accrued depreciation, – thous. RUB
Reporting date: 01/07/2021			
1	Fixed Assets:	603,048,560	273,257,069
1.1.	incl. real estate	169,553,238	5,357,184
2	Land	3,871,834	-
3	Real estate (except land) temporarily unused in primary activities recognized at (fair) value	5,764,298	-
4	Land temporarily unused in primary activities recognized at (fair) value	243	-
5	Long-term assets held for sale	3,526,670	-

Depreciation calculation methods by groups of fixed assets

Under the Accounting Policy of Sberbank, depreciation of fixed assets is calculated on a monthly basis:

- Standards set by Decree of the Council of Ministers of the USSR No.1072 dated 22 October 1990 are used for items accepted for accounting prior to 1 January 2000. In the period ended 1 January 2007, items were depreciated up to their book value minus the balance of the revaluation fund established for such assets. Since 1 January 2007, items accepted for accounting before 1 January 2000 have been depreciated up to their book value according to the standards effective on the date of accepting such items for accounting;

- The linear method is applied for items acquired after 1 January 2000 during their useful lifespan. Items shall be depreciated up to their book value and an annual depreciation deductions shall be calculated based on the initial or current (replacement) value (in case of revaluation) of the fixed asset and a depreciation rate calculated based on the item's useful lifespan;

- for assets accepted for accounting after 1 January 2003 the depreciation rate is set by RF government Decree No. 1, dated 1 January 2002, "On Classification of Fixed Assets Divided into Depreciation Groups", and their useful lifespan is determined under the Accounting Policy of Sberbank for Tax Purposes;

- for assets listed in the Bank's Order 1722-P dated 23 November 2015 the linear method is applied and their depreciation rate is calculated based on their useful lifespan set by this Order;

- for objects in the form of capital investments in leased objects, in a linear manner, based on depreciation rates calculated on the basis of useful lives, defined as the period of time during which the facility is planned to be used by the Bank for economic benefits, but not more than ten years.

Since 1 January 2016 the maximum amount of accrued depreciation of fixed assets has been set equal to their initial or reevaluated value minus their estimated residual value.

An estimated residual value of assets of the motor vehicle category is set as a percentage of their book value as of 1 January 2016 (for vehicles acquired before 1 January 2016) or on the date of their acquiring (for vehicles acquired after 1 January 2016) as follows:

- for company vehicles (regular) - 20%
- for company vehicles of executives class - 35%
- for special cash collection service vehicles - 8%

The residual value of fixed assets of other categories is disregarded as insignificant.

Depreciation for impaired fixed assets is accrued taking into account the decrease in their value for the impairment amount, represented in accounting, starting from the date following the date when they were recognized as impaired for the remaining part of their useful life.

Results of the last revaluation of fixed assets and long-term leased fixed assets in the last completed financial year:

Results of assessing the fair value of fixed assets classified as "Buildings (other than movable ones)" performed during the most recently ended financial ear:

Name of the group of fixed assets	Book value of fixed assets before revaluation, RUB thous.		Book value of fixed assets after revaluation, RUB thousand		Revaluation date and method/valuation methodology
	full	depreciated	full	depreciated	
1	2	3	4	5	6
Reporting date: as at 01/01/2021 (EARD)					
Buildings (other than movable ones)	175,541,007	171,094,583	162,759,021	162,750,183	Date of revaluation 22, 26 January 2021 (EARD operations). Valuation Methodology: The method of comparing sales within a comparative approach was used for real estate with market information on comparable transactions or sale offers. Valuation of buildings with no direct market analogues for

					comparison, and/or buildings designed and constructed taking into account the Bank's specific requirements, was based on determining the replacement cost within the expense approach.
--	--	--	--	--	--

The revaluation at fair value was performed as at 1 January 2021 and represented in the 2020 statements as events after the reporting date (EARD) based on the opinion of an independent appraiser who has the necessary qualification and experience in valuing assets of this category. LLC Avers Appraisal Center was the appraiser.

Information about plans to buy, replace or write off fixed assets, the cost of which exceeds 10 or more percent of the cost of fixed assets of the issuing credit institution and other fixed assets decided on by the issuing credit institution:

In the near future (Q3 2021), Sberbank does not plan to make transactions involving real estate worth 10 or more percent of its fixed assets value.

Information about all encumbrances of fixed assets as at 01/07/2021:

No.	Item name	Document about encumbrance (restriction)	Summary of encumbrance (restriction)	Period of encumbrance (restriction)

10	Total comprehensive income for the reporting period	510,621,870	388,987,872

Economic analysis of financial results of the issuing credit institution based on trends in its performance:

Comparing the results of 1H 2021 and 1H 2020:

- ***Net interest income*** rose by 12.5%, or RUB89.6 billion due to growth of operating assets, primarily loans to customers and the securities portfolio.
- ***Net fee and commission income*** rose by 18.6%, or RUB43.1 billion, on a comparable basis, mainly due to income from bank card and acquiring transactions, which are gradually increasing as economic activity recovers.

- **Spending on provisions for loans and other losses** in the 6 months of 2021 amounted to 3.0 billion rubles, which is significantly less than corresponding spending in the 6 months of 2020 (319.1 billion rubles), when its considerable volume was conditioned by a deteriorating macroeconomic situation due to the pandemic and restrictive measures.
- **Staff, administration, business and depreciation costs** increased by 7.6% due to the low level of these expenses in the spring of 2020 related to the “non-business day” mode and the slowdown in business activity.
- **Net income** increased by 76.2% and amounted to RUB594.8 billion. The noticeable growth was due to an overall improvement in the economic situation, against which the bank was steadily increasing its loan portfolio and developing its transactional business, which had a positive effect on net interest income and net fee and commission income. In addition, the stable quality of the portfolio enabled the reduction of provision expenses.

4.2. Liquidity of the issuing credit institution, equity (capital) adequacy.

Symbol (number) of the ratio	Ratio	Allowed ratio value	Actual ratio value	
			As of 01/07/2021	As of 01/07/2020
N1.1	Base capital adequacy	Min 4,5%	12.02	13.64
N1.2	Fixed capital adequacy	Min 6%	12.49	13.64
N1.0	Equity (capital) adequacy	Min 8%	14.75	15.77
N1.4	Financial leverage	Min 3%	11,13	12.98
N2	Instant liquidity	Min 15%	98.67	88.72
N3	Current liquidity	Min 50%	115.03	173.89
N4	Long-term liquidity	Max 120%	65.91	58.34
N6	Maximum risk per one borrower or per group of related borrowers	Max 25%	14.75	13.42
N7	Maximum amount of major credit risks	Max 800%	86.38	61.27
N12	Use of equity (capital) to acquire shares (interests) in other legal entities	Max 25%	16.73	13.61
N25	Maximum credit exposure to the bank's affiliate (a group of the bank's affiliates)	Max 20%	10.33	6.89

Economic analysis of the issuing credit institution's liquidity, solvency, and capital adequacy to fulfill its short-term obligations and to cover its current operating expenses based on the economic analysis of trends in the given indicators and description of factors which, in the opinion of the issuer's management bodies, most critically affect its liquidity and solvency:

Between 01/07/2020 and 01/07/2021, the total amount of Sberbank's assets increased by RUB4.929 billion and was RUB34.773 billion at the end of Q2 2021 (compared to RUB29.844 billion as at 01/07/2019).

The main factors that determined the growth trends in assets were:

- increased amount of net loans receivable (by RUB3.444 billion)
- growth of investments in securities and other financial assets (by RUB1.670 billion)

The amount of Sberbank's liabilities between 01/07/2020 and 01/07/2021 increased by RUB4,907 billion mainly due to the increase in the amount of funds from customers that are not credit institutions (by RUB955 billion, including due to individuals by RUB4,482 billion), as well as debt securities issuance (growth by RUB180 billion).

As part of liquidity risk management, the Bank has retained a sufficient amount of liquidity reserves, including through active work on maintaining the collateral in accordance with the Bank of Russia Ordinance No. 4801-Y (4801-U) “On the Form and Conditions for Refinancing Credit Institutions on the Security” dated 22 May 2018.

The Banks overcomplies with the limits of mandatory liquidity ratios established by the Bank of Russia.

The instant liquidity ratio (N2) of the Bank regulates the risk of the Bank losing its liquidity during the trading day (min 15%). From 01/07/2020 until 01/07/2021, N2 increased by 9.95 percentage points and was 98.67% as of 1 July 2021.

The Bank's current liquidity ratio (N3) reflects the risk of the Bank's losing its solvency within 30 days (min 50%). After 1 July 2020, N3 decreased by 58.86 percentage points and was 115.03% as of 1 July 2021. The decreased N3 was due to the reduced term structure of funds from customers.

The Bank's long-term liquidity ratio (N4) reflects the risk of the Bank losing its liquidity as a result of deposits in long-term assets (max 120%). From 01/07/2020 until 01/07/2021, N4 increased by 7.57 percentage points and was 65.91% as of 1 July 2021.

The Basel III short-term liquidity ratio (R26, non-revolving credit line) assesses the ability of the Sberbank Group to unconditionally, timely and fully meet its cash and other liabilities in conditions of instability within the next 30 calendar days from the date of the calculation of the ratio. Ratio R26 is calculated at the level of the Sberbank Group. The minimum permissible ratio value is 100%⁷.

4.3. Financial investments of the issuing credit institution

As of January 1 and July 1, 2021, the Bank has no financial investments of 5 or more percent of all financial investments.

4.4. Intangible assets of the issuing credit institution

Intangible assets	Initial (replacement) cost, thous. RUB	Accumulated depreciation, thous. RUB
Reporting date: 01/07/2021		
IA	136,122,833	79,630,277

Accounting standards (rules) used by the issuing credit institution to report about its intangible assets:

Since January 1, 2016, Bank of Russia Regulation No. 448-II (448-P), dated December 22, 2014, "Accounting Procedure for Fixed Assets, Intangible Assets, Real Estate Temporarily Not Used for Primary Activities, Long-Term Assets for Sale, Inventories, Working Tools and Items Received under an Accord and Satisfaction Agreement or Pledge Agreement with Indefinite Purpose to Be Applied by Credit Institutions" has been used as a guideline for accounting of intangible assets.

4.5. Information on the policy applied and costs incurred by the issuing credit institution in the sphere of scientific and technical development, licenses and patents, new research and developments.

In recent years Sberbank has conducted a number of key activities in technological transformation:

In 2020, Sber completed the stage of Platform V creation and launched large-scale migration of its core business to the new platform. Platform V is a fundamental component of the new Strategy that underpins all development plans for financial and non-financial business. As part of the new Strategy, Sber is to complete the transfer of core part of its current business to the platform, and the share of IT landscape in the target state will be 80%.

Not only banking business, but also subsidiaries will use Platform V components. This concerns the main connecting link of the ecosystem - the unifying elements, such as the single customer ID (SberID), the single product catalog, etc. There are already more than 20 of those, and they are all based on the Platform.

Increase in infrastructure efficiency is another main IT task for Sber. Over the past few years, Sber has taken solid steps in this area. Sber has created its own internal cloud, where developers have

⁷ The value of the N26 ratio is provided in accordance with reporting form 0409813, in accordance with Bank of Russia Ordinance No. 4927-U "On the list, forms and procedure for preparation and submission of reporting forms of credit institutions to the Central Bank of Russian Federation" dated 08/10/2018. Information for Q2 2021 will be disclosed in accordance with Bank of Russia Ordinance No. 4482-Y (4482-U), dated August 7, 2017, "On the Forms and the Procedure for Disclosure (by Parent Credit Institutions of Banking Groups) of Information on Risks Accepted, Risk Assessment Procedures, and Risk and Capital Management Procedures".

over 90% of their infrastructure. It has not only dramatically accelerated the provision of capacity from several weeks to just five minutes, but also changed the whole user experience. Sber has implemented a tariff-based IT management model, which makes our costs as transparent as possible, including infrastructure costs, and covers more than 80% of all IT-related costs.

One more important part of infrastructure is related to the remote access for employees. The 2020 pandemic posed a new challenge for Sber: to transfer employees to work from home and to arrange remote interaction between teams as fast as possible. Sber has adapted production process tools specifically for its development teams. As a result, tens of thousands of IT employees are working efficiently from home. If needed, Sber can transfer the whole technology team to remote mode.

Most of Sber's strategic initiatives are based on deep understanding of our customers' needs. As part of developing the corporate analytics and AI platform "Data Factory", time of gaining access to data on a subscription basis in the self-service mode decreased considerably - now it is no more than one hour. To enable fast and easy working with AI models, Sber implemented a single workplace for internal data handling specialists, which includes all the necessary tools for creating and training models. As a result, models are launched into the runtime environment in no more than four hours. Moreover, an important focus in development is the cost of big data storage. Sber has planned a number of initiatives that will help to cut data storage costs up to fourfold over the next three years.

The SberCloud subsidiary serves as the basis for developing a cloud platform providing its services to companies for efficient business development. In this case, companies do not spend resources to create their own IT infrastructure, but focus on their core activities. According to Strategy 2023, Sber is pursuing an ambitious goal – to offer technical solutions at the federal and regional levels, particularly with the focus on digital industry solutions for transport, social sector, security, energy efficiency and other areas.

The market of virtual assistants is continuing to grow rapidly, and Sber is becoming its most active player. In September 2020, Sber launched a virtual assistant called Salute with three various characters. Customers can now choose an assistant to their liking and change it at any time.

The Salute family are much more capable than regular mobile apps. Due to connecting Sber ecosystem services to Salute, it will become a part of customers' daily life. It can help to play a movie or a music track, order food, make a doctor's appointment, or even discuss various topics. Salute perceives voice, text, touch, and even gestures. Sber has begun creating smart devices especially for virtual assistants. It released SberBox, a TV set-top box, and SberPortal, a smart display. These devices expand interaction with the assistant. While the Salute assistant in the mobile Sberbank Online app is optimized for working with finance, SberBox and SberPortal will be more convenient for viewing recipes, learning languages, playing games, and much more. Sber is also planning to embed the assistant in partners' devices.

In the 2nd quarter of 2021, the Bank's total costs to achieve these objectives amounted to RUB29.8 billion.

4.6. Analysis of development trends in the primary activities of the issuing credit institution

Major trends in the banking sector of the economy for the last completed reporting year and for corresponding reporting period consisting of 6 months of the current year, and the main factors affecting the state of the banking sector:

Summary for 2020

In 2020, the number of existing credit institutions (credit institutions entitled to perform bank transactions) decreased from 442 (as at 1 January 2020) to 406 (as at 1 January 2021).

In 2020, overall, assets of the banking industry increased by 16,5% (while in the 4th quarter of 2020 they increased by 2,2%). Banks' assets increased by 2,7% in 2019.

Over the 12 months of 2020, the growth rate of the loan portfolio of the banking industry doubled compared to 2019: 14,4% and 7,1%, respectively. The trend was positive for all types of loans. While the amount of corporate loans increased by 14,8% in 2020 (compared to a 2,6% increase in the same period of 2019), the amount of retail loans increased by 13,6%, which was slightly worse than the growth by 18,5% a year earlier. In the 4th quarter of 2020 the trend for loans differed considerably: loans to individuals increased by 3,2%, and loans to enterprises added a mere 0,1%.

The situation with credit risks in the banking industry deteriorated slightly despite negative growth. Overdue loans as at 1 January 2021 amounted to 6,3% (vs. 6,2% as at 1 January 2020 and

6,4% as at 1 October 2020). The amount of bad debt to individuals increased from 4,3% to 4,7% (4,7% as at 1 October 2020) and debt of the corporate sector remained at 7,1% (7,2% as at 1 October 2020). The total amount of overdue loans (to individuals and businesses) increased by 16,2% in 2020 (compared to the growth of 20,1% in 2019).

The growth of potential risks of the banking industry better represents the growth of bank provisions which added 27,7% in 2020 (a decrease by 1,6% in 2019). Loan provisions in 2020 increased by 14,5% versus the 5,2% growth a year earlier. The loan provisions to loan portfolio ratio did not change and amounted to 8,54% as at 1 January 2021 (8.53% as at 1 January 2020).

From January through December 2020, bank investments in securities added almost a third: 32,1%, after decreasing by 8,3% in the previous year.

Legal entity funds, including budget funds attracted by banks, increased by 20,1% in 2020 (in September-December 2020 they increased by 2,0%). In the same period of 2019 this liabilities item saw a 4,8% increase. The budget funds over this period almost did not change (8,9% growth) versus the 6.8% increase a year earlier. The demand for funds attracted from a regulator increased significantly: the debt to the Bank of Russia grew by 46,8% against a decrease by 6,0% in 2019.

During the period under review, retail deposits increased by 11,3%. Over the same period of the previous year, the amount of deposits increased by 7,3%. At the same time, market growth was 4,0% in the 4th quarter of 2020.

In 2020, the balance sheet profits of the banking industry amounted to RUB1.97 trillion, which is 3,1% less than the similar figure for the same period of the previous year (RUB2,036 billion). The growth of profit in the 4th quarter of 2020 amounted to RUB590 billion. Eighty-five out of 406 currently operating credit institutions (or 20,9% of their total number) reported loss in 2020. As at 1 January 2020, 17,0% of credit institutions were unprofitable.

Summary for the six months of 2021:

In the 1st half of 2021, the economy moved from recession to recovery. In spite of the ongoing coronavirus pandemic, the dynamics of GDP and other indicators of economic growth rates have achieved positive numbers. The positive impact was made by favorable external economic conditions - the oil price was over \$60 per barrel. It promoted the confidence with regard to loan portfolio quality and positive changes in lending amounts.

For the period from January to June 2021, the number of operating credit institutions (credit institutions entitled to perform bank transactions) decreased from 406 (as of January 1, 2021) to 378 (as of July 1, 2021).

The assets of banking industry increased by 5.5%, while last year they added a mere 6.8% over the same period. As compared to the last year, the situation in foreign exchange market has relatively stabilized.

The banking system's loan portfolio grew by 6.8%, which is higher than in 2020 (6.1%). Corporate loans increased by 4.6% (vs. 6.9% a year earlier). Retail loans increased by 11.6%, which is almost three times higher than in 2020, when the growth amounted to 4.2%.

Credit risks in the banking industry remain stable, despite the still challenging economic and epidemiological situation. The amount of overdue loans as of July 1, 2021 was 5.9%, having decreased compared to the beginning of the year (6.3%). At the same time, the level of overdue debt on the corporate loan portfolio decreased from 7.1% to 6.7%, while the quality of retail loan portfolio decreased from 4.7% to 4.4%. The overall volume of overdue loans in the industry increased by 0.5%.

Loan provisions of banks grew only by 0.1% from January to June 2021, which is considerably lower than the growth of provisions during the same period in 2020 (9.6%).

During the 6 months of 2021, the banks' investments in securities grew by 6.5%, compared to the increase by 5.6% during the same period of last year.

Due to legal entities in the first half of 2021 increased by 13.9% (growth for the same period in 2020 was 8.9%). The Bank of Russia suspended active injections into the banking industry: funds borrowed from the Bank of Russia have decreased by 29.4% (YTD), while a year earlier they increased by 4.6%.

Retail deposits increased by 1.6%, down from past year's 3.7% growth.

From January to June 2021, the banking industry's book profit amounted to about RUB1,412.5 billion, up by 82.6% compared to the six months of 2020. The share of unprofitable banks has slightly decreased: 24% of banks finished the quarter with losses (last year, it was 28%).

General assessment of issuing credit institution performance in the banking sector:

Sberbank confidently retains its positions as a leading credit institution of the Russian Federation.

As of July 1, 2021, Sberbank holds the following shares:

- **40.2%** of the capital in the banking industry (-1.3 p.p. vs. 01/01/2021)⁸
- **31.1%** of assets in the banking industry (-0.2 p.p.)
- **42.3%** of the retail lending market (+0.2 p.p.)
- **31.8%** in loans to legal entities (-0.4 pp);
- **45,4%** of deposits by individuals (-0,0 p.p.)
- **24.2%** of funds due to legal entities (including individual entrepreneurs) (+1.4 p.p.).

4.7. Analysis of factors and conditions affecting performance of the issuing credit institution

Factors and conditions affecting the performance of the issuing credit institution and having made their impact on the change in the amount of profit (loss) of the issuing credit institution from its primary activities:

Remaining geopolitical tensions. The crisis in relations between the largest developed countries, primarily the USA and the EU, on the one hand, and Russia, on the other, continues and is accompanied by imposing economic sanctions on the largest Russian companies and banks. This limits the opportunities of Russian banks in terms of funding abroad.

Stronger state influence in the economy and the banking system. As economic sanctions against Russia continue, the government becomes an important provider of resources to support both banks and the entire economy with various capitalization tools. Moreover, the state remains a significant participant of banking activities through the Foundation of Consolidation in the Banking Sector and DOM.RF.

Impact of the economy on banking markets in 2021 The main indicators of changes in the economy are starting to grow after a significant fall in 2020. However, an increased demand for loans was already formed in the middle of 2020 – due to easing of the Central Bank’s monetary policy and temporary liberalization of the rules for creating provisions. The growth of GDP and real income of the population in 2021 will help to maintain the achieved growth rates of the banking markets.

Possible continued policy aimed at liquidating banks with low stability levels.

Since the 2nd half of 2013, the Bank of Russia has pursued the policy of revoking licenses of banks that have lower levels of resilience and those breaking banking laws.

In 2020, under difficult social and economic conditions, this process slowed considerably: the number of liquidated banks was 16, and those were mainly small credit institutions. As the Russian economy is stabilizing and starting to grow, the regulator might impose stricter requirements to compliance of credit institutions with requirements in terms of resilience and meeting legal requirements.

Forecast on the duration of factors and conditions

Taking into account global and Russian trends, factors will remain relevant at least in the medium term. A lack of certainty in terms of long-term impact of the pandemic on global economic development makes it difficult to produce forecasts for a longer term.

Measures being or planned to be taken by the issuing credit institution to take advantage of the factors and conditions:

A balanced policy of asset and liability management pursued by Sberbank allows a relatively flexible approach to the interest rate policy when margins are decreasing in the banking industry and there is volatility on financial markets.

Methods being or planned to be applied by the issuing credit institution to reduce the negative effect the factors and conditions have on its performance:

In order to reduce a negative effect of lowering interest margin, Sberbank follows a balanced interest rate policy to manage interest rates for raising and placing the resources. Marketing campaigns are carried out and the sales function is upgraded to get more assets generating the highest income.

⁸ As of 01/06/2021

Sberbank's access to various sources of financing both nationally and partially internationally helps to offset the negative impact of slow growth in traditional sources of deposits.

Material events or factors that may have the most negative impact on the future opportunities of the issuing credit institution to obtain the same or better results as compared to the results obtained in the last reporting period and the likelihood of such events (factors):

Continuing geopolitical tensions, economic sanctions imposed on major Russian companies and banks, as well as the possible impact of the pandemic may have an additional negative impact on the macroeconomic situation in the Russian Federation and in the banking sector. The other markets where Sberbank is present, such as CIS states (Belarus, Kazakhstan), and in Central and Eastern Europe, are projected to provide moderate growth in the banking markets.

On the Russian market, which is the main one for Sberbank, the margin will decrease with recognizing assets issued to borrowers who have suffered from the pandemic as problem assets, for which (under temporary rules of the Central Bank) there was no classification of the quality of assets based on their actual attributes. This can lead to a nominal deterioration of asset quality, which may hinder their further growth rate increase.

Besides, the economic recovery rate may be lower than the forecast, which, in the short and medium term, may cause insufficiently quick recovery of creditworthiness of the leading Russian companies. Amid the *de facto inability to access the global financial markets*, the capabilities of the state, Russian companies and banks to raise additional financial resources from the external markets will be limited, which may impose an additional burden on the Bank of Russia to refinance the banking sector.

Amid the limited predictability of future trends in main factors affecting the banking industry, Sberbank strengthened control over its risks, started to apply more conservative approaches to risk assessment and increased provisions for possible losses accordingly to the current risk level.

Material events or factors that may improve the performance results of the issuing credit institution, their probability, and duration:

Improving the legal framework, system and tools for refinancing of banks, as well as *legislation and institutions, which help form the long-term base for commercial banks*, will have a positive effect on developing the Bank's resource base, create new opportunities for growing the loan portfolio volume, thus reducing risk levels and subsequently having a positive effect on the Bank's financial results.

Strengthening positions on the non-banking financial market and non-financial markets
The expansion of the product line of non-banking financial and ecosystem products of Sberbank should result in a synergistic growth of the customer base and changes in the Bank's income.

4.8. Competitors of the issuing credit institution.

The main existing and potential competitors of the issuing credit institution in its principal activities, including foreign competitors:

Currently, the main competitors of Sberbank in various segments of the Russian financial market are the largest state-owned and private banks and their banking groups — that is, the banks in the Top 10 on major banking markets (corporate lending and retail deposits).

The list of competitiveness factors of the issuing credit institution describing the degree of their impact on the competitiveness of the products (work and services) provided:

In the recent years, Sberbank has done much to finalize the formation of major groups of its competitive advantages, namely:

- *Solid customer base.* Sberbank successfully services customers in all segments (ranging from retail clients and individual entrepreneurs to large holding and multinational companies) throughout the country.
- *Large scale of operations.* Sberbank has undisputed advantages both in terms of business scale (the amount of transactions, access to resources, international ranking) and in terms of size and quality of its material infrastructure (for example, it has a unique distribution network for individual and corporate clients comprising branches, ATMs, payment terminals and digital service channels).
- *Wide range of financial products and services.* Given the availability of the full range of operations in the products of the Groups for all types of customers in all countries where

Sberbank is present, it can provide a comprehensive service to every customer, both in Russia and abroad.

- *Industrial Technology.* In recent years, Sberbank has managed to create a strong base for further development of innovations: a technology platform has been built, large-scale transformation using artificial intelligence has been implemented, and integrating elements for products and services of the ecosystem have been launched (such as Sber ID).
- *Powerful brand.* In the past years the Group brand, along with our traditional attributes of reliability and stability, is more closely associated with modern technologies and innovation. In late 2020 we launched a new Sber brand, which symbolizes the transition from an exclusively financial business to creating an ecosystem, that is, a whole range of offerings that satisfy the ultimate needs of our customers to the largest possible extent.
- *International presence.* In the recent years, Sberbank has significantly expanded its international presence and become a truly international group. Our presence in 18 countries enables us to replicate the best technologies and practices within the Group, diversify risks, strengthen the brand in international markets and develop an international team of employees.
- *Team and management techniques.* In recent years, Sberbank team has got many new members, strengthened its skills, including digital and soft skills, and obtained a unique experience of large-scale Agile transformation. Sberbank has also given considerable attention to the development and large-scale replication of modern management techniques, such as building the HR function, and improving the efficiency of current activities management.

In developing the Strategy until 2023, we have paid considerable attention to analyzing competitiveness drivers and emerging new drivers for competitive dynamics, such as new market players, including non-banking institutions, technology development, etc.

An analysis of approaches to increasing competitiveness for Sberbank in the medium term is given in Sberbank Development Strategy published on the Bank's website.

V. Detailed information on the members of the management bodies of the issuing credit institution and bodies for supervision of the financial and business activities of the issuing credit institution, and brief information on employees (workers) of the issuing credit institution

5.1. Information on the structure and terms of reference of the management bodies of the issuing credit institution

Description of the structure and terms of reference of the management bodies of the issuing credit institution in accordance with the charter of the issuing credit institution:

1. General Meeting of Shareholders

Terms of Reference

The General Meeting of Shareholders is the supreme management body of Sberbank of Russia. The terms of reference of the General Meeting of Shareholders cover the following issues:

1) Making amendments to the Bank's Charter or giving approval to the new version of the Charter

2) Restructuring the Bank

3) Liquidating the Bank, appointing a liquidation committee, and approving intermediary and final liquidation balance sheets

4) Electing the Bank's Supervisory Board members and terminating the powers of such members early

5) Determining the number, nominal value, type of and rights vested in authorized shares

6) Increasing the authorized capital by raising the nominal value of shares

7) Increasing the authorized capital by offering additional shares through private placement

8) Increasing the authorized capital by a public offering of additional shares if the number of shares in the additional public offering exceeds 25 percent of ordinary shares previously issued by the Bank

9) Increasing the authorized capital by a public offering of additional shares if the number of shares in the additional public offering is equal to or below 25 percent of ordinary shares previously issued by the Bank, and the Bank's Supervisory Board has failed to reach unanimity on this matter

10) Making a private offering of bonds convertible into ordinary shares and other issue-grade securities convertible into ordinary shares

11) Making a public offering of bonds convertible into ordinary shares and other issue-grade securities convertible into ordinary shares exceeding 25 percent of ordinary shares previously issued by the Bank

12) Reducing the Bank's authorized capital by lowering the nominal value of shares or through the Bank's acquiring a part of shares to diminish their number of shares or by redeeming the shares acquired or repurchased by the Bank

13) Appointing an auditing organization of the Bank

14) Paying out (declaring) dividends based on the performance of the first quarter, six months, and nine months of the reporting year

15) Approving the annual report and distributing profit (including the payment (declaration) of dividends other than the profit distributed as dividends for the first quarter, six months, and nine months of the reporting year) and losses of the Bank for the reporting year

16) Establishing the procedure for the General Meeting of Shareholders

17) Splitting and consolidating shares, and offering issue-grade securities by conversion

18) Adopting resolutions on consent to effect non-arm's length transactions or on their subsequent approval where required by the federal law

19) Adopting resolutions on consent to effect non-arm's length transactions or on their subsequent approval where required by the federal law

20) Adopting resolutions to become members of associations and other alliances of commercial entities

21) Approving the Bank's internal documents: Regulations on the General Meeting of Shareholders; Regulations on the Supervisory Board of the Bank; Regulations on the Executive Board, Regulations on Remuneration and Compensation Payable to the Members of the Supervisory Board of the Bank

22) Adopting resolutions on submitting an application for delisting the Bank's shares and (or) the Bank's issue-grade securities convertible into its shares

23) Resolving other matters stipulated by federal law and this Charter

The matters in the competence of the General Meeting of Shareholders may not be passed for resolution to the Bank's executive bodies, except as otherwise provided by federal law.

The issues falling under the terms of reference of the General Meeting of Shareholders may not be passed for resolution to the Bank's Supervisory Board, except to the extent as required by federal law.

2. The Bank's Supervisory Board.

Terms of Reference

The Bank's Supervisory Board performs overall management of the Bank's activities, other than resolving issues falling within the terms of reference of the General Meeting of Shareholders under the Charter.

The terms of reference of the Bank's Supervisory Board cover the following issues:

The terms of reference of the Supervisory Board include the following issues:

1) determining priority areas for activities of the Bank, including sustainable development, social and environmental responsibility, and corporate governance; approving the Development Strategy of the Bank;

2) convening the annual and extraordinary General Meetings of Shareholders, save where the right to convene and hold the General Meeting of Shareholders is given to bodies and persons in accordance with federal law;

3) approving the agenda of the General Meeting of Shareholders;

4) setting the date of determining (fixing) persons entitled to attend the General Meeting of Shareholders and other matters referred to the competence of the Bank's Supervisory Board in accordance with federal law and associated with the preparation for and holding of the General Meeting of Shareholders;

5) approving annual accounting (financial) statements of the Bank;

6) increasing the Bank's authorized capital by issuing additional shares at the expense of the Bank's property within the number of declared shares established by the Charter;

7) increasing the Bank's registered share capital by a public offering of additional shares within the number of declared shares if the number of additionally offered shares is equal to or below 25 percent of ordinary shares previously issued by the Bank;

8) issuing additional shares into which the preferred shares of a certain type previously issued by the Bank and convertible into ordinary shares or preferred shares of other types are converted, unless such an offering is required by an increase in the Bank's authorized capital;

9) placing bonds and other issue-grade securities, except for shares, in circumstances specified by federal law;

10) making a public offering of bonds convertible into ordinary shares and other issue-grade securities convertible into ordinary shares are equal to or below 25 percent of ordinary shares previously issued by the Bank;

11) acquiring shares, bonds, and other securities issued by the Bank where required by the federal law;

12) electing the Bank's CEO, Chairman of the Executive Board and terminating their powers early;

13) setting up the Bank's Executive Board, electing the Executive Board members, appointing the Deputy Chairmen of the Executive Board, including vice deputies, from among the candidates proposed by the CEO and Chairman of the Executive Board, and early terminating the powers of such officers;

14) making recommendations for the amount of the dividend on shares and for the record date when persons entitled to dividends are to be determined;

15) approving the Bank's internal documents, including the Policy on Organizing Internal Control, the Regulations on the Internal Audit Service, the Regulations on the Corporate Secretary, the Corporate Governance Code, the Code of Corporate Ethics, the Regulations on Dividend Policy, the Regulations on the Reserve Fund, Funds for Payment of Dividends and Retained Earnings, the Policy on Conflict of Interest Management, Environmental, Social, Governance and Sustainability Policy, and other internal documents of the Bank subject to approval by the Supervisory Board pursuant to the applicable legislation, the Bank's Charter, or the Regulations on the Supervisory Board of the Bank;

- 16) opening and closing branches and representative offices of the Bank;
- 17) adopting resolutions on consent to effect non-arm's length transactions or on their subsequent approval where required by federal law;
- 18) adopting resolutions on consent to effect non-arm's length transactions or on their subsequent approval where required by federal law;
- 19) setting out the procedure for transactions with related parties;
- 20) approving the Bank's registrar and the terms of the registrar's engagement and adopting resolution on termination of the engagement;
- 21) adopting resolutions on the responsibilities assigned to the members of the Supervisory Board, establishing committees of the Supervisory Board for specific matters of the Bank's activities; approving regulations on the committees of the Supervisory Board; appointing the heads and members of the committees and suspending their authority, hearing reports from the Chairmen of the committees of the Supervisory Board on the activities of their committees; assessing their own work and presenting work results to the General Meeting of Shareholders
- 22) appointing and dismissing the Head of the Bank's Internal Audit Service; approving the Annual Work Plan of the Bank's Internal Audit Service; reviewing reports provided by the Internal Audit Service on the execution of the Work Plan and on the Bank inspection findings; evaluating, based on reports provided by the Internal Audit Service, the compliance by the Bank's executive bodies with strategies and procedures approved by the Bank's Supervisory Board;
- 23) approving the Bank's risk and capital management strategy, including the terms of ensuring the capital adequacy and liquidity to cover risks both for the Bank as a whole and for separate lines of its business, approving the procedure for managing the most significant risks, and monitoring the implementation of this procedure;
- 24) approving the procedure for applying banking risk management methods and quantitative risk assessment models;
- 25) approving the procedure for preventing conflicts of interest, the Financial Stability Recovery Plan in case of substantial deterioration of the Bank's financial standing, a plan of action intended to ensure continuous activities and/or recovery of the Bank's activities in case of abnormal or emergency situations;
- 26) periodic hearing of reports submitted by the CEO, Chairman of the Executive Board of the Bank, on the Bank's activity. The procedure for submitting reports by the CEO, Chairman of the Executive Board, on the Bank's activities is determined by the Supervisory Board;
- 27) approving the terms and conditions of agreements signed by the Bank and CEO, Chairman of the Executive Board, the members of the Bank's Executive Board, including determining amounts of their remuneration and compensation, and approval of the Bank's HR Policy and the Bank's Labor Remuneration Policy;
- 28) appointing and dismissing the Bank's corporate secretary and monitoring of the Bank's corporate governance practice;
- 29) determining the amount of payment for the auditor services;
- 30) filing an application for the listing of the Bank's shares and/or issue-grade securities convertible into the Bank's shares;
- 31) passing a decision on refusing to have interest paid by the Bank on subordinated debt (deposits, loans, bonded loans), the terms and conditions of which provide for the corresponding right of the Bank;
- 32) other matters stipulated under Russian law and the Charter.

3. Collective Executive Body – the Executive Board of the Bank.

Terms of Reference

The terms of reference of the Bank's Executive Board include issues of management of the Bank's daily activities, save for the matters falling within the terms of reference of the General Meeting of Shareholders and the Supervisory Board of the Bank.

Pursuant to its responsibilities, the Executive Board of the Bank:

- 1) discusses in advance the matters to be considered by the General Meeting of Shareholders and the Supervisory Board of the Bank, including the annual report and annual - accounting (financial) statements of the Bank, prepares relevant draft resolutions thereupon, and ensures implementation of resolutions passed by the General Meeting of Shareholders and the Supervisory Board of the Bank;

2) reviews and approves reports submitted by the heads of business units in the Bank's Central Head Office and heads of regional banks, branches and representative offices of the Bank on their activities for relevant periods and work in specific areas of banking activities;

3) creates conditions for effective implementation of the risk management policy of the Bank and organizes the risk management process in the Bank;

4) ensures technological development of the Bank, organizes implementation of the most advanced banking technologies into the practices of the bank's units, ensures implementation of projects on complex banking works automation, comprehensive automation of banking work, and creation of a modern banking infrastructure, organizes creation of efficient information exchange and communication systems;

5) ensures development of the Bank's branch network and the Bank's network of separate business units, their technological improvement and enhancement of the quality of the services they provide;

6) adopts resolutions on the participation and termination of participation, including the change of the participatory interest of the Bank in other entities, except for entities the participation and termination of participation in which is referred to the competence of other management bodies of the Bank by federal law or the present Charter;

HERMAN GREF, CEO, Chairman of the Executive Board, Sberbank of Russia (see the information above)

5.3. Information on the amount of remuneration or compensation of expenses for each management body of the issuing credit institution

The Supervisory Board

Payment of remuneration to the members of the Supervisory Board of the Bank and compensation of expenses associated with their participation in the work of the Supervisory Board shall be made according to the procedure established by the Bank's internal document — that is, Regulation on Remuneration and Compensation to the Members of the Supervisory Board (hereinafter referred to as the Regulation) approved by the Annual General Meeting of Shareholders of Sberbank on May 29, 2015 (Minutes No. 28, dated 3 June, 2015), taking into account the Changes No.1 approved by the Annual General Meeting of Shareholders of Sberbank on May 27, 2016 (Minutes No. 29, dated June 1, 2016) and the Changes No.2 approved by the Annual General Meeting of Shareholders of Sberbank on April 23, 2021 (Minutes No. 34, dated April 23, 2021).

Remuneration consists of a basic part, which is paid to a member of the Supervisory Board provided that he or she participated in no less than a half of the Supervisory Board meetings held in the billing period, and additional remuneration for work in the Committees, for chairing the Committees and performance of duties of the senior independent director, and for chairing the Supervisory Board.

By decision of the Annual General Meeting of Shareholders of Sberbank, held on April 23, 2021, the amount of basic remuneration to be paid to members of the Supervisory Board was increased from RUB5.9 million to RUB7.7 million.

Type of remuneration	Size of remuneration
Base remuneration size	RUB7.7 million
Additional remuneration for the performance of duties of a member of any of the Committees of the Supervisory Board	+20% of the basic remuneration
Additional remuneration for the performance of duties of the Chairman of any of the Committees of the Supervisory Board and the Senior Independent Director	+30% of the basic remuneration
Additional remuneration for the performance of duties of Chairman of the Supervisory Board	+50% of the basic remuneration

"In calculating the remuneration of a member of the Supervisory Board for the current Payment Period, the amounts of the base and additional remuneration established at the time of his or her election to the Supervisory Board shall apply."

The total amount of remuneration paid to the members of the Supervisory Board **for the 6 months of 2021** for their participation in the given Bank management body was RUB73.8 million, including:

- RUB 53.1 million as the base remuneration;
- RUB5.6 million for performing the duties of the Committee Chairpersons of the Supervisory Board and the Senior Independent Director (RUB1,770 thousand to each chairperson);
- RUB15.1 million for performing the duties of Committee members.

Information on the remuneration specified for members of the Supervisory Board who gave their written consent to receive remuneration.

Also, the Regulation provides the possibility of compensation to members of the Supervisory Board of target expenses related to the performance of their duties as Board members. Compensation of target expenses associated with the performance of duties by Board members amounted to RUB56.1 thousand for the six months of 2021.

The Executive Board

Sberbank's Policy for the remuneration of Executive Board members provides for the dependence of remuneration on the results of the bank's performance and each Board member's personal contribution to the achievement of such a result through the use of tools for regular performance evaluations through a system of balanced performance indicators. The wage structure includes fixed and variable components. The variable remuneration is directly linked to key performance indicators and fulfillment of a number of key efficiency indicators, including individual and team, financial and non-financial indicators. The basic elements of the variable component of remuneration are quarterly bonuses and remuneration depending on performance results for the year.

In 2015, the Bank also adopted a long-term incentive program for key executive staff, which was based on the value of Bank shares and which provided for cash payments. The program was created on the basis of the risk-oriented remuneration concept, and it fully meets the requirements of the Bank of Russia for remuneration payment systems in Russian credit institutions. The program is based on the following parameters:

- 40% of the variable part of the annual remuneration is deferred and will be paid in the future in three annual payments;
- payments to the program participants depend of the positive results of the bank's activities. Long-term remuneration may be corrected (up to complete cancellation) taking into consideration the responsibility of the employee, the participant of the long-term remuneration program in adopting the solutions that led to the risk realization.

For the 6 months of 2021, RUB787.9 million was paid to the members of the Executive Board of the Bank as remuneration for 2021, including:

- fixed remuneration (official salary, paid leave, payment of average earnings during business trips) in the amount of RUB551.7 million;
- variable remuneration (quarterly bonuses, remuneration for annual work results, other lump-sum payments) in the amount of RUB223.2 million;
- RUB13.0 million paid for performing the functions of Supervisory Board members.

Obligations on repayment of long-term remuneration based on shares amounted to RUB6.0 billion as of June 30, 2021.

Long-term equity-based compensation is paid in cash and subject to revaluation at each reporting date based on the forward price of the Bank's ordinary shares. The respective liabilities shall be included in other financial liabilities in the consolidated statement of financial position before payment is made.

The development of principles and criteria for determining the amount of remuneration to be paid to the CEO, Chairman of the Executive Board and to the members of the Executive Board of the Bank falls within the terms of reference of the Human Resources and Remuneration Committee of the Supervisory Board. Remuneration and compensation are paid under contracts entered into with the CEO, Chairman of the Executive Board and members of the Executive Board.

5.4. Information on the structure and terms of reference of bodies of control over financial and business activities of the issuing credit institution, and the organization of the risk management and internal control system

Description of the structure of bodies for supervision of the financial and business activities of the issuing credit institution and their terms of reference in accordance with the charter (constituent documents) and internal documents of the issuing credit institution:

Monitoring of the Financial and Economic Activities of the Bank is carried out by: an external auditor; management bodies of the Bank (the General Meeting of Shareholders, the Supervisory Board of the Bank, the Executive Board, the President, the Chairman of the Executive Board), as well as structural units and authorized officials of the Bank. Powers of internal control bodies, the procedure for their establishment and functioning are determined by the Russian law, Charter of the Bank, and the Bank's internal documents approved in the manner established by the Bank.

In order to check and verify reliability of accounting (financial) statements, compiled in accordance with the legislation of the Russian Federation, and financial statements drawn up in accordance with the International Financial Reporting Standards (IFRS), the Bank commissions audit organizations performing audit activities pursuant to Russian law and subject to the International Auditing Standards.

The competence of the General Meeting of Shareholders in terms of the internal controls over the activities of the Bank includes the following issues: electing the members of the Supervisory Board of the Bank; appointing the auditing organization of the Bank; approving the annual report of the Bank; adopting resolutions on approval of major transactions and interested party transactions in cases provided by federal law.

In terms of the internal controls over the activities of the Bank, the Supervisory Board has the following authority: approves annual accounting (financial reporting of the Bank: electing CEO and Chairman of the Executive Board of the Bank, adopts the internal regulatory documents of the Bank, including the regulation on the internal control system, the regulation on the Internal Controls Office; appointing the Head of the Bank's Internal Audit Office; approving the Annual Activity Plan of the Bank's Internal Audit Office; reviewing reports provided by the Internal Audit Office on implementation of the Activity Plan and Bank inspection findings; evaluating, based on reports provided by the Internal Audit Office, compliance by the Bank's executive bodies with strategies and procedures approved by the Bank's Supervisory Board; approving the risk management and equity management procedure, as well as the procedure for managing the most significant risks and exercises control over the implementation of this procedure; approves the application of banking risk management techniques and models for quantitative risk assessment; approves the procedure for the prevention of conflicts of interest, Financial Stability Recovery Plan in the event of a considerable deterioration in the financial condition of the Bank, an action plan intended to ensure continuous activity and/or recovery of the Bank's activities in case of abnormal or emergency situations.

The Executive Board of the Bank in terms of internal control over the organization of the Bank's activities: organizing the implementation of the decisions of the General Meeting of Shareholders and the Supervisory Board of the Bank, implementing the strategy of and policy of the Bank regarding the organization and implementation of internal control in the Bank; considering and approving reports of heads of units in head office and heads of regional banks on the results of activities in the corresponding periods and on the results of activities in specific areas; defining the policy of the Bank in the field of risk management, ensuring conditions for its effective implementation, organizing the risk management process in the Bank; reviewing the state of accounting, reporting, materials and the results of periodic

evaluations of the effectiveness of internal control in the Bank, organizing the control system for eliminating identified violations and deficiencies in internal control and measures taken to eliminate them, reviewing the reports of the heads of branches and other separate units of the Bank on the results of audits and inspections of their activities, adopting resolutions on these issues.

CEO, Chairman of the Executive Board heads the Bank's Executive Board and organizes its work, in particular, with regard to organizing the Bank's internal controls; distributes the responsibilities among Deputy Chairmen of the Bank's Executive Board and members of the Bank's Executive Board; approves the Bank's organizational structure and regulations on the structural units of the Bank's headquarters and other issues within its terms of reference.

In addition, the internal control in the Bank in accordance with the powers established in the Charter and internal regulatory documents of the Bank is carried out by:

The Internal Controls Office is the aggregate of structural units and employees of the Bank that exercise the functions of the Internal Control Office in accordance with the requirements of laws and internal documents of the Bank.

The Internal Audit Office is the totality of the Bank's structural business units (Internal Audit Administration of the Bank's head office and relevant business units of the Internal Audit Office in the branches) that carry out their activities in accordance with the requirements of the legislation and the Regulations on the Bank's Internal Audit Office.

Information on the organization of the system of risk management and internal controls over the financial and business activities of the issuing credit institution:

The risk management system used by the Bank is based on the standards and tools recommended by the Basel Committee on Banking Supervision, meets the requirements of Bank of Russia, and takes into account the world's best practices. Primary objectives of organization of the risk management system as an integral part of the management process of the Bank are as follows:

- ensuring sustainable development of the Bank and its subsidiaries in the course of implementation of the development strategy approved by the Supervisory Board of the Bank;
- ensuring and protecting the interests of shareholders, creditors, and others, given that these persons are interested in the continuation of sustainable activities of the Bank, to prevent the risks accepted by the Bank and its subsidiaries from posing a threat to the existence of the Bank;
- strengthening the competitive advantages of the Bank

To ensure effective planning and control of accepted risks, the risk management functions are distributed among the Supervisory Board of the Bank, the Chairman of the Executive Board, CEO, the Executive Board, the supervisor of the Risks Block (Head of the risk management department of the Bank), specialized committees of the Executive Board, Risks Block units, and other business units of the Bank and members of the Group. The distribution of authority in the risk management system meets the requirements and recommendations of the Bank of Russia and the practice of international financial institutions.

The Bank provides internal controls in accordance with the laws of the Russian Federation, regulations of Bank of Russia, and rules and procedures established by the Bank to ensure:

- Effective and efficient financial and business activities when performing banking operations and other transactions, efficient management of both assets and liabilities, including asset integrity and bank risk management;
- The accuracy, completeness, objectivity, and timeliness in preparing and submitting the financial, accounting, statistical, and other reports (for internal and external users) as well as the information security (protection of the interests (goals) of the Bank in the information area, which is an aggregate of information, information infrastructure, entities that collect, prepare, distribute, and use information, and the systems for regulating the relations arising in this process);
- Compliance with regulatory legal acts, standards of self-regulating organizations, the Charter, and internal documents of the Bank
- Prevention of involvement of the Bank or its employees in unlawful activities, including legitimization (laundering) of proceeds from criminal activities and financing of terrorism, and timely submission of appropriate details to governmental bodies and the Bank of Russia in accordance with Russian law

In accordance with the powers defined by the Charter and internal documents of the Bank, the internal controls are ensured at the Bank by the following:

- 1) Management bodies of the Bank as provided by the Charter;
- 2) Chief Accountant of the Bank (and their deputies);
- 3) Heads (and their deputies) and Chief Accountants (and their deputies) of the Bank's branches

- 4) Internal Audit Department of the Bank
- 5) Internal Controls Office of the Bank
- 6) Structural unit (responsible employee) for counteraction of legitimization (laundering) of proceeds from criminal activities and financing of terrorism;
- 7) Inspector of the professional participant of the securities market
- 8) Other business units and employees of the Bank exercising internal controls within the scope of their powers as defined by the Bank's internal documents

The internal control and risk management systems of the Bank are built by using Three Lines of Defense, a model where:

First Line is the business units responsible for the daily effective implementation of internal controls and taking ongoing measures to manage risks associated with their activities. These measures are part of the everyday activities of the business units, therefore, they ensure the continuous process of identifying, assessing, and monitoring the risks.

Second Line is the responsible business units of the Bank that are in charge of elaborating and implementing the rules and procedures of internal controls, determine the risk management standards, guidelines, limits and restrictions, monitor the risk levels, prepare reports, verify the compliance of risk level with risk appetite, advise, simulate, and aggregate the total risk profile.

Third Line is the internal audit that is tasked with an independent evaluation of the effectiveness of internal control and risk management systems.

Information on the availability of the Audit Committee of the Board of Directors (Supervisory Board) of the issuer, its functions, personal composition, and number of members:

The Supervisory Board has established an Audit Committee consisting of 5 members.

Members of the Audit Committee:

Chairman of the Committee: N. Wells

Members of the Committee: N.A. Braginsky Mounier, M. Kovalchuk, N. Kudryavtsev, A. Kuleshov

The competence of the Audit Committee includes the following issues:

In the area of accounting (financial) and consolidated financial statements:

- to ensure that the Bank's accounting (financial) statements and consolidated financial statements are complete, accurate and reliable, including preliminary review of the Bank's statements submitted for approval to the Bank's Supervisory Board;
- Analysis of substantive issues of the accounting policy used by the Bank for preparation of accounting (financial) statements;
- to participate in consideration of material matters and judgments regarding accounting (financial) statements and consolidated financial statements.

In the area of risk management, internal controls, and corporate governance:

- to monitor the reliability and efficiency of the risk management and internal control systems, in particular:
 - to assess the adequacy of control over preparation and submission of accounting (financial) statements, over compliance with the requirements of the laws of the Russian Federation, regulatory documents of the Bank of Russia, and the Bank's internal documents, over effectiveness of transactions conducted and other transactions, and over the safety of assets;
 - to assess the effectiveness of the Bank's risk management and internal control procedures and their fitness for the nature and scope of transactions and the level and combination of assumed risks, and to prepare proposals for their improvement;
- to control reliability and effectiveness of the corporate management system, including evaluation of the corporate management practices, and preparation of proposals related to their improvement;
- to conduct preliminary consideration and approval of any changes to the Internal Control Policy, and to analyze and assess the execution of the Bank's policies in the areas of risk management and internal controls;
- to monitor procedures ensuring the Bank's compliance with the requirements of the laws of the Russian Federation, the Bank's internal documents, and requirements of stock exchanges;

- to analyze and assess the execution by the Bank of the Conflict of Interest Management Policy.

In the area of internal and external audit:

- to ensure independence and objectivity of external and internal audit;
- to conduct preliminary consideration and approval of any changes to the Regulation on the Internal Audit Service, to review annual action plans and budgets of the Internal Audit Service, and to analyze the results of inspections carried out by the Internal Audit Service;
- to conduct preliminary review of matters regarding appointment (relieving of duties) of the head of the Internal Audit Service and the amount of his/her remuneration, to assess the efficiency of the head of the Internal Audit Service in performing his/her functions;
- Review of existing limitations of authorities or budget for implementation of the internal audit function that could have a negative impact on effective exercise of the internal audit function;
- to monitor and analyze the efficiency of the Internal Audit Service;
- as part of selection of the Bank's auditors: to evaluate the independence of auditors and the absence of any conflict of interest, to evaluate auditor selection criteria, to evaluate auditor candidates, and to draft recommendations for the Supervisory Board on selection of auditors to be approved by the Bank's General Meeting of Shareholders and on the terms of an agreement to be concluded with the auditors and on their reappointment;
- to monitor external auditing, assess the quality of audit and auditor's opinions, including preliminary review of auditor's opinions and provision of results of their review (assessment) as information (materials) provided for review to the persons entitled to participate in the Bank's Annual General Meeting of Shareholders;
- to ensure effective interaction between the Internal Audit Service and the Bank's auditing organization;
- to prepare recommendations for prompt elimination of deficiencies in the internal control system, violations of the Russian laws and the Bank's internal documents, and other deficiencies identified by regulatory bodies, the auditing organization, and the Internal Audit Service;
- to assess compliance of the Bank's executive bodies with the Bank's internal documents approved by the Supervisory Board based on reports of the Internal Audit Service;
- to develop principles of providing and combining audit and non-audit services by the auditing organization and monitor compliance with them.

In the area of combating unscrupulous practices on the part of the Bank's employees and third parties:

- to assess and monitor the efficiency of the system signaling potential unscrupulous actions of the Bank's employees (including improper use of insider or confidential information) and third parties and other violations at the Bank;
- Control over implementation of measures taken by the Bank's executive bodies in response to notification about potential cases of unscrupulous actions of employees and other violations;
- Control over carrying out special investigations of potential cases of fraud, improper use of insider or confidential information.

The functions of the Audit Committee also include:

- reviewing the Annual Report of the Bank and preparing recommendations to the Supervisory Board on its preliminary approval
- interaction with organizations that provide audit services to the Bank and the Bank's Internal Audit Service to draft joint recommendations on the matters of the Bank's financial and business activities
- reviewing information about any cases where heads of the Bank's units or executive bodies assume risks that are unacceptable for the Bank, and
- monitoring compliance with the Bank's Information Policy.

Information on the availability of a separate structural business unit(s) of the issuing credit institution for risk management and internal controls (other than the Internal Audit Committee (internal auditor), body (structural business unit) exercising the internal controls over financial and business activities of the issuer), its tasks, and functions:

To manage risks, the Bank established the Risk Management Office, which is a combination of structural business units and committees of the Bank, whose main function is to manage risks.

The risk management process includes five main stages:

- Identification of risks and assessment of their significance: the goal of this stage is to identify all significant risks affecting the activities of the Bank/Group.
- Building the systems for managing significant risks: the goal of this stage is to distribute the risk management functions among officials, units, and collective bodies of the Bank, or to update such distribution, and build (or update) the methodological framework to regulate the risk management.
- Planning risk exposure level: the goal of this stage is to define the target level of risk for the Bank/Group by taking into account the risk metrics in the business plans.
- Establishing risk appetite: the goal of this stage is to approve the maximum level of risk that the Bank/Group may accept and to build a system of limits and restrictions that allow compliance with the risk appetite.
- Managing the aggregate level of risk: the goal of this stage is to ensure that the risks of the Bank/Group correspond to target values.

Risk Management Office of the Bank is authorized to organize, implement and maintain the risk management system in the Bank, including:

- to take measures aimed at preventing and/or mitigating the impact of risks on the Bank's financial standing, competitiveness and reputation;
- to establish and continuously monitor the limits restricting the impact of risks on the Bank's financial results;
- to forecast the Bank's exposure to various types of risks in the future based on different scenarios;
- to consolidate information on risks for disclosure purposes;
- to exercise other powers in accordance with the legislation of the Russian Federation, regulations of the Bank of Russia, and the Bank's internal documents.

To avoid any conflict of interest, the Bank ensured the independence of business units responsible for risk management from business units engaged in operations/transactions exposed to risks.

To implement internal controls, assist the management bodies of the Bank in ensuring the compliance of the Bank's activities to the laws, regulation, and best practices, as well as to create and apply effective methods and mechanisms for managing the risk of losses incurred by the Bank as a result of noncompliance with Russian law, internal documents of the Bank, standards of self-regulatory organizations, and/or sanctions and/or other enforcement measures on the part of the supervisory authorities, the Bank established its Internal Controls Office that includes the aggregate of structural business units and employees of the Bank acting in accordance with Russian law, Bank's Charter and Regulations on the Internal Controls Office.

The Internal Control Office acts in accordance with the principles of independence, continuity, objectivity, impartiality, and professional competence.

In the course of exercising internal control and its functions the Internal Control interacts with all the units, collective and executive bodies of the Bank on any matters within its scope.

Information on the availability at the issuing credit institution of a separate structural business unit (office) of internal audit, its tasks, and functions:

The Internal Audit Office is the totality of the Bank's structural business units (Internal Audit Administration of the Bank's head office and relevant business units of the Internal Audit Office in the branches) that carry out their activities in accordance with the requirements of the legislation and the Regulations on the Bank's Internal Audit Office.

The Internal Audit Office is authorized to carry out inspections in all areas of the Bank's activities, including:

- assessment of the effectiveness of the system of internal control in general, including control of the use of automated information systems and internal control processes and procedures;
- audit of the effectiveness of the method for assessing bank risks and the procedures for management of bank risks established in the Bank;
- audit of the accuracy, completeness and timeliness of accounting and reporting;
- audit of ways (methods) for ensuring preservation of the Bank's property;

- evaluation of the economic feasibility and efficiency of transactions and other deals performed by the Bank;
- other powers according to the legislation, regulations of the Bank of Russia, and the Bank's internal documents.

The Internal Audit Office is independent in its activities from other divisions of the Bank.

The Supervisory Board appoints and dismisses the Head of Internal Audit Office of the Bank, approves the Regulations on Internal Audit Office, approves the annual activity plan of the Internal Audit Office, reviews the reports of the Internal Audit Office on the implementation of the activity plan and the results of the Bank's audits.

Information on the policy of the issuing credit institution in risk management and internal controls:

Basic principles of the Bank's risk management policy:

The risk-management process involves each employee of the Bank. Decisions on performing any transaction are made only after comprehensive analysis of risks arising in the course of such a transaction. The Bank has regulatory documents in place to govern the procedure of performing any and all transactions exposed to risks.

The Bank has no conflict of interests: at the organizational structure level, the units and employees entrusted with duties for performing transactions exposed to risks, accounting for such transactions, risk management and control are separated.

Management of the Bank and its collective bodies regularly receive information on the level of risks accepted by the Group and on violations of established risk management procedures, limits, and restrictions.

The internal control system of the Bank allows the effective monitoring of functioning of the risk management system.

A collective responsibility is established for the actions involving the acceptance of risks ("Three Lines of Defense").

The risk management process of the Bank is based on the use of modern information technology that allows identification, analysis, assessment, management, and control of risks.

The Bank assesses the adequacy of available capital (i.e., internal capital to cover the accepted and potential risks). Internal capital-adequacy assessment procedures also include capital planning procedures based on the established development strategy, business growth benchmarks, and results of comprehensive current assessment of the aforementioned risks, stress-testing of the Bank's and Group's stability to internal and external risk factors. The Bank highlights priority directions of capital development and distribution using the analysis of risk-adjusted efficiency indices for standalone business units and lines of business.

The Bank/Group has in place a multilevel system of limits and restrictions to ensure an acceptable level of risk.

The Group ensures unified approaches to identification, assessment, and management of risks.

The Bank is constantly upgrading all risk-management elements, including information systems, procedures and methods, with regard to strategic objectives, environment changes, and innovations in global risk-management practices.

The Bank's policy in the field of risk management and internal control is determined by the Bank's internal regulatory documents, including the Sberbank Group's Risk and Capital Management Strategy dated 16 April 2019 No. 3960-4.

Information on availability of the internal document of the issuing credit institution that establishes the rules for preventing the misuse of confidential and insider information:

Sberbank Policy on Countering Illegitimate Use of Insider Information and Market Manipulation No. 4757 dated 14/02/2018

6.4. Information on Restrictions on Participation in the Authorized Capital of the Issuing Credit Institution

In accordance with the Articles of Association of the issuing credit institution, a single shareholder may own:

No restrictions.

Total par value of shares that may be held by one shareholder under the Articles of Association of the issuing credit institution:

No restrictions.

Maximum number of votes granted to one shareholder in accordance with the Articles of Association of the issuing credit institution:

No restrictions.

Restrictions on the interest of foreign persons in the authorized capital of the issuing credit institution established by the laws of the Russian Federation and other regulatory legal acts of the Russian Federation:

The amount of foreign capital in the total charter capital of credit institutions holding a banking license is regulated by Federal Law No. 395-1 dated 02/12/1990 'On Banks and Banking'.

Other restrictions related to the interest in the authorized capital of the issuing credit institution:

No raised funds, funds from federal budget, free cash, and other property items under the jurisdiction of federal government bodies may be used to form the authorized capital of the issuing credit institution, except in cases provided for by the laws of the Russian Federation; and the funds from budgets of constituent entities of the Russian Federation, local budgets, free cash, and other property items under the jurisdiction of governmental bodies of constituent entities of the Russian Federation and local self-government authorities may be used to form the authorized capital of the issuing credit institution based on the legislative act of a constituent entity of the Russian Federation or the decision of a local self-government authority, respectively.

Additionally, the acquisition (except in case of acquiring shares when establishing a credit institution) and (or) receipt for trust management of more than 1 percent of shares of the issuing credit institution as a result of one or several transactions by a legal entity or individual requires notification of the Bank of Russia, and of more than 10 percent – preliminary approval of the Bank of Russia.

The requirements above also apply to acquisition of more than 1% of the shares of a credit institution, more than 10% of the shares (shares) of a credit institution by a group of persons.

Also, the preliminary approval of the Bank of Russia is required in the case of acquiring:

- 1) More than 10 percent of shares of the credit institution but not more than 25 percent of shares;
- 2) More than 25 percent of shares of the credit institution but not more than 50 percent of shares;
- 3) More than 50 percent of shares of the credit institution but not more than 75 percent of shares;
- 4) More than 75 percent of shares of the credit institution.

The preliminary approval of the Bank of Russia is also required when, as a result of one or several transactions, a legal entity or individual, directly or indirectly (through third parties), establishes control in respect of the shareholders (members) of the credit institution holding more than 10 percent of shares of the credit institution.

Unitary state enterprises are forbidden to act as founders (members) of credit institutions.

The Charter of the Bank does not provide for other restrictions on participation in the authorized capital of Sberbank.

6.5. Information on Changes in the Composition and Share of Interest of Shareholders (Members) of the Issuing Credit Institution That Own at Least 5 Percent of its Authorized Capital or at Least 5 Percent of its Ordinary Shares.

Composition of shareholders in the issuing credit institution holding at least 5 percent of its share capital or at least 5 percent of its ordinary shares at the record date of the list of persons entitled to participate in each General Meeting of Shareholders of the issuing credit institution held in the last completed financial year preceding the end date of the reporting quarter and for the period from the start date of the current year until the end date of the reporting quarter according to the list of persons entitled to participate in each of such meetings:

1	Condensed Interim Consolidated IFRS Financial Statements for 3 months of 2021 (as of March 31, 2021) and the audit report on the results of review.	Appendix No. 2

7.4. Information on the accounting policy of the issuing credit institution.

Main provisions of the accounting policy of the issuing credit institution defined independently by the issuing credit institution in accordance with the legislation of the Russian Federation on accounting and approved by an order or directive of the person responsible for the organization and the state of the accounting in the issuing credit institution:

No changes were introduced into the Accounting Policy of Sberbank in the 2nd quarter of 2021 (see the Accounting Policy of Sberbank as amended (parts 1 and 2) in Appendix No.3 to the quarterly report).

For the accounting purposes, the Bank amended the Accounting Policy for 2021 in relation to the enactment of Bank of Russia Ordinance No. 5586-Y (5586-U), dated 5 October 2020, "On Amending Bank of Russia Regulation No. 605-II (605-P), Dated 2 October 2017, "On the Procedure for Credit Institutions to Account Transactions to Place Funds under Loan Agreements, Transactions to Purchase Receivables from Third Parties Related to the Performance of Cash Liabilities, Transactions Related to Liabilities under Bank Guarantees Issued and Funds Provision".

A brief description of the changes introduced:

- Changing the details of accounting for acquired rights of claim by dividing acquired rights of claim by legal form and transferring acquired rights of claim under contracts for the provision (placement) of funds from other assets to loans provided and other placed funds.

The Accounting Policy of Sberbank defines the general accounting methodology in accordance with Federal Law No. 402-Φ3 (402-FZ), dated 6 December 2011, "On Accounting" for ensuring the preparation of accurate information on the Bank's performance.

According to Article 57 of Federal Law No. 86-Φ3 (86-FZ), dated 10 July 2002, "On the Central Bank of the Russian Federation (the Bank of Russia)", the Bank of Russia establishes the rules of banking operations, accounting and reporting, execution and submission of accounting (financial) and statistical reports, and other information required by federal laws, which are mandatory for credit institutions.

In its activities, Sberbank is guided by Federal Law No. 395-1, dated 2 December 1990, "On Banks and Banking Activities" with all further amendments and additions (hereinafter referred to as "Federal Law On Banks and Banking Activities"), Federal Law No. 402-Φ3 (402-FZ), dated 6 December 2011, "On Accounting", other laws and regulatory acts effective within the Russian Federation, Bank of Russia Ordinance, the Charter of the Bank, and the resolutions adopted by the Executive Board of the Bank.

The accounting policy of Sberbank shall be based on Bank of Russia Regulation No. 579-II (579-P), dated 27 February 2017, "On the Chart of Accounts for Bookkeeping for Credit Institutions and its Application Procedure" (hereinafter referred to as the "Bank of Russia Regulation No. 579-II (579-P)"), other documents of the Bank of Russia regulating the accounting and reporting, accounting provisions (standards) ensuring the uniform recording of banking operations in the balance sheet accounts.

The Accounting Policy of Sberbank is applied consistently year after year.

Any changes in the accounting policy shall be made under the following conditions:

- Changes in the requirements established by laws of the Russian Federation on accounting, federal and (or) industry standards;
- Development or selection of a new method of accounting, the application of which results in better quality of information about the item of accounting information;
- Substantial change in the business environment of the economic entity.

To ensure the comparability of the accounting (financial) statements for a number of years, the change in accounting policy shall be made from the beginning of the reporting year, unless otherwise determined by the cause of such change.

When maintaining accounting, the following principles and qualitative characteristics must be observed:

- going concern: The Bank will continuously carry out its activities in the future and it has no intentions and need for liquidation, a significant reduction in activity or performance of operations on unfavorable terms;

- Recognition of income and expenses on the accrual basis: the financial results of operations (income and expenses) are reflected in the accounting records on the fact of their commission, and not on the receipt or payment of cash (their equivalents), while incomes and expenses are reflected in the accounting accounting in the period to which they relate;
- consistency of accounting rules: The bank should be guided by the same accounting rules, except for cases of significant changes in its activities or changes in the legislation of the Russian Federation, which relate to the activities of the Bank; otherwise, the comparability of the data for the reporting period and the period preceding it should be ensured;
- caution: assets and liabilities, income and expenses should be valued and accounted for reasonably, with sufficient care, so as not to transfer existing risks that potentially threaten the financial situation of the Bank for the following periods. At the same time, the Bank's accounting policy should provide greater readiness to recognize expenses and liabilities in accounting than possible revenues and assets, preventing the creation of hidden reserves (intentional understatement of assets or revenues and deliberate overstating of liabilities or expenses);
- the timeliness of recording transactions: transactions are reflected in the accounting records on the day they are committed, unless otherwise provided by regulatory acts of the Bank of Russia;
- separate recording of assets and liabilities: accounts of assets and liabilities are assessed separately and are reflected in their detailed form;
- continuity of the opening balance: balances in balance sheet and off-balance accounts at the beginning of the current reporting period should correspond to balances at the end of the previous period;
- substance over form concept: transactions are recorded in accordance with their economic substance, and not with their legal form;
- openness: reports must reliably reflect the operations of the credit institution, be understandable to the informed user and devoid of ambiguity in reflecting the position of the credit institution.

7.5. Information on the total value of exports and on the share of exports in total sales.

None.

7.6. Information on material changes in the property of the issuing credit institution after the end of the last completed reporting year.

During 6 months of 2021, no significant changes occurred in the composition of the real estate.

7.7. Information on participation of the issuing credit institution in legal proceedings in case such a participation can be materially reflected on the financial and business activities of the issuing credit institution.

None.

Tier I American Depositary Shares Program (Tier I ADS)

Rule 144A Global Depositary Receipts Program (Rule 144A GDR)

Information on the foreign issuer, the depositary securities of which certify the rights with regard to the shares of the issuing credit institution of the corresponding category (type):

Name:	JPMorgan Chase Bank, National Association
Location of the foreign issuer:	4 New York Plaza, Floor 12, New York, NY 10004

Information on the authorization granted by the Bank of Russia and (or) an authorized governmental body for placing and (or) arranging for the circulation of shares of an issuing credit institution of the corresponding category (type) outside of the Russian Federation:

Authorization of the Russian Federal Financial Markets Service to arrange outside the Russian Federation the circulation of ordinary registered uncertified shares of Sberbank in the amount of not more than 25 percent of the total number of outstanding ordinary shares of the bank was obtained on 15 June 2011.

Name of the foreign organizer(s) of trading, through which the shares of the issuing credit institution are circulating (depositary securities certifying the rights in respect of the shares of the issuing credit institution) (if such circulation exists):

London Stock Exchange, location: 10 Paternoster Square, London EC4M 7LS, England;

The Frankfurt Stock Exchange (Frankfurter Wertpapierbörse), location: Mergenthalerallee 61, 65760 Eschborn, Germany.

Other information on arranging the circulation of shares of the issuing credit institution outside the Russian Federation indicated by the issuing credit institution at its own discretion:

ADSs are traded on London Stock Exchange under the stock ticker "SBER," in the Entry Standard segment of Frankfurt Stock Exchange, and on the U.S OTC market.

8.1.2. Information on changes in the amount of the authorized capital of the issuing credit institution.

Information on changes in the amount of authorized capital of the issuing credit institution in the last completed reporting year and for the period from the start date of the current year until the end date of the reporting quarter:

In 2020 and during the 6 months of 2021, the charter capital amount did not change.

8.1.3. Information on the procedure of convening a meeting of the supreme management body of the issuing credit institution.

Name of the supreme management body of the issuing credit institution:

Sberbank General Shareholders' Meeting

Procedure of notifying the shareholders (members) about the meeting of the supreme management body of the issuing credit institution:

The Notice of the General Shareholders' Meeting shall be published / posted in a manner and within the deadlines determined by the Bank's Charter: in the print publication, as well as on the website (www.sberbank.com) in Russian and in English.

Persons (bodies) entitled to convene (demand) an extraordinary meeting of the supreme management body of the issuing credit institution and the procedure for submitting (making) such demands:

The Extraordinary General Shareholders' Meeting is held by resolution of the Supervisory Board of the Bank at its own initiative, a request of the Internal Audit Committee of the Bank or the Audit Organization, as well as by shareholders (shareholder) owning at least 10 percent of the bank's voting shares as of the date of submitting such a demand.

A proposal on submitting items to the agenda of the Meeting shall contain the wording of each proposed issue, and may contain the wording of a decision regarding each issue.

The proposals shall be made specifying the name of the shareholder(s) submitting them, the number and category of shares held by such shareholder(s). Shareholders whose rights to shares are registered with a nominal holder may submit items to the agenda of the General Meeting of Shareholders (and nominate candidates) also by giving instructions (orders) to the person registering their rights to shares in accordance with the legislation of the Russian Federation.

The proposal for nominating candidates shall contain the information on the candidate as stipulated by federal law.

Procedure to determine the date of the meeting of the supreme management body of the issuing credit institution:

Sberbank's Annual General Shareholders' Meeting is held not earlier than 2 months and not later than 6 months after the end of the reporting year.

Persons entitled to submit items to the agenda of the meeting of the supreme management body of the issuing credit institution and the procedure for submitting such proposals:

Shareholder(s) holding in the aggregate at least 2% of voting shares may submit items to the agenda of the annual General Shareholders' Meeting and nominate candidates to the Bank's Supervisory Board and Audit Commission, whose number may not exceed the number of members of the respective body, and the candidate for the position of CEO and Chairman of the Executive Board of the Bank. Such proposals shall be submitted to the Bank within 75 days after the end of the Bank's reporting year.

Proposals on submitting items to the agenda of the General Shareholders' Meeting and nominating candidates shall be made specifying the name of shareholders (shareholder) submitting them, amount, and category of shares held by such shareholders and must be signed by the

shareholders (shareholder) or their representatives. Shareholders whose rights to shares are registered with a nominal holder may submit items to the agenda of the General Meeting of Shareholders (and nominate candidates) also by giving instructions (orders) to the person registering their rights to shares in accordance with the legislation of the Russian Federation.

A proposal for submitting items to the agenda of the General Shareholders' Meeting shall contain the wording of each proposed item, and the proposal on nominating candidates must contain the information on the candidate as stipulated by federal law. A proposal for submitting items to the agenda of the General Shareholders' Meeting may contain the wording of resolutions on each item.

A shareholder whose rights to shares are registered with a nominal holder shall attach the statement of the shareholder custody account when submitting an item to the agenda of the General Meeting of Shareholders.

In case of proposals signed by a shareholder's representative acting in accordance with authorities based on a power of attorney, the proposals shall be accompanied by a power of attorney (a copy thereof certified in a manner prescribed by law) that meets the requirements of current legislation, or by other documents certifying such representative's right to act on behalf of the shareholder without a power of attorney.

Persons entitled to review the information (materials) provided for the preparation and conduct of the meeting of the supreme management body of the issuing credit institution and the procedure for reviewing such information (materials):

Within the term stipulated by the Bank's Charter for publishing / announcing the message on conducting a meeting (at least 30 days prior to the meeting), the Bank shall ensure the availability of information (materials) provided by the entities entitled to participate in the meeting, in the manner specified in the notification of the General Meeting, as well as publish such information on the Bank's website in the English and Russian languages (www.sberbank.com).

The Bank shall, at the request of a person entitled to participate in the General Shareholders' Meeting, provide such a person with a copy of information (materials) to be made available to the persons entitled to participate in the General Shareholders' Meeting.

The Bank shall ensure availability of the above information to the persons participating in the General Shareholders' Meeting, also during the holding thereof.

The procedure for publishing (making available to shareholders (members) of the issuing credit institution) the resolutions made by the supreme management body of the issuing credit institution and voting results:

The resolutions passed by the General Shareholders' Meeting and voting results shall be announced by the Counting Commission at the General Shareholders' Meeting during the General Shareholders' Meeting at which the voting took place, and be communicated to the persons on the list of persons entitled to participate in the General Shareholders' Meeting in the form of a report on the voting results by publishing it in the Rossiyskaya Gazeta newspaper and posting it on the Bank's official website (www.sberbank.com) in the Russian and English languages within 4 business days after the closing of the General Shareholders' Meeting or the deadline for accepting completed voting ballots (should the meeting be held in the form of absentee voting).

Resolutions adopted by the General Shareholders' Meeting shall also be disclosed by the Bank by posting the Minutes of the General Shareholders' Meeting on the Bank's website (www.sberbank.com) in the Russian and English languages.

8.2. Information on each category (type) of shares of the issuing credit institution.

State registration number of the shares issue	The date of state registration	Category	Type (for preferred shares)	Nominal value, RUB
1	2	3	4	5
10301481B	11/07/2007	Ordinary shares	-	3
20301481B	11/07/2007	Preferred shares	-	3

The number of shares in circulation (number of placed and not redeemed shares)

State registration number of the shares issue	The number of outstanding shares, pcs
1	2
10301481B	21,586,948,000
20301481B	1,000,000,000

The number of additional shares that may be placed or are in the process of placement (number of shares of the additional issue, for which the state registration was performed, but in respect of which no report on the results of additional issue was registered, or no notice on the results of additional issue was submitted in case if, in accordance with the Federal Law "On the Securities Market", the state registration of the report on the results of additional shares issue is not required):

State registration number of the shares issue	The number of shares in the offering, pcs
1	2
10301481B	0
20301481B	0

The number of declared shares:

State registration number of the shares issue	The number of declared shares, pcs
1	2
10301481B	15,000,000,000

The number of shares on the books of the issuing credit institution:

State registration number of the shares issue	The number of shares at the disposal of the issuing credit institution (in the balance sheet)
1	2
10301481B	0
20301481B	0

The number of additional shares that may be offered as a result of conversion of placed shares into stock or following performance of obligations with regard to the options of the issuing credit institution:

State registration number of the shares issue	The number of shares which may be offered as a result of conversion
1	2
10301481B	0
20301481B	0

Rights conferred by shares to their holders:

State registration number of the shares issue	Rights conferred by shares to their holders
1	2
10301481B	Each ordinary share of the bank confers on its holder the same rights. Shareholders holding ordinary shares are entitled to participate in the General Shareholders' Meeting with the right of vote on all issues within its competence, and are also entitled to receive dividends and, in case of the bank's liquidation, the right to receive a part of its property. The Bank's shareholders have other rights as stipulated by the legislation of the Russian Federation and subject to bank's Charter.
20301481B	Preferred shares of the same type confer on their holders the same rights and have the same nominal value. The holders of preference shares are entitled to dividends in the amount of at least 15 percent of the nominal value of a preference share. The shareholders who own preferred shares have no right of vote at the General Shareholders' Meeting, unless otherwise established by the Federal Law. The Bank's shareholders have other rights as stipulated by the legislation of the Russian Federation and subject to bank's Charter.

8.3. Information on previous offers of issue-grade securities of the issuing credit institution, except for shares of the issuing credit institution.

8.3.1. Information on the issues where all securities have been redeemed.

Information on each issue where all the securities have been redeemed during the last 5 completed reporting years and the period from the start date of the current year to the end date of the reporting quarter:

Class, series (type), form, and other identifying characteristics of the securities	Exchange-traded documentary non-convertible interest-bearing bonds to bearer subject to mandatory centralized storage of series BCO-USDCALL-KO-6m-001P-01R (BSO-USDCALL-KO-6m-001P-01R), ISIN: RU000A0JX1K8
The identification number of the securities issue and the date of its assignment:	4B020101481B001P dated 9 December 2016 The Exchange-Traded Bonds Program is an exchange-traded bonds with the identification number 401481B001P02E, dated 21 October 2015, within which the issuance of these Exchange-Traded Bonds was placed (hereinafter, the Program)

Organization that assigned the identification number to the securities issuance	MICEX Stock Exchange
The number of securities in the issue	1,000,000 (according to the Issuance Terms and Conditions)
Total nominal value of the securities issue	RUB 1,000,000,000 (according to the Issuance Terms and Conditions)
Period (date) of maturity of securities issue	16 June 2017
Grounds for the redemption of the securities of the issue	Performance of obligations under the securities (early redemption)
