Schedule 2	Accounting Policy of Sberbank as amended	398

Introduction

The obligation of Sberbank to disclose information in the form of a quarterly report arises in connection with the fact that a securities prospectus has been registered in respect of the Bank's securities and in connection with the admission of the Bank's exchange-traded bonds to organized trading at the stock exchange (with the submission of an exchange-traded bond prospectus to the stock exchange).

This quarterly report contains estimates and forecasts of the authorized management bodies of the issuing credit institution regarding future events and/or actions, the development outlook for the sector of economy where the issuing credit institution conducts its principal activity, and the performance results of the issuing credit institution, including its plans, the probability of the occurrence of certain events, and the performance of certain actions. Investors should not fully rely on the estimates and forecasts of management bodies of the issuing credit institution as the actual performance results of the issuing credit institution in the future may differ from the predicted results for many reasons. The acquisition of securities of the issuing credit institution entails risks, which are described herein.

The management of the issuing credit institution is unable to predict all of the trends that could affect the development of the banking sector and the impact, if any, they may have on the financial standing of the issuing credit institution and its subsidiaries (the Group).

I. Information on the Bank Accounts, Auditor (Auditing Organization), Appraiser, Financial Adviser of the Issuing Credit Institution and the Signatories to the Quarterly Report.

Factors that may affect the independence of the auditor (auditing organization) from the issuing credit institution, including information on material interests linking the auditor (persons holding positions in the management bodies and bodies for supervision of the financial and business activities of the auditing organization) with the issuing credit institution (persons holding positions in the management bodies and bodies for supervision of the financial and business activities of the issuing credit institution):

Participatory interest of the auditor (persons holding positions in the management bodies and bodies for supervision of the	none
---	------

financial and business activities of the auditing organization) in the authorized capital of the issuing credit institution	
The issuing credit institution providing borrowed funds to the auditor (persons holding positions in the management bodies and bodies for supervision of the financial and business activities of the auditing organization)	none
Close business relationships (participation in promoting the products (services) of the issuing credit institution, joint business activities, etc.), as well as any kinship	none
Information on persons holding positions in the management bodies and/or bodies for supervision of the financial and business activities of the issuing credit institution and at the same time holding positions in the management bodies and/or bodies for supervision of the financial and business activities of the auditing organization	none

Measures adopted by the issuing credit institution and the auditor (auditing organization) to reduce the impact of these factors:

No factors that may affect the auditor's independence from the Bank were identified.

Procedure for selecting the auditor (auditing organization) of the issuing credit institution:

Tender procedure related to the selection of the auditor (auditing organization) and its main terms:

Sberbank holds an open tender for selecting the auditing organization for the right to audit the Bank on an annual basis.

In 2019, the tender documentation for the open tender to select the auditor was approved by the Tender Committee of Sberbank for procurement of goods, performance of works and provision of services and published on the official website of the Bank.

Procedure for nominating the candidature of the auditor (auditing organization) for approval by the General Meeting of Shareholders, including the management body adopting the corresponding decision:

The auditing organization selected following the open tender is approved by the Executive Board, Audit Committee of the Supervisory Board, Supervisory Board and appointed by the Annual General Meeting of Shareholders.

Information on the works conducted by the auditor (auditing organization) within special auditing assignments:

When planning and conducting auditing procedures, the auditor performs works within the applicable laws and the requirements of international auditing standards. The auditor received no special assignments from the Bank.

Procedure for determining the remuneration of the auditor (auditing organization) (actual amount of the remuneration paid by the issuer to the auditor (auditing organization) following the last completed reporting year for which the auditor (auditing organization) conducted an independent audit of the annual accounting (financial) statements and/or annual consolidated financial statements of the issuing credit institution, information on deferred and overdue payments for the services provided by the auditor (auditing organization)):

The amount of the auditor's remuneration was determined on a competitive basis as part of the open tender and further reflected in the audit agreement.

The remuneration of PricewaterhouseCoopers Audit Joint-Stock Company for 2017 and the 1st quarter of 2018 amounted to 76,376,789.74 Russian rubles (including VAT).

The remuneration of PricewaterhouseCoopers Audit Joint-Stock Company for 2018 and the 1st quarter of 2019 amounted to 108,463 994.48 Russian rubles (including VAT).

The remuneration of PricewaterhouseCoopers Audit Joint-Stock Company for 2019 and the 1st quarter of 2020 will amount to 97,489,579.01 Russian rubles (including VAT).

There are no deferred or delayed payments for provision of auditing services to the Bank.

1.3. Information on the appraiser(s) of the issuing credit institution

None.

1.4. Information on advisors of the issuing credit institution.

No financial advisor was engaged in the securities market during the reporting quarter.

1.5. Information on signatories to the quarterly report

Full name	Herman Gref
Year of birth	1964
Main job information	Sberbank
Position	CEO, Chairman of the Executive Board

Full name	Mikhail Ratinsky
Year of birth	1982

01/01/20	Moscow Exchange PJSC	20301481B	10000000000	227.85	227.9
Total capitalization:					5,709.9

Method to determine the market price of a share:

Market capitalization is calculated as the number of shares in the relevant category (type) multiplied by the market price per share disclosed by the trade organizer.

2.3. Liabilities of the Issuing Credit Institution

2.3.1. Borrowed funds and accounts payable

The information on this item is not provided in the report for the 4th quarter. The data as of 1 January 2020 will be disclosed in the report of the Bank for the 1st quarter of 2020.

2.3.2. Credit history of the issuing credit institution

The information on this item is not provided in the report for the 4th quarter. The data as of 1 January 2020 will be disclosed in the report of the Bank for the 1st quarter of 2020.

2.3.3. Liabilities of the Issuing Credit Institution Arising from the Security Provided by such Issuing Credit Institution

Information on the total amount of security provided by the issuing credit institution as of the end of the last completed reporting period consisting of the 12 months of the current year:

No. No.	Name of the indicator	Indicator value, RUB thousand
		1/01/2020
1	Total amount of provided security (amount of outstanding obligations, in respect of which the Bank provided the security, if the performance of relevant obligations is secured in full in accordance with the terms of the provided security)	1,597,667,044
	Amount of security provided for the obligations of third parties	1,597,667,044
2	Amount of security provided by the Bank in the form of a pledge	0
	Amount of security in the form of collateral provided for obligations of third parties	0
3	Amount of security provided by the Bank in the form of a surety*	145,611,110
	Amount of security in the form of a surety provided for obligations of third parties	145,611,110
4	Amount of security provided by the Bank in the form of a bank guarantee**	1,452,055,934
	Amount of security in the form of a bank guarantee provided for obligations of third parties	1,452,055,934

*Sureties issued by the Bank under trade finance transactions (account 91315.02+91315.03+91315.05+91315.06+91315.07+91315.09)

** Guarantees (sureties) issued by the Bank (account 91315.01 + account 91315.10)

Information on each instance of the provision of security, the amount of which is 5 percent of the book value of the assets of the issuer as of the date of the end of the reporting period:

None.

2.3.4. Other Liabilities of the Issuing Credit Institution

None.

2.4. Risks related to Acquisition of Placed Securities (Securities to be Placed) (Bank Risks).

Basic principles for creating the risk and capital management system are defined in the Risk and Capital Management Strategy of Sberbank Group that is approved by the Supervisory Board of the Bank.

The primary goals and objectives of the risk management system are as follows:

- to ensure/maintain the acceptable risk level within the risk appetite and/or other limits and containments;
- to ensure capital adequacy to cover material/substantial risks;
- to identify and assess risk materiality, assess and forecast risk levels; set risk limits and containments; monitor and control the amount of accepted risk; take steps to reduce the level of the Group's accepted risk in order to maintain it within the set external and internal containments;
- to ensure the efficient resource allocation for optimization of the risk-return ratio of the Group;
- to ensure the uniform understanding of risks on the Group's level.

2.4.1. Credit Risk.

Credit risk means the risk of losses associated with full or partial loss of asset value or increase in liabilities due to default or deterioration of the credit quality (migration) of a counterparty/issuer/third party under the following instruments (including those received as security):

- a financial instrument under a counterparty transaction
- an issuer's security
- a derivative financial instrument tied to a credit event of a third party

The objective of credit risk management are:

- ensuring compliance of credit risks level of the Group to the risk appetite set within the Integrated Risk Management (and/or other limits and restrictions) and optimizing its level as part of management decisions to provide sustainable development of the Group, the Bank and other members of the Group in accordance with macroeconomic parameters and the Development Strategy of the Group approved by the Bank's Supervisory Board;
- complying the requirements of the state bodies and local regulators of the countries of the Group members' operation in terms of credit risk management;
- ensuring compliance with international standards and best banking practices in the area of credit risk management;

The Group's policy on credit risk management is aimed at:

- implementation of a systemic approach to credit risk management, optimization of the industrial, regional and product structure of the Group's, Bank's and other Members of the Group's credit portfolios, to manage the level of credit risks;
- improving competitiveness of the Group in terms of products subject to credit risks due to a better assessment of assumed credit risks and implementing measures for managing credit risks;
- preservation of stability when expanding the product line of Group members (implementing more complicated products) as a result of adequate assessment and management of accepted risks, particularly credit risks.

The Group applies the following methods of credit risk management:

- preventing credit risk by the identification, analysis, and evaluation of potential risks at the stage which precedes conducting operations exposed to credit risk;
- planning the level of credit risk by assessing the level of expected losses;
- implementing unified processes of risk evaluation and identification;
- limiting the credit risk by imposing limits and/or restrictions for the risk;
- creating provisions for possible losses from loans issued;

- structuring of transactions;
- managing the collateral for transactions;
- using the system of authorities when making decisions;
- monitoring and controlling the risk level.

Credit risk is evaluated for the Group in general and in terms of different portfolios of assets exposed to credit risk, and also in terms of individual credit risks of specific counterparties and groups of counterparties, countries, geographical regions, types of economic activities.

The Group uses a system of internal ratings based on economic and mathematical models of estimating the probability of default by counterparties. Counterparty credit risk assessment depends on the types of counterparties:

- corporate customers, credit institutions, financial companies, small business entities, countries, subjects of the Russian Federation, municipal entities, insurance and leasing companies – on the basis of the credit ratings system, as well as by building models of predicted cash flow or other important indicators;
- individuals and micro businesses – based on an assessment of counterparty solvency, an express assessment, and information from external sources available to Sberbank.

The system of credit ratings provides a differentiated assessment of probability of default/non-execution by the counterparties of their obligations by analyzing quantitative (financial) and qualitative factors of credit risk (factors of market and external influence, characteristics of management quality, assessment of business reputation and others), materiality of their impact on the ability of the counterparty to serve and repay their obligations.

In accordance with the developed macroeconomic scenarios, the Group performs analysis of sensibility of the credit risks level at the level of individual counterparties and the credit portfolio as a whole, and, according to the results, it detects the macro factors to the maximum extent correlating with the probability of counterparties' default. For the purposes of stress testing, the statistical information about rapid changes of macro factors is used when modeling the ratings in stress situations.

The system of monitoring and controlling the level of the Group's credit risks is implemented on the basis of the principles which ensure preliminary, current and further control of transactions exposed to credit risks, compliance with the established risk limits, and their timely actualization.

A multilevel system of limits for each line of business based on limiting credit risks by loan operations and operations on financial markets is developed in the Group.

The Group pays close attention to the control of concentration of major credit risks and compliance with the prudential requirements of the regulating authority, analysis and forecast of the level of credit risks. By credit risk concentration analysis, control and management the following stages are applied:

- Keeping of the group of related borrowers list based on complicated criteria of economic and legal relation of borrowers;
- Controlling the provision of large loans to single borrowers or groups of related borrowers;
- Controlling the industry and country risk level

The bank conducts monitoring of major credit risks and forecasting of compliance with the requirements set out by the Bank of Russia on mandatory ratios – N6¹ (including the index of risk concentration (RCI6.1)², N21³ (maximum risk per borrower or group of related borrowers, bank and banking group), N7¹, N22³ (maximum size of major credit risks, bank and banking group), N25¹ (maximum risk per bank-related party (group of bank-related parties)). For these purposes, the Lists of Major and Related Borrowers are maintained and monitored. The Bank's largest borrowers come from various sectors of the economy; therefore, the credit risk is adequately diversified.

One of the main instruments for reducing credit risk is collateral. Several kinds of security can be taken for credit risk limitation. The need to accept collateral and the volume of accepted collateral depends on the credit risk level of the borrower/transaction and is fixed in the terms of the loan products. When granting loans, the most efficient combination of requirements to the borrower's creditworthiness level and to collateral used, which significantly increases the efficiency of loan workflow.

In order to hedge credit risks, a Collateral Policy defining the basic principles and elements of organizing the work with funded and unfunded collateral has been developed and implemented. The

¹Bank of Russia Instruction No. 199-И (199-И) 'On Banks' Required Ratios and Capital Adequacy Buffers for Banks with a Universal Licence' dated 29 November 2019

²Bank of Russia Ordinance No. 4927-Y (4212-U) 'On the List, Forms and Procedures for Compiling and Submitting Credit Institutions' Reporting Forms to the Central Bank of the Russian Federation' dated 8 October 2018

³Bank of Russia Regulation No. 509-П (509-П) dated 'On Calculation of Equity (Capital), Mandatory Ratios, and Open Foreign Exchange Position Amounts (Limits) for Banking Groups' dated 3 December 2015

Collateral Policy is aimed at the creation of such approaches to working with collateral that allows to reduce credit risks, maintain the required quality level of the credit portfolio in terms of collateral, drive an increase in the level of return of bad debts. The quality of the collateral is determined by the degree of credit risk protection provided by it and the probability of obtaining funds in the amount of the estimated collateral value upon foreclosing on the subject of the collateral or its sale. The quality of the collateral is indirectly characterized by the list and materiality of the risks associated with the collateral and is determined by a number of factors: liquidity, reliability of the assessment of value, risks of impairment, exposure to risks of loss and damage, risks caused by legal reasons, and others. In general, liquid and reliable collateral is preferred in lending.

Collateral value is appraised based on an internal expert appraisal, an appraisal by independent appraisers, or, when it is impossible / inexpedient to determine the market value, based on the value of the collateral item in the borrower's accounting reporting or other nominal value with discount applied. The use of surety by solvent legal entities and individuals and guarantee for the adjustment of credit risk indicators requires the same risk assessment of the surety/guarantor as the borrower. Throughout the validity period of the credit product, pledged assets are regularly monitored to ensure control over quantitative, qualitative and cost parameters of the collateral items, their legal affiliation, and conditions of storage and upkeep.

The Group has a multidimensional system of authorities allowing the determination of the level of decision-making for every loan application. Each collegial body of regional business units and subsidiaries (unless otherwise set out in the IRD) is assigned a risk profile that determines the powers of such collegial body to make independent decisions to approve credit products and FMT deals depending on the limit position for the borrower/group of related borrowers, counterparty rating, and non-standard Transaction parameters. Thus, the existing systems of limits and authorities allow to optimize the credit process and to manage credit risk adequately.

2.4.2. Country Risk

Country risk means the risk of losses associated with a particular country's sovereign counterparties being unable or unwilling, or with that country's other counterparties or counterparties in ultimate risk operations within that country (if the sources for the repayment of the counterparty obligations originate from that country) being unable to perform their obligations for reasons depending on the country government decisions rather than on the counterparty. Country risk includes a transfer component related to the risk that the counterparty will not perform its obligations in a currency different from the national currency of the country for which the country risk has been identified (except for the Russian Federation), for reasons depending on the country government rather than on the counterparty.

In order to limit and manage country risks accepted by the Group in respect of certain countries, the Bank has developed a system of country risk limits. These limits restrict the total concentration of transactions with counterparties from a given country, including sovereign borrowers/issuers and public authorities.

2.4.3. Market Risk.

Market risk is the possibility that the Group will have financial losses as a result of adverse changes in foreign exchange rates, stock quotes, interest rates, precious metal prices and other market indicators. The main purpose of market risk management of the Group is the optimization of its level within the Group, the compliance of the risk level with established limits, loss minimization in case of adverse events.

For market risk assessment and management, the Group breaks down the transactions in the Trading and Banking Books by formation means and goals, the powers of business units participating in the book management, their typical market risk components and approaches to manage them.

The Group defines the following types of market risk:

- *Market risk in trading activities in financial markets:* market risk of the trading book.
- *Market risk for non-trading operations:* interest rate risk, currency risk, risk of market credit spread of the banking book, commodity risk, stock market risk, asset liquidity risk, real estate risk.

Market risk management is carried out in accordance with the adopted group policies on each risk type.

2.4.3.1. Market Risk of the Trading Book

Control over market risk of the trading book is carried out by business units organizationally independent from business units entering into transactions in financial markets. The process of risk monitoring involves continuous monitoring of trading transactions at all stages of the operating process.

Management of market risks of the trading book is performed in the Group through the system of authorized bodies making decisions depending on the risk level and portfolio hierarchy. Such system allows for the speed and flexibility of the decisions taken.

Market risk management in the Group is performed on a portfolio basis. The main market risk management tool is setting market risk limits for separate portfolios. The portfolio consists of transactions in financial markets with common characteristics such as acceptable risks, currency, types of instruments, constraints used, and so on. The limits of market risk are set in accordance with the requirements of the Bank of Russia, the Basel Committee on Banking Supervision and the best banking practices in the management of market risks.

Value at risk (VaR) is used as the main metric for the valuation of market risk of the trading book. This metric is an estimate of the maximum portfolio loss for a given time period with a specified probability (level of trust) in the "normal" market. The "normal" market is characterized by the dynamics of market forces (currency quotes/shares/goods, interest rates) in the absence of a systemic crisis in the economy/banking sector of a country or a group of countries, or negative facts/events capable of causing a significant change in market forces and, as a result, the value of positions in financial instruments.

The VaR calculation is based on the following assumptions:

- the range of historical data used for the calculation is 2 years;
- VaR is calculated for a period of 10 working days, during which, on average, it is possible to close (or hedge) items that are exposed to market risk;
- the 99% one-way confidence level is used, which means that the amount of loss exceeding VaR is expected for one of the 100 periods.

The VaR metric at the level of each portfolio is subject to a regular backtesting process in accordance with a formal procedure designed to meet the requirements of the Basel Committee on Banking Supervision.

Although VaR allows for obtaining a risk assessment, one should also consider the drawbacks of this method, such as:

- the use of past price changes does not allow for a full assessment of possible future price fluctuations;
- the calculation for the 10-day period implies that it is possible to close (or hedge) all Group positions within the given time period. This assessment may be far from accurate in measuring risk exposure at the time of reduced market liquidity, when the period of closing (or hedging) the positions may increase;
- using a 99% one-way confidence level of probability does not provide for estimating losses with a probability below 1%;
- the VaR calculation is based on positions at market risk at the end of the day and may not reflect the risk accepted during the day.

Taking into account the shortcomings of the VaR method, in order to receive more detailed information on the market risk exposure, the Group extends its VaR calculation with market risk assessments using scenario analysis and stress testing.

2.4.3.2. Market risk on non-trading operations

Interest rate and currency risks in the banking book

The banking book interest rate risk is a risk of losses, decrease in profit, capital or capital adequacy due to an adverse change in interest rates of financial instruments in the banking book and/or market interest rates influencing the value of the banking book financial instruments.

Currency risk of the banking book is the risk of financial losses, decrease in capital or capital adequacy as a result of changes in foreign exchange rates and precious metal prices in the banking book positions.

The main sources of currency risk of the banking book are:

- transactions for creation and recovery of provisions for outstanding loans in foreign currency;
- transactions for restructuring of loans in terms of changes in the currency of debt;
- other income and expenses in foreign currency.

The key purposes of management of interest rate and currency risks of the banking book are as follows:

- limit possible financial losses and ensure financial stability of the Group;
- fulfillment of regulatory requirements established by the Bank of Russia and local regulators;
- risk containment by assessing Risk Appetite;
- maintaining the risk level within the established Risk Appetite.

To assess the interest and currency risks in the banking book, the Group mainly uses the following metrics:

- change in the net interest income with the given change in interest rates (parallel or nonparallel shift of the interest rate curve) over a given time horizon. Change in the net interest income is used to assess the impact of interest rate risk on the financial result of the Bank and Group in short-term (up to one year) and mid-term perspective (usually up to 3 years);
- change in fair value of the banking book instruments carried at current present fair value with the given change in market interest rates;
- change in the net present value of cash flows throughout the banking book with a given change in interest rates;
- regulatory OFXP reflects the structure of open items broken down by individual currencies for the Group and Group members, which is calculated as per the requirements of the Bank of Russia;
- economic OFXP reflects the sensitivity of the financial result to changes in foreign exchange rates and prices for precious metals.

As part of the interest rate risk management, the Group's business plan establishes a target position for interest rate risk in rubles for the Bank and targets for the volume and term structure of key assets and liabilities that ensure the achievement of the target interest position. The Bank continuously monitors the level of interest rate risk in the banking book, controls compliance with limits, and analyzes the dynamics of interest rate risk indicators.

To limit currency risks for the business units of the Bank and individual subsidiaries in the Group, limits on the open foreign exchange position are established and controlled.

Credit spread risk of the banking book

Risk of market credit spread of the banking book (CSRBB⁴) means the risk of losses or capital decrease because of a decline in market prices of securities of the banking book acquired under the business models 'receipt of contractual cash flows' and 'receipt of contractual cash flows and sale' and carried at fair value as a result of an adverse change in the market credit spreads.

Sberbank built a management system for the CSRBB and introduced appropriate control and management procedures for this type of risk.

The objectives of CSRBB are ensuring financial stability, limiting possible financial losses and negative impacts of the risk on Sberbank.

The tasks of the CSRBB management are as follows:

- to implement a systemic approach towards CSRBB management;
- to provide complete and reliable information in a timely manner to the Bank's management and members of the Group, which is required to make sound management decisions in CSRBB management;
- maximizing the profit of the Bank and the Group members while maintaining an acceptable level of the CSRBB.

To assess CSRBB, the Value-at-Risk metric (VaR) is used, which is an estimate of the maximum loss in the fair value of financial instruments⁵ as a result of changes in market credit spreads over a given period of time with a given probability (confidence level). To assess VaR for RCSBB, the Monte Carlo method is used.

2.4.4. Liquidity Risk.

⁴The list of financial instruments susceptible to the CSRBB is defined for the purposes of this section

⁵ In accordance with the internal regulatory documents on risk management of Sberbank Group

Liquidity risk management helps to ensure the Bank's and Sberbank Group members capability to perform its obligations to clients and counterparties unconditionally and in due time, in compliance with regulatory requirements in the area of liquidity risk management, either in normal business conditions, or in crisis situations.

The Sberbank Group is exposed to the liquidity risk because it does not accumulate funds for the event of the one-time performance of all existing obligations. Instead, on the basis of the current market environment, assumptions about the future evolution of the balance sheet items and accumulated historical data, an assessment of an adequate level of cash and cash equivalents and liquidity reserves needed to perform these obligations on different time horizons is performed.

Liquidity risk means a risk reflecting the inability to finance activities, i.e. to ensure the growth of assets and/or perform obligations as they become due, or the violation of regulators' requirements relating to liquidity risk. The following types of liquidity risk are identified in liquidity risk management:

- physical liquidity risk is the risk of failure by the Bank/ Sberbank Group member to fulfill its obligations to customers or counterparties in any currency or precious metal because of a shortage of cash or noncash funds (inability to make a payment, disburse a loan, etc.).
- statutory liquidity risk is a risk of a failure to meet the statutory liquidity ratios set by the Bank of Russia (e.g. N2, N3, N4, N26, N28 and others⁶), as well as statutory liquidity ratios set by local regulators in the countries of operation of the Group members and the Bank's branches.
- structural liquidity risk (concentration risk) is a risk of a significant deterioration of physical or regulatory liquidity due to an imbalance in the asset and liability structure, including a strong dependence of the Bank's/ Sberbank Group member's liability base on one or several customers or funding sources in a certain currency or with a certain maturity term, or, if necessary, on other parameters (such as, economy sector, geographical zone, type of instrument, etc).

The liquidity risk is assessed primarily through:

- calculation of risk metrics to monitor and measure the liquidity risk. Metrics are calculated that meet the requirements of local regulators, as well as internal metrics developed by Sberbank Group members;
- forecasting of the balance (top-down approach), which allows to calculate the necessary funding and the necessary liquidity buffer, taking into account the environment of debt capital markets and the availability of specific funding sources. This approach is used in business planning and development of the Funding Plan.
- forecasting of the balance sheet (bottom-up approach), which allows to calculate the liquidity profile for future periods on the basis of forecasting the flow of payments (outflows and inflows on the main balance sheet items and off-balance sheet requirements / liabilities, taking into account the expected behavior of customers and the business units' forecast of business development). This approach is used in the process of operational management of liquidity risk in the short and medium term horizons;
- scenario analysis to determine potential demand in liquidity under the influence of different risk factors;
- stress testing aimed at determining the liquidity buffer value required for ensuring the operation of the Bank and the Group members in case of implementation of each scenario, namely: market crisis, name crisis or both of them simultaneously.

In order to improve the quality of the liquidity risk assessment results, the Group designs and implements behavioral adjustment models to consider the impact of customer behavior on cash flows.

To limit the degree of exposure of Sberbank Group to the liquidity risk, a system of indicators characterizing the level of liquidity risk that the Group is ready to accept is defined.

Liquidity risk management system includes the following elements:

- business planning and preparing the Funding Plan;
- system of limits and trigger limits on risk metrics restricting the liquidity risk;
- accounting for liquidity risk when pricing products;

⁶ In case that any other liquidity ratios are set as statutory ratios for the Bank/ the Group Member

- accounting for liquidity risk in the system of internal transfer pricing;
- use of a mechanism for motivating the activities of the units, depending on the objectives of managing liquidity risk;
- assessment of liquidity risk when agreeing terms of new banking products / services / transactions;
- coordination of major transactions in terms of impact on liquidity risk (in particular, the assessment of the impact on mandatory liquidity ratios);
- liquidity buffer management;
- development of the Liquidity Contingency Plan.

To reduce the risk of liquidity, the Bank / Sberbank Group members:

- maintain a stable and diversified liability structure that includes resources raised from different investor and client groups, both for a fixed period and as on-demand funds;
- invest in highly liquid/liquid financial assets, diversified by currency type and maturity, to quickly and efficiently close unexpected liquidity gaps;
- monitors the use of existing liquidity reserves and initiate an increase if necessary;
- maintain relations with counterparts in financial markets to ensure that, when liquidity is needed, funds are made available in the shortest possible time.

Liquidity risk within the Bank and Sberbank Group as a whole is managed by the Assets and Liabilities Management Committee of Sberbank. Sberbank Treasury organizes the formation of a management system, organizes and coordinates the process of liquidity risk management in the Bank and the Group, ensures compliance with the established risk appetite and other limits and restrictions in terms of liquidity risk, implements measures to manage physical, structural and regulatory liquidity. The Risks Block develops the target architecture of limits and sets the limits for the liquidity risk metrics; performs regular independent monitoring of compliance with established liquidity limits, validation of liquidity models and escalation of violations of limits to the collegiate management bodies. The Group defines single rules on raising and allocating resources by the Group members and on coordinating the Group members' activities on debt capital markets, and unified principles for raising funds from capital markets are applied for the purposes of the Bank's and Group's liquidity risk management.

Authorities of the Group's members are responsible for the effective liquidity management and control of liquidity of the institutions concerned, as well as the compliance with the limits and restrictions set by the Bank and the requirements of local regulators. Liquidity risk in Group members is assessed, managed and controlled in line with the Group's unified standards taking into account the diversification of requirements to various categories of Group members depending on the scale and nature of performed operations and on whether a Group member is included in the consolidation perimeter under RAS.

2.4.5. Operational Risk.

Operational risk is the risk of the Bank incurring losses as a result of any defects in internal processes, functioning of information systems, unauthorized / illegal actions or errors of employees or due to external events.

The operational risk management system is aimed at preventing such risk or the maximum possible decrease of the threat of potential losses (direct and/or indirect) connected with internal process organization and external factors (events), measurement of operational risk for the calculation of necessary regulatory and economic capital as well as the creation of an adequate system of internal control.

The operational risk management process in the Group includes the following main stages:

- operational risk identification;
- operational risk evaluation;
- analysis of problem areas of processes, development and making a decision on optimizing / changing the processes in order to reduce the level of operational risk;
- operational risk monitoring;
- control and/or reduction of operational risk.

In order to perform the stages mentioned above, the Group has implemented such operational risk management instruments as collection of internal data concerning losses caused by the realization of operational risk incidents, self-assessment of units and scenario analysis for operational risks.

Risk coordinators are appointed in all structural units of the Bank and the Group members from among unit employees, whose functions include, in particular, interaction with operational risk units in terms of identification, estimation, monitoring and control of operational risk. In particular, risk coordinators inform about materialized incidents of operational risk and estimate potential risks during self-assessment.

To monitor operational risk, the Group uses a system of reports for the management and collegial bodies involved in the risk management processes. Operational risk reporting is drawn up on a daily, monthly, and quarterly basis.

Data related to risk assessment and incurred losses help identify risk concentration areas for further development of a set of measures to mitigate the Group's risk level.

Risk reduction activities are being introduced at the Bank. These activities are intended both to change existing processes and technologies for operations and to improve the executive discipline of staff. The Bank regularly monitors measures implementation status and residual risks, both by business units and operational risk units, as well as executives and collegial bodies of the Bank management and Group members. The Bank has developed and approved a new approach to setting key performance indicators (KPIs) for operational risk, established the values of operational risk appetite, including those for business units, values of operational risk loss limits, and established the target level for identifying operational risk events of the first and second lines of defense (by business units and units of the Operational Risk Division). As part of analyzing, controlling and forecasting operational risks, the Bank also develops and monitors key risk indicators.

To prevent and/or decrease losses that arise from materialized operational risk events, the Group has developed and applies such mechanisms and procedures as overall regulation of business processes and procedures; segregation of power; internal control over the compliance with the procedure established for operations and transactions, limit discipline; a complex of measures ensuring information security and business continuity; improvement of audit procedures and control over the quality of automated systems and hardware complex functioning; property and asset insurance; improvement of employees' qualification at all organizational levels, etc.

2.4.6. Legal Risk.

Legal risk arising from the possibility of the Group incurring losses as a result of the Group's and/or its counterparties' violation of conditions of concluded agreements, legal errors made by the Group in the implementation of activities, imperfections of the legal system, counterparty violations of regulatory legal acts, branches of the Group, legal entities, in respect of which the Group exercises control or significant influence, as well as the Group's counterparties, being under the jurisdiction of different states, is considered by the Group to be a component of operational risks.

The legal risk management process in the Group includes the following main stages:

- identification of legal risk;
- evaluation of the legal risk;
- making a decision on risk-related measures and legal risk regulation;
- monitoring and control of the level of legal risk and losses.

To implement these stages, the Group has introduced such legal risk management tools as collecting internal data on losses due to the occurrence of legal risk incidents, developing measures to minimize legal risk, preparation of reporting on legal risks.

While performing statutory activity, the Group strictly follows the requirements of effective laws and by-laws. To manage the legal risk, the following is carried out: monitoring of the lawmaking and changes in laws and by-laws in legal banking system regulation, taxation and financial laws; legal expert examination of compliance of internal regulatory administrative documents and agreements, concluded by the Bank, with effective laws and other regulatory legal acts; regular analysis of the results of review of disputed issues with participation of the Group in judicial authorities; studies of the arbitration practice; minimizing the consequences of legal risk occurrence while protecting the interests of the Bank in courts and when interacting with public authorities.

III. Detailed Information on the Issuing Credit Institution

3.1. History of the Establishment and Development of the Issuing Credit Institution.

3.1.1. Information on the Issuing Credit Institution's Company Name.

Full company name	Sberbank of Russia
introduced on 4 August 2015	

Short company name:	Sberbank
introduced on 4 August 2015	

Name of a legal entity similar to the company name of the issuing credit institution:

None.

Information on registration of the company name of the issuing credit institution as a trademark or service mark:

The company name of the Bank is not registered as a trademark or service mark.

Former company names and legal forms of the issuing credit institution:

OGRN	1027700132195
Date of introduction of the record in the Uniform State Register of Legal Entities on the establishment of the issuing credit institution	16/08/2002

Name of the registration authority that introduced a record on establishment of the issuing credit institution into the Uniform State Register of Legal Entities	Ministry of the Russian Federation for Taxes and Levies; Moscow Department of the Ministry of the Russian Federation for Taxes and Levies
Date of introduction of a record into the Uniform State Register of Legal Entities on the first submission of information on the issuing credit institution registered prior to enactment of the Federal Law "On State Registration of Legal Entities and Individual Entrepreneurs":	16/08/2002
Name of the registration authority that introduced the record	Ministry of the Russian Federation for Taxes and Levies; Moscow Department of the Ministry of the Russian Federation for Taxes and Levies
Date of registration in the Bank of Russia	20/06/1991
Registration number of the issuing credit institution in accordance with the State Register of Credit Institutions:	1481

3.1.3. Information on the Establishment and Development of the Issuing Credit Institution.

The issuing credit institution was established for an indefinite period.

Brief description of the history and development of the issuing credit institution.

Historically, Sberbank is considered to have been established on the date of the Decree issued by Emperor Nicholas I on the creation of savings banks signed on 30 October (12 November) 1841. The Decree read: "As Savings Banks may be of economic and moral use, we order to establish Savings Banks, on the grounds exposed in the Charter, for the first time under Petersburg and Moscow Saving Treasuries."

The first savings bank was opened in Petersburg on 1 March 1842, in the building of the Board of Trustees at 7 Kazanskaya St. The Petersburg Savings Bank operated in this building designed in 1810 by the architect Giacomo Quarenghi right up until 1917. On the day of its opening, the bank was visited by 76 depositors who opened accounts to a sum of 426.5 rubles. The first savings bank customer was Nikolay A. Kristofari, Court Counselor, Assistant to Expedition Director of the Saint Petersburg Loan Treasury, whose 10-ruble deposit started the Russian savings business. He received savings book No. 1.

The Moscow bank opened its doors for customers on 5 April 1842, in the building of the Board of Trustees of Solyanka Foundling Hospital. Up to 1862, it remained the only savings bank in the city that had no branches, in the same way as the one in Petersburg.

In June 1860, the savings banks passed from the jurisdiction of Boards of Trustees and Ministries of Internal Affairs to the jurisdiction of the Ministry of Finances. On 16 October 1862, the Emperor Alexander II approved a new draft for the Savings Banks Charter, under which "The purpose of the savings banks is to encourage poor people and especially the working classes to save a part of their earnings to cover for illnesses, lack of work or generally for a rainy day, providing all means for sure and profitable safekeeping of such savings."

In the 1880s, a period of rampant development of the national savings banks started. The progress was related to the changes in the government policy on savings banks under the influence of foreign experience. Since the mid 1880s, the government also started a significant expansion of the bank network outside the State Bank offices. In 1884, a decision was made to organize banks with all province and district treasuries (outlets of the Ministry of Finances), and also in any other town, suburb, or a large trade and industrial center, "where a great number of working and factory population is concentrated." As a result, while there were 42 outlets functioning under treasuries at the end of 1884, their number reached 206 in the next year, and there were 3,875 of them a decade later. The amount of deposits increased from RUB9.1 m to RUB367.9 m. The growth rate of money deposits in savings institutions was so significant that by the mid 1890s the savings outlets surpassed

all other credit institutions, both state and private ones. Savings institutions started to penetrate the remote regions of the country involving different strata of the population in their activities and becoming a reliable accumulator not only for small savings of the poor but also for the income of the middle class. As a result, savings banks occupied a leading place in the country's credit and banking system by the mid 1890s.

In the last decade of the 19th century, a new era opens up in the history of Russian savings banks connected with the name of Sergey Witte, a prominent Russian public figure of the turn of the 19th-20th centuries, and the Minister of Finance of Russia. He regarded people's savings first of all through the prism of "state enterprise foundation." S. Witte brought to perfection the mechanism of using internal savings in "state interests", and the type of the savings bank he created existed until 1917. The outlets were regarded by the Minister of Finances as "assistance to the government in financial and economic undertakings," first of all, during conversion operations and the issue of railway loans.

The huge increase in savings institutions at the turn of the 1880–1890s heralded the need for a reform of the 1862 Charter that did not satisfy the changed conditions. The new Charter was approved by Nikolai II on 1 June 1895. Article 1 read: "The state savings banks have the purpose of accepting deposits for interest accruals by giving ways of savings accumulation to the population." The government guaranteed the integrity of raised funds, and the outlets were obliged to maintain the confidentiality of deposits. The procedure of savings banks network development was simplified as much as possible: the Minister of Finances could issue an order and open savings institutions under all financial organizations, as well as any state, public or private body.

The savings banks were obliged to charge free funds to a special account in the State Bank, and they received at least 0.5% annual interest (earlier, the State Bank used the resources of savings banks free of charge). The bank operations now included ordinary on-demand deposits and conditional special-purpose deposits (for children until they come of age, for burial, etc.). The credit function of Russian banks was not developed to any noticeable extent. During the whole course of their history up to 1917, they remained "pumps" for the transfer of internal savings to the treasury's disposal. The 1895 Charter established the official status of state savings banks as financial assistance to the government.

During the First World War (1914–1917), the network of saving institutions was expanded as much as possible, and important changes took place in the composition of bank operations. The First World War was a time when the savings banks finally lost their role of charity organizations, as was intended initially, and they transformed into a kind of credit institutions. The first and one of the most important transformations was the law dated 7 July 1915, on cancellation of the maximum deposit sum and giving customers the right to deposit their savings with the banks without limiting them with any norms. In July 1915, an instruction was given to introduce operations of acceptance of state interest-bearing securities for keeping in the savings banks and their management on a paid-for basis. During the World War, one more important reform in the savings business was prepared: the introduction of check operations.

The period after the October Revolution of 1917 was marked by a crisis for the savings banks. Once again, private savings took the form of fully disorganized natural accumulations of products and deposits cautiously kept in thrift boxes in concealed locations. However, the system of state savings banks with their tradition of using free funds of the population by the state was an institution that did not contradict the attitudes of the new power and could become useful in practice. Therefore the State Bank (renamed People's Bank) and the state savings banks were the only ones to survive from the former credit system. Based on the decree of the Council of People's Commissars dated 10 April 1919, the savings institutions were merged with the RSFSR People's Bank to create a unified cash apparatus, and it inherited all assets and liabilities of the savings banks. The savings banks organized at the end of 1922 were not the formal successors of the savings institutions in tsarist Russia. The savings business, just like many other things at this time, was actually created anew. Only certain organizational traits of the old apparatus and the external forms of operations were taken from the past. The essence of the savings bank policy in the tsarist time involved the provision primarily of a reliable place to keep money for the depositors and ensuring relatively moderate interest. "Labor" savings banks attracted funds first of all for their direct economic use. The royal banks were as a rule created in places where savings were available; the "labor" banks had to "generate" them; they were formed from scratch and had to conduct promotional and organizational work. From the start, the network of the Soviet savings banks was based on an attempt to have as

many credit organizations as possible, locating them in cities and villages to achieve maximum reach to the population and, at the same time, create a convenient service for the people.

Further on, the line for the country's industrialization and agricultural collectivization brought about large-scale and deep structural transformations of the whole society. When the first five-year plan was approved in 1929, the development of the savings business in the country was also predetermined in many ways. A new Provision on state labor savings banks was approved. The Provision secured changes in the functioning of savings banks related to serving the widest circles of the population in maintaining simple banking as well as stock and settlement operations. The following operations were introduced in savings banks: depositing, transfer, letter of credit, securities operations, acceptance of payments, taxes and duties, cashless settlement operations, payment of pensions, and issuance of savings certificates. In addition, the savings banks had to participate directly in the realization of state loans and conduct operations with their bonds: sales, payment for express coupons, payment of prizes, interest and repayment capital, as well as acceptance of bonds for safekeeping and granting loans with bonds as collateral. Thus, the savings banks could perform a wide range of operations, and in this respect their activities were much more extensive in comparison not only with pre-revolutionary banks but also with the savings banks of foreign countries that existed at the time.

During the Second World War, the savings banks had the task of preserving the main part of savings accumulated before the war in state circulation and also ensuring the attraction of new deposits; the use of flexible organizational forms for prompt service of customers allowing for their forced migration; development of new kinds of cash and credit operations, the need for which increased in conditions of war. During the war, the priority of the operational activities of savings banks was holding loan campaigns and serving bond holders, making deposit operations, and the acceptance of tax and other payments. The savings banks also had the obligation of accepting money in the patriotic funds ("Defense" and "Red Army"), pay state benefits to single mothers and mothers with many children, pay cash benefits to families of officers, payments under merit certificates, personal pensions, etc. During the war, savings banks played a huge role in depositing state loans and also in organization of cash and prize lotteries.

In the post-war period, a new Charter of the State Labor Savings Banks of the USSR was approved in 1948, thus replacing the previous Charter of 1929. The approval of the 1948 Charter was the next stage in the transition from the system of state savings banks to the Savings Bank. Under the new Charter, the state labor savings banks became a unified state credit institution legally represented as the Main Administration of Labor Savings Banks and State Credit. Its inferior bodies in union and autonomous republics, territories, regions, and cities included relevant administrations of the state labor savings banks and state credit. Central savings banks, which were the basic type of savings banks, reported to local administrations. The main aim of savings institutions was to give the population the opportunity to store free funds reliably and make settlements, assist in accumulating funds and their use for development of the USSR national economy.

At the start of the 1960s, due to a considerable change in the role of savings institutions in budget financing and crediting of the national economy, the government set the task of establishing a tighter connection of savings business development with crediting of the national economy and support of stable circulation of funds and the purchasing power of the ruble. In accordance with the Decree of the USSR Council of Ministers No. 1061 dated 4 October 1962, the system of savings banks with all assets and liabilities as of 1 January 1963, passed from the jurisdiction of the USSR Ministry of Finances to that of the USSR State Bank. As a result, allocating the funds attracted by savings banks in the form of deposits for extending loans to the national economy, the State Bank concentrated up to 95 percent of all operations related to crediting of the national economy. The transfer of state labor savings banks to the system of the State Bank helped improve functioning of the cash service and cash collection service, introduce mechanical processing of reports, improve equipment of cash desks, and ensure their connection to cash management services provided to enterprises and institutions. In 1963, the savings banks started accepting utilities payments from the population. This decision played a substantially positive role in development of the savings system as now practically the entire population of the country numbered among its customers, which also made it possible to expect an increase in the number of depositors and the amount of deposits. It was followed by opening current accounts for schools, hospitals, children's institutions, and other organizations in savings banks with a small volume of settlement and cash services.

In 1977 the USSR Council of Ministers approved a new Savings Banks Charter, under which savings banks were defined as a "unified union credit institution". The savings banks were given

monopoly rights to the organization of the savings business in the country: only savings banks had the right to issue a document called a "Savings Book" to the depositor. The government's further decisions envisaged a number of measures to expand the functions of savings banks and improve the culture of customer service. The savings banks received over 7 thousand new premises, and 600 more were built using own resources or on the terms of share participation, and equipment of savings banks was also improved. A number of organizational measures were taken aimed at improving the savings banks' working hours and creation of additional conveniences for the population: by 1985 over 70% of the savings banks worked outside working hours and on general days off.

In 1987, the system of institutions of the USSR State Labor Savings Banks was reorganized to form the Bank of Labor Savings and Lending for the USSR Population (USSR Savings Bank), a state specialized bank for serving the population and legal entities. Sberbank of the USSR included 15 republican banks, 166 provincial, regional and city offices, 4.1 thousand branch offices with 50.7 thousand branches and 22.1 thousand agencies. In 1988, the Executive Board of Sberbank of the USSR made a decision to transform the bank's activities related to transition of Sberbank's entire system to economic methods of management, strengthening of the material and technical base, creation of modern infrastructure for savings institutions, active implementation of cashless settlement, better satisfaction of the growing demand of citizens for banking services, maximal use of automation means, creating a system of trained personnel preparation, and increasing labor remuneration. In 1988, all the branches of USSR Savings Bank shifted to full self-support and started to use the team form of labor organization and remuneration.

From the middle of 1990, due to the political situation in the country, the Board of USSR Sberbank started working on gradual internal reformation. Under the Decree of the RSFSR Supreme Council dated 13 July 1990, the Russian Republican Bank of USSR Sberbank was declared the sovereign property of the Russian Federation. In the fall of 1991, the process of dismantling the USSR structures gained momentum and their functions were switched to Russian ones. On 20 December 1991, the USSR State Bank ceased to exist. On 24 December 1991, self-liquidation of USSR Sberbank was declared on the basis of the decision of its Council. After the USSR dissolved, only Sberbank survived in the competitive struggle of all republican savings banks in the post-Soviet space. The savings banks in former Soviet republics either ceased to exist altogether or occupied a minor position in the financial system of their countries.

The Joint-Stock Commercial Savings Bank of the Russian Federation was created in the form of a joint-stock company in accordance with RSFSR Law dated 2 December 1990, "On Banks and Banking Activity in RSFSR". Central Bank of the RSFSR was the founder. On 22 March 1991, the General Meeting of Shareholders of RSFSR Savings Bank made a decision to approve the Charter of RSFSR Joint-Stock Commercial Savings Bank, registered with RSFSR Central Bank on 20 June 1991.

Today, Sberbank is a modern, universal bank that satisfies the needs of different groups of customers in a wide range of banking services, and it is the largest bank in the Russian Federation and the CIS. The share of the Bank in the assets of the banking system and banking capital stands at the level of 30 percent.

Sberbank has the largest share on the market of deposits and is the main creditor of the Russian economy. The Bank tries to efficiently invest the customers' attracted funds in the economy's real sector, it gives loans to citizens, contributes to stable functioning of the Russian banking system, and maintains deposits of the population.

Crediting enterprises of the real economy sector is the main priority of the bank's functioning. Sberbank occupies a leading position in the country's banking system by the amount of investment in the real sector of the economy: its share on the market of lending to legal entities stands at over 30 percent.

An important trend of Sberbank's credit work is financing of the customers' investment and construction projects. The loans provided for these purposes form the basis of the portfolio of specialized loans to legal entities.

Cooperation with Russian companies in raising funds is one of the most important areas of the bank's business. The Bank offers its corporate customers cash management services, international business services, and package services.

As part of optimizing the process of lending to individuals, Sberbank implemented a new technology, Credit Factory, in 2009, an integrated, automated and strictly formalized approach to lending decision making, which has helped reduce decision-making terms for customer applications, reduce expenses on analyzing transactions and on document flow. In 2011, all regional banks were

already connected to Credit Factory technology. Credit Factory's scoring technology is also available to small businesses.

The Bank actively develops operations with bank cards relying on the extensive geography of card acceptance, a product line demanded by different categories of customers and competitive rates. Sberbank has been a confident leader in Europe since 2008 in terms of issued cards.

Sberbank is actively offering its customers a wide range of insurance products sold jointly with partner insurance companies (life and health insurance and insurance against accidents and diseases for individual customers and employees of various companies, insurance of property used as collateral for loans, insurance against financial risks and civil liability of corporate customers, bank card protection, insurance when traveling abroad and in Russia, and others).

Sberbank continues to actively develop its remote sales channels, in particular, by expanding its network of Self-Service Terminals. The Bank is also successfully developing Sberbank Online, another remote service. The number of its active users already exceeds 9 m. Customers are offered new versions of Sberbank Online for iPhone, iPad and Android devices, and an application for Windows Phone.

3.1.4. Contact information.

Address of the issuing credit institution specified in the Uniform State Register of Legal Entities:	19 Vavilova St., Moscow 117997
Mailing address:	19 Vavilova St., Moscow 117997
Phone and fax number:	(495) 500-55-50, (8 800) 555-55-50, (495) 957-57-31

3.1.5. Taxpayer Identification Number

INN	7707083893
-----	------------

3.1.6. Branches and Representative Offices of the Issuing Credit Institution.

Changes in the company details (address, telephone number):

Name	Adygea Branch No. 8620 of Sberbank
Date of opening	20.06.1991
Location of business (Adygea Branch No. 8620 has been temporarily relocated at the following address)	92 B Zheleznodorozhnaya St., Building 1, Maykop 386017, Republic of Adygea
Phone	8 (800) 707-00-70, ext. 634-91005
Full name of the Manager	Egor Belyayev

Effective period of the Manager's power of attorney	3 years from the date of issue
---	--------------------------------

Changes in branch directors:

Name	Ingush Branch No. 8633 of Sberbank
Date of opening	18/05/1993
Location of business	27 Moskovskaya St., Nazran 366720, Republic of Ingushetia
Phone	(8732) 229-240
Full name of the Manager	Alikhan Archakov
Effective period of the Manager's power of attorney	3 years from the date of issue

Name	Komi Branch No. 8617 of Sberbank
Date of opening	20/06/1991
Location of business	18 Sovetskaya St., Syktyvkar 167981
Phone	(8212) 20-52-03
Full name of the Manager	Alina Khvishchuk (doubling as the Branch Manager since 1 October 2019 until the Manager is appointed)
Effective period of the Manager's power of attorney	3 years from the date of issue

Name	Chita Branch No. 8600 of Sberbank
Date of opening	20/06/1991
Location of business	40 Imeni Poliny Osipenko St., Chita 672010
Phone	(3022) 33-61-11
Full name of the Director	Konstantin Razvodov
Effective period of the Director's power of attorney	3 years from the date of issue

Name	Kabardino-Balkariya Branch No. 8631 of Sberbank
Date of opening	20/06/1991
Location of business	33a/72 Pushkina/Keshokova St., Nalchik 360051, Kabardino-Balkar Republic
Phone	(8662) 77-44-00
Full name of the Manager	Zalina Beytuganova
Effective period of the Manager's power of attorney	3 years from the date of issue

Name	Omsk Branch No. 8634 of Sberbank
Date of opening	20/06/1991
Location of business	4/1 Marshala Zhukova St., Omsk 644024
Phone	(3812) 27-97-10
Full name of the Director	Sergey Konovalov
Effective period of the Director's power of attorney	3 years from the date of issue

Name	Udmurtiya Branch No. 8618 of Sberbank
Date of opening	20/06/1991
Location of business	105 Krasnaya St., Izhevsk 426057
Phone	(3412) 48-99-58
Full name of the Manager	Sergey Elkin (doubling as the Branch Manager between 18 December 2019 and 21 January 2020)
Effective period of the Manager's power of attorney	3 years from the date of issue

Name	Krasnodar Branch No. 8619 of Sberbank
Date of opening	20/06/1991
Location of business	34 Krasnoarmeyskaya St., Tsentralny District, Krasnodar 350000
Phone	(861) 275-08-08
Full name of the Manager	Tatyana Sergiyenko
Effective period of the Manager's power of attorney	3 years from the date of issue

3.2. Primary Business Activity of the Issuing Credit Institution.

3.2.1. Primary Types of Economic Activity of the Issuing Credit Institution.

All-Russian Classifier of Economic Activities (OKVED)	64.19
---	-------

3.2.2. Primary Business Activity of the Issuer.

3.2.3. Materials, Goods (Raw Materials), and Suppliers of the Issuer.

3.2.4. Sales Markets for the Issuer's Products (Works, Services).

Issuing Credit Institutions shall disclose the information provided for in Clause 3.2.6 instead of that provided for in Clauses 3.2.2 – 3.2.4.

3.2.5. Information on the permits (licenses) for certain types of work that the issuing credit institution has.

Type of license (activity, work)	General license for banking operations involving funds in rubles and foreign currency
Number of the license (permit) or the document certifying clearance for certain types of work	No. 1481
Issue date of license (permit, clearance)	11 August 2015
The authority that issued the license (permit, clearance)	The Central Bank of the Russian Federation
Validity period of the license (permit, clearance)	Unlimited
Type of license (activity, work)	Banking operations license for attracting precious metals as deposits, placing precious metals, and performing other operations with precious metals
Number of the license (permit) or the document certifying clearance for certain types of work	No. 1481
Issue date of license (permit, clearance)	11 August 2015
The authority that issued the license (permit, clearance)	The Central Bank of the Russian Federation
Validity period of the license (permit, clearance)	Unlimited
Type of license (activity, work)	License for a professional securities market participant to act as a broker
Number of the license (permit) or the document certifying clearance for certain types of work	No. 045-02894-100000
Issue date of license (permit, clearance)	27/11/2000
The authority that issued the license (permit, clearance)	FCSM of Russia
Validity period of the license (permit, clearance)	Unlimited
Type of license (activity, work)	License for a professional securities market participant to act as a dealer

Number of the license (permit) or the document certifying clearance for certain types of work	No. 045-03004-010000
Issue date of license (permit, clearance)	27/11/2000
The authority that issued the license (permit, clearance)	FCSM of Russia
Validity period of the license (permit, clearance)	Unlimited
Type of license (activity, work)	License for a professional securities market participant to act as a depository
Number of the license (permit) or the document certifying clearance for certain types of work	No. 045-02768-000100
Issue date of license (permit, clearance)	08/11/2000
The authority that issued the license (permit, clearance)	FCSM of Russia
Validity period of the license (permit, clearance)	Unlimited

3.2.6. Information on the Activity of Certain Categories of Issuers. Information on Activity of Issuing Credit Institutions.

The information on this item is not provided in the report for the 4th quarter. The data as of 1 January 2020 will be disclosed in the report of the Bank for the 1st quarter of 2020.

3.3. Plans for future activities of the issuing credit institution.

Sberbank's medium-term plans have been defined by its Development Strategy for 2018–2020.

In accordance with the Strategy, the Sberbank Group plans to implement initiatives that will allow the Bank to reach a new level of competitiveness, enabling it to compete with global technology companies, remaining the best bank for individuals and corporate clients.

The key task for the Group is to increase the scale of business, profitability and efficiency while increasing flexibility, speed and customer focus on the basis of new technologies and fostering employees of new quality.

Accomplishing this task is planned through the implementation of the following key priority lines:

- 1. Best customer experience and ecosystem:** we will form the best customer experience, not only in the financial field but also in other industries through the implementation of modern technologies in all products, services and processes of the bank.
- 2. Technological leadership:** we have to finish the technological transformation of our current financial business, all the while maintaining the functionality and reliability of the existing IT systems, to complete the new platform and transfer our whole business to this platform. We also have to build the foundation for an ecosystem in non-financial industries. We will implement the solutions adopted on the basis of the data and algorithms in all our processes (data-driven company) and will be the leaders in the innovation development. Customer security will remain the key priority for us.
- 3. Employees of new quality working in effective teams:** we will restructure HR processes, training and assessment to successfully develop new competencies of the employees, implement efficient management methods through team work and reduction of the hierarchy while continuing the corporate culture development.

3.4. Issuing credit institution's membership in industrial, banking and financial groups, holding companies, concerns, and associations.

Organization: Association of Russian Banks

Credit institution's role (place), functions and period of membership in the organization:

A member of the association

The year of joining the organization: 2017

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: The FinTech Association

Credit institution's role (place), functions and period of membership in the organization:

A member of the association

The year of joining the organization: 2017

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: The Enterprise Ethereum Alliance, a non-profit alliance

Credit institution's role (place), functions and period of membership in the organization:

A member of the alliance

The year of joining the organization: 2017

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: The Association of Operators and Developers of Unmanned Aircraft Systems AERONET

Credit institution's role (place), functions and period of membership in the organization:

A member of the association

The year of joining the organization: 2018

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: Association of student olympiads Ya – Professional (I am a Professional)

Credit institution's role (place), functions and period of membership in the organization:

A member of the association

The year of joining the organization: 2018

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: Association of Big Data Market Participants

Credit institution's role (place), functions and period of membership in the organization:

A member of the association

The year of joining the organization: 2018

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: National Association of Robotics Market Participants

Credit institution's role (place), functions and period of membership in the organization:

A member of the association

The year of joining the organization: 2018

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: The Financial Literacy Association

Credit institution's role (place), functions and period of membership in the organization:

A member of the association

The year of joining the organization: 2019

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: National Association of International Information Security

Credit institution's role (place), functions and period of membership in the organization:

A member of the association

The year of joining the organization: 2019

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: National Association of Technology Transfer

Credit institution's role (place), functions and period of membership in the organization:

A member of the association

The year of joining the organization: 2019

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: The International Bank Security Association

Credit institution's role (place), functions and period of membership in the organization:

A member of the association

The year of joining the organization: 1994

Membership has been suspended since 27 September 2016

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: The International Capital Markets Association

Credit institution's role (place), functions and period of membership in the organization:

A member of the association

The year of joining the organization: 1998

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: The National Finance Association, a self-regulatory organization

Credit institution's role (place), functions and period of membership in the organization:

A member of the association (dealing and depository services)

An associate member (brokerage services)

The year of joining the organization: 1996

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: The National Association of Stock Market Participants

Credit institution's role (place), functions and period of membership in the organization:

A member of the association (brokerage services)

An associate member (dealing and depository services)

The year of joining the organization: 2009

Nature of dependence of the results of financial and business activities of the issuing credit institution on other members of the association: no dependence is observed

Organization: The Association of Promissory Notes Market Participants

3.5. Entities controlled by the issuing credit institution and materially important for that issuing credit institution (controlled entities)

No.

3.6. Composition, structure, and cost of fixed assets of the issuing credit institution, plans to buy, replace, or write off fixed assets, information about encumbrance of fixed assets of the issuing credit institution.

The information on this item is not provided in the report for the 4th quarter. The data as of 1 January 2020 will be disclosed in the report of the Bank for the 1st quarter of 2020.

IV. Information on the Financial and Business Activities of the issuing credit institution.

4.1. Business performance of the issuing credit institution

The information on this item is not provided in the report for the 4th quarter. The data as of 1 January 2020 will be disclosed in the report of the Bank for the 1st quarter of 2020.

4.2. Liquidity of the issuing credit institution, capital adequacy

The information on this item is not provided in the report for the 4th quarter. The data as of 1 January 2020 will be disclosed in the report of the Bank for the 1st quarter of 2020.

4.3. Financial investments of the issuing credit institution

The information on this item is not provided in the report for the 4th quarter. The data as of 1 January 2020 will be disclosed in the report of the Bank for the 1st quarter of 2020.

4.4. Intangible assets of the issuing credit institution

The information on this item is not provided in the report for the 4th quarter. The data as of 1 January 2020 will be disclosed in the report of the Bank for the 1st quarter of 2020.

4.5. Information on the policy applied and costs incurred by the issuing credit institution in the sphere of scientific and technical development, licenses and patents, new research and developments.

The information on this item is not provided in the report for the 4th quarter. The data as of 1 January 2020 will be disclosed in the report of the Bank for the 1st quarter of 2020.

4.6. Analysis of development trends in the primary activities of the issuing credit institution

Major trends in the banking sector of the economy for the last completed reporting year and for the corresponding reporting period consisting of 12 months of the current year, and the main factors affecting the state of the banking sector:

Summary for 2018:

In 2018, the number of existing credit institutions (credit institutions entitled to perform bank transactions) decreased from 561 (as of 1 January 2018) to 484 (as of 1 January 2019).

In 2018, assets of the banking industry increased by 10.4% in total (while in the 4th quarter of 2018 they increased by 5.6%). Banks' assets increased by 6.4% in 2017.

Over the 12 months of 2018, the growth rate of the loan portfolio of the banking industry almost tripled as compared with 2017: 15.0% and 5.2%, respectively. The trend was positive for all types of loans. While the amount of corporate loans increased by 12.4% in 2018 (versus the 2.8% increase in the same period of 2017), the amount of loans provided to individuals increased by 22.4%, which was better than growth by 12.7% a year earlier. In the 4th quarter of 2018 the trend for loans was similar: loans to individuals increased by 5.1%, and loans to enterprises – by 2.4%.

The situation with credit risks in the banking industry somewhat improved. Overdue loans as of 1 January 2019 amounted to 5.5% (vs. 6.2% as of 1 January 2018 and 6.0% as of 1 October 2018). The decrease in the amount of overdue debts in the loan portfolio of individuals was more significant than for legal entities. The amount of bad debt to individuals decreased from 7.0% to 5.1% (5.8% as of 1 October 2018), while for enterprises it decreased only by 0.2 p.p., amounting to 5.7% (6.1% as of 1 October 2018). The total amount of overdue loans (to individuals and businesses) increased by 3.0% in 2018 and decreased by 4.5% in the 4th quarter of 2018.

Loan provisions in 2018 increased insignificantly: only by 1.5% compared with growth by 8.7% a year earlier. The loan provisions to loan portfolio ratio decreased from 9.84% (as of 1 January 2018) to 8.68% (as of 1 January 2019).

From January to December 2018, investments in securities made by banks increased by 6.4%, compared to their 7.5% increase in the same period last year.

Legal entity funds, including budget funds attracted by banks, increased by 18.0% in 2018, including by 5.9% in September – December 2018. Over the same period of 2017, these funds increased by 12.1%. That being said, budget funds for the period continued to grow, even though not as fast as in 2017: 57.9% and 160.0%, respectively. Debts to the Bank of Russia increased by 29.3% against a decrease of 26.0% a year earlier.

During the period under review, deposits by individuals increased by 9.5%. Over the same period of the previous year, the amount of deposits increased by 7.4%. At the same time, market growth was 5.7% in the 4th quarter of 2018.

In 2018, the balance sheet profits of the banking industry amounted to RUB 1,344.8 bn, which is 70.3% more than the similar figure for the same period of the previous year (RUB 789.7 bn). A growth in profit in the 4th quarter of 2018 amounted to RUB 277 bn. One hundred out of 484 currently operating credit institutions (or 20.7% of their total amount) reported loss in 2018. As of 1 January 2018, 25.0% of credit institutions were unprofitable.

Summary for 2019:

In 2019, the number of existing credit institutions (credit institutions entitled to perform bank transactions) decreased from 484 (as of 1 January 2019) to 442 (as of 1 January 2020).

The total banking industry assets in 2019 grew only 2.7% (1.2% growth in the 4th quarter of 2019), which was partly the result of foreign currency translation losses. Banks' assets increased 10.4% in 2018.

Over the 12 months of 2019, the growth rate of the loan portfolio of the banking industry was almost half the growth rate in 2018: 7.1% and 15.0%, respectively. The trend was positive for all types of loans. While the amount of corporate loans increased by 2.6% in 2019 (compared to a 12.4% increase in the same period of 2018), the amount of retail loans increased by 18.5%, which was slightly worse than the growth by 22.4% a year earlier. In the 4th quarter of 2019 the trend for loans was similar: loans to individuals increased by 3.2%, and loans to enterprises – by 1.1%.

The credit risk situation in the banking industry slightly worsened because of a number of large banks undergoing resolution. Overdue loans as of 1 January 2020 amounted to 6.2% (vs. 5.5% as of 1 January 2019 and 6.6% as of 1 October 2019). The amount of 'bad debt' of individuals decreased from 5.1% to 4.3% (4.7% at 1 October 2019), and that of businesses increased 1.4 p.p. to 7.1% (5.7% at the beginning of the year and 7.4% at 1 October 2019). The total amount of overdue loans (to individuals and businesses) increased by 20.1% in 2019 after the mere 3.0% growth in 2018.

Bank provisions in 2019 went down 1.6% (9.0% growth in 2018). Loan provisions in 2019 increased 5.2% versus the 1.5% growth a year earlier. The loan provisions to loan portfolio ratio decreased from 8.68% (as of 1 January 2019) to 8.53% (as of 1 January 2020).

From January to December 2019, investments in securities made by banks decreased by 8.3%, versus their 6.4% increase in the same period the previous year.

Legal entity funds, including budget funds attracted by banks, increased by 4.8% in 2019 (in September-December 2019 they decreased 2.9%). In the same period of 2018 this liabilities item saw an 18.0% raise. The budget funds over this period almost did not change (6.8% growth) versus the

57.9% increase a year earlier. Debts to the Bank of Russia decreased 6.0% versus the 29.3% growth in 2018.

During the period under review, retail deposits increased by 7.3%. Over the same period of the previous year, the amount of deposits increased by 9.5%. At the same time, market growth was 4.1% in the 4th quarter of 2019.

In 2019, the balance sheet profits of the banking industry exceeded RUB 2 tn and amounted to RUB 2,036.8 bn, which was 51.5% more than in the same period of the previous year – RUB 1,345 bn. A growth in profit in the 4th quarter of 2019 amounted to RUB 536 bn. Sixty-nine banks out of the 442 currently operating credit institutions (or 15.6% of their total amount) reported loss in 2019. As of 1 January 2019, 20.7% of credit institutions were unprofitable.

General assessment of issuing credit institution performance in the banking sector:

Sberbank confidently retains its positions as a leading credit institution of the Russian Federation.

As of 1 January 2020, Sberbank holds the following shares:

- **41.7%** in the capital of the banking industry⁷ (+0.2 pp versus 1 January 2019);
- **30.5%** in assets of the banking industry (+0.1 pp);
- **41.0%** in the retail lending market (-0.4 pp);
- **31.4%** in the corporate lending market (-1.3 pp);
- **43.8%** in deposits by individuals (-1.3 pp);
- **22.0%** in deposits by businesses (including individual entrepreneurs) (-1.1 pp).

4.7. Analysis of factors and conditions affecting the performance of the issuing credit institution

Factors and conditions affecting the performance of the issuing credit institution and having made their impact on the change in the amount of profit (loss) of the issuing credit institution from its primary activities:

Remaining geopolitical tensions. The crisis in relations between the largest developed countries, primarily the USA and the EU, on the one hand, and Russia, on the other, continues and is accompanied by imposing economic sanctions on the largest Russian companies and banks. This limits the opportunities of Russian banks to find financing abroad, especially amid weak growth on domestic markets.

Stronger state influence in the economy and the banking system. As the economic crisis in Russia continues, the government becomes an important provider of resources to support both banks and the entire economy with various capitalization tools. Moreover, the state is starting to be a significant participant of banking activities through the Foundation of consolidation in the banking sector and Agency for Housing Mortgage Lending.

Retaining low GDP growth rates. The economy grows at a slower pace, which leads to lower demand for investments and loans by businesses. Personal income growth is also declining, which negatively affects the dynamics of consumer demand and attracting funds of individuals.

Continued policy aimed at liquidating the banks with low stability levels. Since the 2nd half of 2013, the Bank of Russia has pursued a policy of revoking licenses of banks that have lower stability levels and those breaching banking laws. The number of liquidated banks in 2018 was 58 but they were for the most part small credit institutions. Moreover, a number of largest private banks undergo resolution through the Foundation of consolidation in the banking sector. Against the background of economic stagnation and unstable currency market, this may lead to growing problems in many banks and redistribution of the bank market.

Forecast on the duration of factors and conditions

⁷ – as of 1 September 2019

Given the current global and domestic trends, the factors will remain in place at least in the medium term, while the high uncertainty of their changes complicates longer-term forecasting.

Measures being or planned to be taken by the issuing credit institution to take advantage of the factors and conditions:

A balanced policy of asset and liability management pursued by Sberbank ensures a relatively flexible approach to the interest rate policy when interest margins are decreasing and volatility in the financial markets is growing.

Methods being or planned to be applied by the issuing credit institution to reduce the negative effect the factors and conditions have on its performance:

In order to reduce a negative effect of lowering interest margin, Sberbank follows a balanced interest rate policy to manage interest rates for raising and placing the resources. Marketing campaigns are carried out and the sales function is upgraded to get more assets generating the highest income.

Sberbank's access to various sources of financing both nationally and partially internationally helps to offset the negative impact of slow growth in traditional sources of deposits.

Material events or factors that may have the most negative impact on the future opportunities of the issuing credit institution to obtain the same or better results as compared to the results obtained in the last reporting period and the likelihood of such events (factors):

The increased geopolitical tensions related to the events in Ukraine, economic sanctions imposed on major Russian companies and banks, and the economic downturn may have an additional negative impact on the macroeconomic situation in the Russian Federation and its banking sector. The other markets where Sberbank is present, such as CIS states (Belarus, Kazakhstan), and in Central and Eastern Europe, are projected to provide moderate growth in the banking markets.

As for the main market of Sberbank - the Russian Federation - margin decrease will be accompanied by a significant reduction of asset growth rates, which will result in competition sharpening and increased effect on current indicators of the bank system related to troubled assets accumulated previously.

Moreover, stagnation in economy and high inflation expectations in short- and medium-term may affect solvency of leading Russian companies. Decline in economic activity may result in ***higher unemployment, decreased income of employed individuals and reduction in consumption and savings***. Amid the ***de facto inability to access the global financial markets***, the capabilities of the state, Russian companies and banks to raise additional financial resources from the external markets will be limited, which imposes an additional burden on the Bank of Russia to refinance the banking sector.

Amid low predictability of future trends in main factors affecting the banking industry, Sberbank strengthened control over its risks, started to apply more conservative approaches to risk assessment and increased provisions for possible losses accordingly to the current risk level.

Material events or factors that may improve the performance results of the issuing credit institution, their probability, and duration:

Improving the legal framework, system and tools for refinancing of banks, as well as ***legislation and institutions, which help form the long-term base for commercial banks***, will have a positive effect on developing the Bank's resource base, create new opportunities for growing the loan portfolio volume, thus reducing risk levels and subsequently having a positive effect on the Bank's financial results.

Development of international operations and further expansion in international banking service markets help to increase loyalty of foreign customers, boost the development of services for corporate clients and create new sources of net profile for the Bank.

Strengthening the position in the investment banking market. The expansion of the product line of investment bank products through integration with Sberbank CIB should result in a synergistic growth of the customer base and dynamics of the Bank's income.

4.8. Competitors of the issuing credit institution

The main existing and potential competitors of the issuing credit institution in its principal activities, including foreign competitors:

Currently, the main competitors of Sberbank in various segments of the Russian financial market are the largest state-owned and private banks and their banking groups — that is, the banks in the Top 10 major banking markets (corporate lending and retail deposits).

The list of competitiveness factors of the issuing credit institution describing the degree of their impact on the competitiveness of the products (work and services) provided:

In the recent years, Sberbank has done much to finalize the formation of major groups of its competitive advantages, namely:

- *Solid customer base.* Sberbank successfully services customers in all segments (ranging from retail clients and individual entrepreneurs to large holding and multinational companies) throughout the country.
- *Large scale of operations.* Sberbank has undisputed advantages both in terms of business scale (the amount of transactions, access to resources, international ranking) and in terms of size and quality of its material infrastructure (for example, it has a unique distribution network for individual and corporate clients comprising branches, ATMs, payment terminals and digital service channels).
- *Wide range of financial products and services.* Given the availability of the full range of operations in the products of the Groups for all types of customers in all countries where Sberbank is present, it can provide a comprehensive service to every customer, both in Russia and abroad. The Bank has also a unique ability to service both individual and corporate customers.
- *Industrial Technology.* Over the past 5 years, Sberbank succeeded in creating a solid foundation for further innovative development, as it built an industrial risk management system, consolidated the operating function and substantially streamlined IT processes and systems.
- *Powerful brand.* The competitive advantage of Sberbank is based on trust by all its customers that is supported by its high-quality services and positive customer experience. Over the past 5 years, the brand of Sberbank, along with our traditional attributes of reliability and stability, is increasingly associated with high technology and innovations as it is becoming a symbol of success for the Bank.
- *International presence.* In the recent years, Sberbank has significantly expanded its international presence and become a truly international group. Our presence in 18 countries enables us to replicate the best technologies and practices within the Group, diversify risks, strengthen the brand in international markets and develop an international team of employees.
- *Team and management techniques.* Over the past 5 years, the team of the Group has been substantially renewed. It strengthened its skills and acquired unique experience of large-scale transformation. Sberbank has also devoted considerable attention to the development and large-scale replication of modern management techniques, such as building the HR function, implementing the tools of the Sberbank Production System, and improving the efficiency of current activities management.

In developing the new strategy, we have paid considerable attention to analyzing competitiveness drivers and emerging new drivers for competitive dynamics, such as new market players, including non-banking institutions, technology development, etc.

Given the changing competitive landscape of the financial market, Sberbank plans to actively build new drivers for its competitiveness that will ensure its successful development in line with the objectives of the new Strategy.

Based on the large customer base, we will build a comprehensive information system on customers and their behavior, the so-called ***Big Data system***. This will enable the Bank to better understand its customers and, accordingly, to serve them better.

We will build ***a fully seamless and high-quality interaction between the customers and the Bank*** through any channel. Regardless of the channel used by the customer, they must be able to use

any of them to obtain the same information and the bulk of the products and services. The interaction with the customer will be multi-channel, and we will continue to develop the remote and digital channels.

Around the needs of our customers, the Bank will actively build *ecosystems*, where the customers will be provided with comprehensive support in solving both their financial and non-financial issues that will create added value for them.

With more detailed cost planning and control and across-the-board optimization, the Bank plans to become one of the banking sector leaders in *cost-effectiveness*.

A more detailed analysis of approaches to gaining a competitive edge for Sberbank in the midterm is given in the Sberbank Development Strategy published at the Bank's website.

V. Detailed information on the members of the management bodies of the issuing credit institution and bodies for supervision of the financial and business activities of the issuing credit institution, and brief information on employees (workers) of the issuing credit institution

5.1. Information on the structure and terms of reference of the management bodies of the issuing credit institution

Description of the structure and terms of reference of the management bodies of the issuing credit institution in accordance with the charter of the issuing credit institution:

1. General Meeting of Shareholders

Terms of Reference

The General Meeting of Shareholders is the supreme management body of Sberbank of Russia. The terms of reference of the General Meeting of Shareholders cover the following issues:

1) Making amendments to the Bank's Charter or giving approval to the new version of the Charter

2) Restructuring the Bank

3) Liquidating the Bank, appointing a liquidation committee, and approving intermediary and final liquidation balance sheets

4) Electing the Bank's Supervisory Board members and terminating the powers of such members early

5) Determining the number, nominal value, type of and rights vested in authorized shares

6) Increasing the authorized capital by raising the nominal value of shares

7) Increasing the authorized capital by offering additional shares through private placement

8) Increasing the authorized capital by a public offering of additional shares if the number of shares in the additional public offering exceeds 25 percent of ordinary shares previously issued by the Bank

9) Increasing the authorized capital by a public offering of additional shares if the number of shares in the additional public offering is equal to or below 25 percent of ordinary shares previously issued by the Bank, and the Bank's Supervisory Board has failed to reach unanimity on this matter

10) Making a private offering of bonds convertible into ordinary shares and other issue-grade securities convertible into ordinary shares

11) Making a public offering of bonds convertible into ordinary shares and other issue-grade securities convertible into ordinary shares exceeding 25 percent of ordinary shares previously issued by the Bank

12) Reducing the Bank's authorized capital by lowering the nominal value of shares or through the Bank's acquiring a part of shares to diminish their number of shares or by redeeming the shares acquired or repurchased by the Bank

13) Appointing an auditing organization of the Bank

14) Paying out (declaring) dividends based on the performance of the first quarter, six months, and nine months of the reporting year

15) Approving annual reports and distributing profit (including the payment (declaration) of dividends other than the profit distributed as dividends for the first quarter, six months, and nine months of the reporting year) and losses of the Bank for the reporting year

16) Establishing the procedure for the General Meeting of Shareholders

17) Splitting and consolidating shares, and offering issue-grade securities by conversion

18) Adopting resolutions on consent to effect non-arm's length transactions or on their subsequent approval where required by the federal law

19) Adopting resolutions on consent to effect non-arm's length transactions or on their subsequent approval where required by the federal law

20) Adopting resolutions to become members of associations and other alliances of commercial entities

21) Approving the Bank's internal documents: Regulations on the General Meeting of Shareholders; Regulations on the Supervisory Board of the Bank; Regulations on the Executive Board, Regulations on Remuneration and Compensation Payable to the Members of the Supervisory Board of the Bank

22) Adopting resolutions on submitting an application for delisting the Bank's shares and (or) the Bank's issue-grade securities convertible into its shares

23) Resolving other matters stipulated by federal law and this Charter

The matters in the competence of the General Meeting of Shareholders may not be passed for resolution to the Bank's executive bodies, except as otherwise provided by federal law.

The issues falling under the terms of reference of the General Meeting of Shareholders may not be passed for resolution to the Bank's Supervisory Board, except to the extent as required by federal law.

2. The Bank's Supervisory Board.

Terms of Reference

The Bank's Supervisory Board performs overall management of the Bank's activities, other than resolving issues falling within the terms of reference of the General Meeting of Shareholders under the Charter.

The terms of reference of the Bank's Supervisory Board cover the following issues:

The terms of reference of the Supervisory Board include the following issues:

1) determining priority areas for activities of the Bank and approving the Development Strategy of the Bank;

2) convening the annual and extraordinary General Meetings of Shareholders, save where the right to convene and hold the General Meeting of Shareholders is given to bodies and persons in accordance with federal law;

3) approving the agenda of the General Meeting of Shareholders;

4) determining the date of drawing up the list of persons entitled to attend the General Meeting of Shareholders and other issues referred to the terms of reference of the Bank's Supervisory Board in accordance with federal law and associated with the preparation for and holding of the General Meeting of Shareholders;

5) approving annual accounting (financial) statements of the Bank;

6) increasing the Bank's authorized capital by issuing additional shares at the expense of the Bank's property within the number of declared shares established by the Charter

7) increasing the Bank's registered share capital by a public offering of additional shares within the number of declared shares if the number of additionally offered shares is equal to or below 25 percent of ordinary shares previously issued by the Bank;

8) issuing additional shares into which the preferred shares of a certain type previously issued by the Bank and convertible into ordinary shares or preferred shares of other types are converted, unless such offering is required by an increase in the Bank's authorized capital;

9) placing bonds and other issue-grade securities in instances envisaged under federal law, except for shares;

10) making a public offering of bonds convertible into ordinary shares and other issue-grade securities convertible into ordinary shares are equal to or below 25 percent of ordinary shares previously issued by the Bank;

11) acquiring shares, bonds, and other securities issued by the Bank where required by the federal law;

12) electing the Bank's CEO, Chairman of the Executive Board and terminating their powers early;

13) setting up the Bank's Executive Board, electing the Executive Board members, appointing the Deputy Chairmen of the Executive Board, including vice deputies, from among the candidates proposed by the CEO and Chairman of the Executive Board, and early terminating the powers of such officers;

14) making recommendations for the amount of the dividend on shares and for the record date when persons entitled to dividends are to be determined;

15) approving the Bank's internal documents, including the Regulations on the Internal Controls System, the Regulations on the Internal Audit Office, the Regulations on the Corporate Secretary, the Corporate Governance Code, the Code of Conduct, the Regulations on Dividend Policy, the Regulations on the Reserve Fund, Funds for Payment of Dividends and Retained Earnings, and other internal documents of the Bank subject to approval by the Supervisory Board pursuant to the applicable legislation, the Bank's Charter, or the Regulations on the Supervisory Board of the Bank;

16) opening and closing branches and representative offices of the Bank;

- 17) adopting resolutions on consent to effect non-arm's length transactions or on their subsequent approval where required by federal law;
- 18) adopting resolutions on consent to effect non-arm's length transactions or on their subsequent approval where required by federal law;
- 19) setting out the procedure for transactions with related parties;
- 20) approving the Bank's registrar and the terms of the registrar's engagement and adopting resolution on termination of the engagement;
- 21) adopting resolutions on the responsibilities assigned to the members of the Supervisory Board, establishing committees of the Supervisory Board for specific matters of the Bank's activities; approving regulations on the committees of the Supervisory Board; appointing the heads and members of the committees and suspending their authority, hearing reports from the Chairmen of the committees of the Supervisory Board on the activities of their committees; assessing their own work and presenting work results to the General Meeting of Shareholders
- 22) appointing and dismissing the Head of the Bank's Internal Audit Service; approving the Annual Work Plan of the Bank's Internal Audit Service; reviewing reports provided by the Internal Audit Service on the execution of the Work Plan and on the Bank inspection findings; evaluating, based on reports provided by the Internal Audit Service, the compliance by the Bank's executive bodies with strategies and procedures approved by the Bank's Supervisory Board;
- 23) approving the Bank's risk and capital management strategy, including the terms of ensuring the capital adequacy and liquidity to cover risks both for the Bank as a whole and for separate lines of its business, approving the procedure for managing the most significant risks, and monitoring the implementation of this procedure;
- 24) approving the procedure for applying banking risk management methods and quantitative risk assessment models;
- 25) approving the procedure for preventing conflicts of interest, the Financial Stability Recovery Plan in case of substantial deterioration of the Bank's financial standing, a plan of action intended to ensure continuous activities and/or recovery of the Bank's activities in case of abnormal or emergency situations;
- 26) periodic hearing of reports submitted by the CEO, Chairman of the Executive Board of the Bank, on the Bank's activity. The procedure for submitting reports by the CEO, Chairman of the Executive Board, on the Bank's activities is determined by the Supervisory Board;
- 27) approving the terms and conditions of agreements signed by the Bank and CEO, Chairman of the Executive Board, the members of the Bank's Executive Board, including determining amounts of their remuneration and compensation, and approval of the Bank's HR Policy and the Bank's Labor Remuneration Policy;
- 28) appointing and dismissing the Bank's corporate secretary and monitoring of the Bank's corporate governance practice;
- 29) determining the amount of payment for the auditor services;
- 30) filing an application for the listing of the Bank's shares and/or issue grade securities of the Bank that are convertible into the Bank's shares;
- 31) other matters stipulated under the federal law of the Russian Federation and the Charter.

3. Collective Executive Body – the Executive Board of the Bank.

Terms of Reference

The terms of reference of the Bank's Executive Board include issues of management of the Bank's daily activities, save for the matters falling within the terms of reference of the General Meeting of Shareholders and the Supervisory Board of the Bank.

Pursuant to its responsibilities, the Executive Board of the Bank:

- 1) discusses in advance the issues to be considered by the General Meeting of Shareholders and the Supervisory Board of the Bank, including annual reports and annual-accounting (financial) statements of the Bank; prepares relevant draft resolutions thereupon; and ensures implementation of resolutions passed by the General Meeting of Shareholders and the Supervisory Board of the Bank;
- 2) reviews and approves reports submitted by the heads of business units in the Bank's Central Head Office and heads of regional banks, branches and representative offices of the Bank on their activities for relevant periods and work in specific areas of banking activities;
- 3) determines the risk management policy of the Bank, ensures the conditions for its effective implementation, organizes the risk management process in the Bank;

4) ensures technological development of the Bank, organizes implementation of the most advanced banking technologies into the practices of the bank's units, ensures implementation of projects on complex banking works automation, comprehensive automation of banking work, and creation of a modern banking infrastructure, organizes creation of efficient information exchange and communication systems;

5) ensures development of the Bank's branch network and the Bank's network of separate business units, their technological improvement and enhancement of the quality of the services they provide;

6) adopts resolutions on the participation and termination of participation, including the change of the participatory interest of the Bank in other entities, except for entities the participation and termination of participation in which is referred to the competence of other management bodies of the Bank by federal law or the present Charter;

7) implements the strategy and policy of the Bank concerning the organization and implementation of the internal control, considers the state of accounting and reporting, materials and results of periodic assessment of performance of the Bank's internal control, organizes the creation of the control system for eliminating identified violations and drawbacks of the internal control and mitigation measures, hears reports of heads of branches and other separate business units of the Bank on the results of the audits and inspections of their activities, and adopts resolutions on these matters;

HERMAN GREF, CEO, Chairman of the Executive Board, Sberbank of Russia (see the information above)

5.3. Information on the amount of remuneration or compensation of expenses for each management body of the issuing credit institution

Supervisory Board

Payment of remuneration to members of the Supervisory Board of the Bank and compensation of expenses connected with their participation in work of the Supervisory Board shall be made according to the procedure established by the Bank's internal document — that is, Regulation on Remuneration and Compensation to the Members of the Supervisory Board (hereinafter, the Regulation) approved by Annual General Meeting of Shareholders of Sberbank on 29 May 2015 (Minutes No. 28, dated 3 June 2015), taking into account the changes approved by Annual General Meeting of Shareholders of Sberbank on 27 May 2016 (Minutes No. 29, dated 1 June 2016).

Remuneration consists of a basic part, which is paid to a member of the Supervisory Board provided that he or she participated in no less than a half of the Supervisory Board meetings held in the billing period, and additional remuneration for work in the Committees, for chairing the Committees and performance of duties of the senior independent director, and for chairing the Supervisory Board:

Type of remuneration	Size of remuneration
Basic remuneration	RUB 5.9 m
Additional remuneration for the performance of duties of a member of any of the Committees of the Supervisory Board	+20% of the basic remuneration
Additional remuneration for the performance of duties of the Chairman of any of the Committees of the Supervisory Board and the Senior Independent Director	+30% of the basic remuneration

Additional remuneration for the performance of duties of Chairman of the Supervisory Board	+50% of the basic remuneration
--	--------------------------------

"In calculating the remuneration of a member of the Supervisory Board for the current Payment Period, the amounts of the base and additional remuneration established at the time of his or her election to the Supervisory Board shall apply."

The total amount of remuneration paid to the members of the Supervisory Board **for 12M2019** of their participation in this Bank management body was RUB63.1 m, including:

- RUB 47.2 m as the base remuneration;
- RUB 3.5 m for performing the duties of the Committee chairpersons of the Supervisory Board and the Senior Independent Director (RUB 1,770 thousand to each chairperson);
- RUB 12.4 m for performing the duties of Committee members.

Information on the remuneration specified for members of the Supervisory Board who gave their written consent to receive remuneration.

Also, the Regulation provides the possibility of compensation to members of the Supervisory Board of target expenses related to the performance of their duties as Board members. In the 12 months of 2019, one member of the Supervisory Board received compensation for special expenses related to the performance of that member's functions in the amount of RUB6.4 thousand.

The Executive Board

Sberbank's Policy for the remuneration of Executive Board members provides for the dependence of remuneration on the results of the bank's performance and each Board member's personal contribution to the achievement of such a result through the use of tools for regular performance evaluations through a system of balanced performance indicators. The wage structure includes fixed and variable components. The variable remuneration is directly linked to key performance indicators and fulfillment of a number of key efficiency indicators, including individual and team, financial and non-financial indicators. The basic elements of the variable component of remuneration are quarterly bonuses and remuneration depending on performance results for the year.

In 2015, the Bank also adopted a long-term incentive program for key executive staff, which was based on the value of Bank shares and which provided for cash payments. The program was created on the basis of the risk-oriented remuneration concept, and it fully meets the requirements of the Bank of Russia for remuneration payment systems in Russian credit institutions. The program is based on the following parameters:

- 40% of the variable part of the annual remuneration is deferred and will be paid in the future in three annual payments;
- payments to the program participants depend of the positive results of the bank's activities. Long-term remuneration may be corrected (up to complete cancellation) taking into consideration the responsibility of the employee, the participant of the long-term remuneration program in adopting the solutions that led to the risk realization.

In the 12 months of 2019, RUB6,320.7 m was paid to the Executive Board members of the Bank as remuneration, including:

- fixed remuneration (official salary, paid leave, payment of average earnings during business trips) to the amount of RUB1,394.3 m;
- variable remuneration (quarter bonuses, remuneration for the annual work results, other one-time compensations) to the amount of RUB4,913.4 m;
- RUB13.0 m paid for performing the functions of Supervisory Board members.

Obligations on repayment of long-term remuneration based on shares amounted to RUB 3.8 billion as of 31 December 2019.

Long-term equity-based compensation is paid in cash and subject to revaluation at each reporting date based on the forward price of the Bank's ordinary shares. The respective liabilities shall be included in other financial liabilities in the consolidated statement of financial position before payment is made.

The development of principles and criteria for determining the amount of remuneration to be paid to the CEO, Chairman of the Executive Board and to the members of the Executive Board of the Bank falls within the terms of reference of the Human Resources and Remuneration Committee of the

Supervisory Board. Remuneration and compensation are paid under contracts entered into with the CEO, Chairman of the Executive Board and members of the Executive Board.

5.4. Information on the structure and terms of reference of bodies of control over financial and business activities of the issuing credit institution, and the organization of the risk management and internal control system

Description of the structure of bodies for supervision of the financial and business activities of the issuing credit institution and their terms of reference in accordance with the charter (constituent documents) and internal documents of the issuing credit institution:

Monitoring of the Financial and Economic Activities of the Bank is carried out by: an external auditor; management bodies of the Bank (the General Meeting of Shareholders, the Supervisory Board of the Bank, the Executive Board, the President, the Chairman of the Executive Board), as well as structural units and authorized officials of the Bank. Powers of internal control bodies, the procedure for their establishment and functioning are determined by the Russian law, Charter of the Bank, and the Bank's internal documents approved in the manner established by the Bank.

In order to check and verify reliability of accounting (financial) statements, compiled in accordance with the legislation of the Russian Federation, and financial statements drawn up in accordance with the International Financial Reporting Standards (IFRS), the Bank commissions audit organizations performing audit activities pursuant to Russian law and subject to the International Auditing Standards.

The competence of the General Meeting of Shareholders in terms of the internal controls over the activities of the Bank includes the following issues: electing the members of the Supervisory Board of the Bank; appointing the auditing organization of the Bank; approving the annual report of the Bank; adopting resolutions on approval of major transactions and interested party transactions in cases provided by federal law.

In terms of the internal controls over the activities of the Bank, the Supervisory Board has the following authority: approves annual accounting (financial reporting of the Bank: electing CEO and Chairman of the Executive Board of the Bank, adopts the internal regulatory documents of the Bank, including the regulation on the internal control system, the regulation on the Internal Controls Office; appointing the Head of the Bank's Internal Audit Office; approving the Annual Activity Plan of the Bank's Internal Audit Office; reviewing reports provided by the Internal Audit Office on implementation of the Activity Plan and Bank inspection findings; evaluating, based on reports provided by the Internal Audit Office, compliance by the Bank's executive bodies with strategies and procedures approved by the Bank's Supervisory Board; approving the risk management and equity management procedure, as well as the procedure for managing the most significant risks and exercises control over the implementation of this procedure; approves the application of banking risk management techniques and models for quantitative risk assessment; approves the procedure for the prevention of conflicts of interest, Financial Stability Recovery Plan in the event of a considerable deterioration in the financial condition of the Bank, an action plan intended to ensure continuous activity and/or recovery of the Bank's activities in case of abnormal or emergency situations.

The Executive Board of the Bank in terms of internal control over the organization of the Bank's activities: organizing the implementation of the decisions of the General Meeting of Shareholders and the Supervisory Board of the Bank, implementing the strategy of and policy of the Bank regarding the organization and implementation of internal control in the Bank; considering and approving reports of heads of units in head office and heads of regional banks on the results of activities in the corresponding periods and on the results of activities in specific areas; defining the policy of the Bank in the field of risk management, ensuring conditions for its effective implementation, organizing the risk management process in the Bank; reviewing the state of accounting, reporting, materials and the results of periodic evaluations of the effectiveness of internal control in the Bank, organizing the control system for eliminating identified violations and deficiencies in internal control and measures taken to eliminate them, reviewing the reports of the heads of branches and other separate units of the Bank on the results of audits and inspections of their activities, adopting resolutions on these issues.

CEO, Chairman of the Executive Board heads the Bank's Executive Board and organizes its work, in particular, with regard to organizing the Bank's internal controls; distributes the responsibilities among Deputy Chairmen of the Bank's Executive Board and members of the Bank's Executive Board; approves the Bank's organizational structure and regulations on the structural units of the Bank's headquarters and other issues within its terms of reference.

In addition, the internal control in the Bank in accordance with the powers established in the Charter and internal regulatory documents of the Bank is carried out by:

The Internal Controls Office is the aggregate of structural units and employees of the Bank that exercise the functions of the Internal Control Office in accordance with the requirements of laws and internal documents of the Bank.

The Internal Audit Office is the totality of the Bank's structural business units (Internal Audit Administration of the Bank's head office and relevant business units of the Internal Audit Office in the branches) that carry out their activities in accordance with the requirements of the legislation and the Regulations on the Bank's Internal Audit Office.

Information on the organization of the system of risk management and internal controls over the financial and business activities of the issuing credit institution:

The risk management system used by the Bank is based on the standards and tools recommended by the Basel Committee on Banking Supervision, meets the requirements of Bank of Russia, and takes into account the world's best practices. Primary objectives of organization of the risk management system as an integral part of the management process of the Bank are as follows:

- ensuring sustainable development of the Bank and its subsidiaries in the course of implementation of the development strategy approved by the Supervisory Board of the Bank;
- ensuring and protecting the interests of shareholders, creditors, and others, given that these persons are interested in the continuation of sustainable activities of the Bank, to prevent the risks accepted by the Bank and its subsidiaries from posing a threat to the existence of the Bank;
- strengthening the competitive advantages of the Bank

To ensure the effective planning and control of accepted risks, the risk management functions are distributed among the Supervisory Board of the Bank, the Chairman of the Executive Board, CEO, Chairman of the Executive Board, the supervisor of the Risks Block (Head of the Risk Management Office of the Bank), specialized committees of the Executive Board, Risks Block, and other business units of the Bank and members of the Group. The distribution of authority in the risk management system meets the requirements and recommendations of the Bank of Russia and the practice of international financial institutions.

The Bank provides internal controls in accordance with the laws of the Russian Federation, regulations of Bank of Russia, and rules and procedures established by the Bank to ensure:

- Effective and efficient financial and business activities when performing banking operations and other transactions, efficient management of both assets and liabilities, including asset integrity and bank risk management;
- The accuracy, completeness, objectivity, and timeliness in preparing and submitting the financial, accounting, statistical, and other reports (for internal and external users) as well as the information security (protection of the interests (goals) of the Bank in the information area, which is an aggregate of information, information infrastructure, entities that collect, prepare, distribute, and use information, and the systems for regulating the relations arising in this process);
- Compliance with regulatory legal acts, standards of self-regulating organizations, the Charter, and internal documents of the Bank
- Prevention of involvement of the Bank or its employees in unlawful activities, including legitimization (laundering) of proceeds from criminal activities and financing of terrorism, and timely submission of appropriate details to governmental bodies and the Bank of Russia in accordance with Russian law

In accordance with the powers defined by the Charter and internal documents of the Bank, the internal controls are ensured at the Bank by the following:

- 1) Management bodies of the Bank as provided by the Charter;
- 2) Chief Accountant of the Bank (and their deputies);
- 3) Heads (and their deputies) and Chief Accountants (and their deputies) of the Bank's branches
- 4) Internal Audit Department of the Bank
- 5) Internal Controls Office of the Bank
- 6) Structural unit (responsible employee) for counteraction of legitimization (laundering) of proceeds from criminal activities and financing of terrorism;
- 7) Inspector of the professional participant of the securities market;
- 8) Other business units and employees of the Bank exercising internal controls within the scope of their powers as defined by the Bank's internal documents

The internal control and risk management systems of the Bank are built by using Three Lines of Defense, a model where:

First Line is the business units responsible for the daily effective implementation of internal controls and taking ongoing measures to manage risks associated with their activities. These measures are part of the everyday activities of the business units, therefore, they ensure the continuous process of identifying, assessing, and monitoring the risks.

Second Line is the responsible business units of the Bank that are in charge of elaborating and implementing the rules and procedures of internal controls, determine the risk management standards, guidelines, limits and restrictions, monitor the risk levels, prepare reports, verify the compliance of risk level with risk appetite, advise, simulate, and aggregate the total risk profile.

Third Line is the internal audit that is tasked with an independent evaluation of the effectiveness of internal control and risk management systems.

Information on the availability of the Audit Committee of the Board of Directors (Supervisory Board) of the issuer, its functions, personal composition, and number of members:

The Supervisory Board has established an Audit Committee consisting of 5 members.

Members of the Audit Committee:

Chairman of the Committee: N. Wells

Members of the Committee: V. Goreglyad, N. Ivanova, A. Kuleshov, N. Kudryavtsev

The competence of the Audit Committee includes the following issues:

In the area of accounting (financial) and consolidated financial statements:

- to ensure that the Bank's accounting (financial) statements and consolidated financial statements are complete, accurate and reliable, including preliminary review of the Bank's statements submitted for approval to the Bank's Supervisory Board;
- Analysis of substantive issues of the accounting policy used by the Bank for preparation of accounting (financial) statements;
- to participate in consideration of material matters and judgments regarding accounting (financial) statements and consolidated financial statements.

In the area of risk management, internal controls, and corporate governance:

- to monitor the reliability and efficiency of the risk management and internal control systems, in particular:
 - to assess the adequacy of control over preparation and submission of accounting (financial) statements, over compliance with the requirements of the laws of the Russian Federation, regulatory documents of the Bank of Russia, and the Bank's internal documents, over effectiveness of transactions conducted and other transactions, and over the safety of assets;
 - to assess the effectiveness of the Bank's risk management and internal control procedures and their fitness for the nature and scope of transactions and the level and combination of assumed risks, and to prepare proposals for their improvement
- Control over reliability and effectiveness of the corporate management system, including evaluation of the corporate management practices, and preparation of proposals related to their improvement;
- to analyze and assess the execution of the Bank's risk management and internal control policy;
- to monitor procedures ensuring the Bank's compliance with the requirements of the laws of the Russian Federation, the Bank's internal documents, and requirements of stock exchanges;
- to analyze and assess the execution by the Bank of the Conflict of Interest Management Policy.

In the area of internal and external audit:

- to ensure independence and objectivity of external and internal audit;
- to conduct preliminary review and approval of changes in the Regulation on the Internal Control System, Regulation on the Internal Audit Service, to review annual work plans and budget of the Internal Audit Service, and to analyze the results of inspections carried out by the Internal Audit Service;
- to conduct preliminary review of matters regarding appointment (relieving of duties) of the head of the Internal Audit Service and the amount of his/her remuneration, to assess the efficiency of the head of the Internal Audit Service in performing his/her functions;

- Review of existing limitations of authorities or budget for implementation of the internal audit function that could have a negative impact on effective exercise of the internal audit function;
- to monitor and analyze the efficiency of the Internal Audit Service;
- to assess independence and objectivity of the Bank's auditing organization, including assessment of candidates for external auditors, preparation of recommendations for the Supervisory Board about selection of the auditing organization to be appointed by the Bank's General Meeting of Shareholders based on the terms of the agreement concluded with the auditing organization and its reappointment;
- to monitor external auditing, assess the quality of audit and auditor's opinions, including preliminary review of auditor's opinions and provision of results of their review (assessment) as information (materials) provided for review to the persons entitled to participate in the Bank's Annual General Meeting of Shareholders;
- to ensure effective interaction between the Internal Audit Service and the Bank's auditing organization;
- to prepare recommendations for prompt elimination of deficiencies in the internal control system, violations of the Russian laws and the Bank's internal documents, and other deficiencies identified by regulatory bodies, the auditing organization, and the Internal Audit Service;
- to assess compliance of the Bank's executive bodies with the Bank's internal documents approved by the Supervisory Board based on reports of the Internal Audit Service;
- to develop principles of providing and combining audit and non-audit services by the auditing organization and monitor compliance with them.

In the area of combating unscrupulous practices on the part of the Bank's employees and third parties:

- to assess and monitor the efficiency of the system signaling potential unscrupulous actions of the Bank's employees (including improper use of insider or confidential information) and third parties and other violations at the Bank;
- Control over implementation of measures taken by the Bank's executive bodies in response to notification about potential cases of unscrupulous actions of employees and other violations;
- Control over carrying out special investigations of potential cases of fraud, improper use of insider or confidential information.

The functions of the Audit Committee also include:

- interaction with organizations that provide auditing services to the Bank, the Bank's Internal Audit Service to produce joint recommendations regarding financial and economic activities of the Bank
- reviewing information about any cases where heads of the Bank's units or executive bodies assume risks that are unacceptable for the Bank, and
- monitoring compliance with the Bank's Information Policy.

Information on the availability of a separate structural business unit(s) of the issuing credit institution for risk management and internal controls (other than the Internal Audit Committee (internal auditor), body (structural business unit) exercising the internal controls over financial and business activities of the issuer), its tasks, and functions:

To manage risks, the Bank established the Risk Management Office, which is a combination of structural business units and committees of the Bank, whose main function is to manage risks.

The risk management process includes five main stages:

- Identification of risks and assessment of their significance: the goal of this stage is to identify all significant risks affecting the activities of the Bank/Group.
- Building the systems for managing significant risks: the goal of this stage is to distribute the risk management functions among officials, units, and collective bodies of the Bank, or to update such distribution, and build (or update) the methodological framework to regulate the risk management.
- Planning risk exposure level: the goal of this stage is to define the target level of risk for the Bank/Group by taking into account the risk metrics in the business plans.

- Establishing risk appetite: the goal of this stage is to approve the maximum level of risk that the Bank/Group may accept and to build a system of limits and restrictions that allow compliance with the risk appetite.
- Managing the aggregate level of risk: the goal of this stage is to ensure that the risks of the Bank/Group correspond to target values.

Risk Management Office of the Bank is authorized to organize, implement and maintain the risk management system in the Bank, including:

- to take measures aimed at preventing and/or mitigating the impact of risks on the Bank's financial standing, competitiveness and reputation;
- to establish and continuously monitor the limits restricting the impact of risks on the Bank's financial results;
- to forecast the Bank's exposure to various types of risks in the future based on different scenarios;
- to consolidate information on risks for disclosure purposes;
- to exercise other powers in accordance with the legislation of the Russian Federation, regulations of the Bank of Russia, and the Bank's internal documents.

To avoid any conflict of interest, the Bank ensured the independence of business units responsible for risk management from business units engaged in operations/transactions exposed to risks.

To implement internal controls, assist the management bodies of the Bank in ensuring the compliance of the Bank's activities to the laws, regulation, and best practices, as well as to create and apply effective methods and mechanisms for managing the risk of losses incurred by the Bank as a result of noncompliance with Russian law, internal documents of the Bank, standards of self-regulatory organizations, and/or sanctions and/or other enforcement measures on the part of the supervisory authorities, the Bank established its Internal Controls Office that includes the aggregate of structural business units and employees of the Bank acting in accordance with Russian law, Bank's Charter and Regulations on the Internal Controls Office.

The Internal Control Office acts in accordance with the principles of independence, continuity, objectivity, impartiality, and professional competence.

In the course of exercising internal control and its functions the Internal Control interacts with all the units, collective and executive bodies of the Bank on any matters within its scope.

Information on the availability at the issuing credit institution of a separate structural business unit (office) of internal audit, its tasks, and functions:

The Internal Audit Office is the totality of the Bank's structural business units (Internal Audit Administration of the Bank's head office and relevant business units of the Internal Audit Office in the branches) that carry out their activities in accordance with the requirements of the legislation and the Regulations on the Bank's Internal Audit Office.

The Internal Audit Office is authorized to carry out inspections in all areas of the Bank's activities, including:

- assessment of the effectiveness of the system of internal control in general, including control of the use of automated information systems and internal control processes and procedures;
- audit of the effectiveness of the method for assessing bank risks and the procedures for management of bank risks established in the Bank;
- audit of the accuracy, completeness and timeliness of accounting and reporting;
- audit of ways (methods) for ensuring preservation of the Bank's property;
- evaluation of the economic feasibility and efficiency of transactions and other deals performed by the Bank;
- other powers according to the legislation, regulations of the Bank of Russia, and the Bank's internal documents.

The Internal Audit Office is independent in its activities from other divisions of the Bank.

The Supervisory Board appoints and dismisses the Head of Internal Audit Office of the Bank, approves the Regulations on Internal Audit Office, approves the annual activity plan of the Internal Audit Office, reviews the reports of the Internal Audit Office on the implementation of the activity plan and the results of the Bank's audits.

Information on the policy of the issuing credit institution in risk management and internal controls:

Basic principles of the Bank's risk management policy:

The risk-management process involves each employee of the Bank. Decisions on performing any transaction are made only after comprehensive analysis of risks arising in the course of such a transaction. The Bank has regulatory documents in place to govern the procedure of performing any and all transactions exposed to risks.

The Bank has no conflict of interests: at the organizational structure level, the units and employees entrusted with duties for performing transactions exposed to risks, accounting for such transactions, risk management and control are separated.

Management of the Bank and its collective bodies regularly receive information on the level of risks accepted by the Group and on violations of established risk management procedures, limits, and restrictions.

The internal control system of the Bank allows the effective monitoring of functioning of the risk management system.

A collective responsibility is established for the actions involving the acceptance of risks ("Three Lines of Defense").

The risk management process of the Bank is based on the use of modern information technology that allows identification, analysis, assessment, management, and control of risks.

The Bank assesses the adequacy of available capital (i.e., internal capital to cover the accepted and potential risks). Internal capital-adequacy assessment procedures also include capital planning procedures based on the established development strategy, business growth benchmarks, and results of comprehensive current assessment of the aforementioned risks, stress-testing of the Bank's and Group's stability to internal and external risk factors. The Bank highlights priority directions of capital development and distribution using the analysis of risk-adjusted efficiency indices for standalone business units and lines of business.

The Bank/Group has in place a multilevel system of limits and restrictions to ensure an acceptable level of risk.

The Group ensures unified approaches to identification, assessment, and management of risks.

The Bank is constantly upgrading all risk-management elements, including information systems, procedures and methods, with regard to strategic objectives, environment changes, and innovations in global risk-management practices.

The Bank's policy in the field of risk management and internal control is determined by the Bank's internal regulatory documents, including the Sberbank Group's Risk and Capital Management Strategy dated 16 April 2019 No. 3960-4.

Information on availability of the internal document of the issuing credit institution that establishes the rules for preventing the misuse of confidential and insider information:

Sberbank Policy on Countering Illegitimate Use of Insider Information and Market Manipulation No. 4757 dated 14/02/2018

5.5. Information on the Members of the Bodies for Supervision of the financial and business activities of the Issuing Credit Institution

Audit Commission

According to paragraph 1 of Article 85 of the Federal Law "On Joint-Stock Companies", an Audit Commission may not be established in a public company unless its existence is provided for in the charter of that public company.

The Annual General Meeting of Shareholders of Sberbank held on 24 May 2019 approved the new version of the Articles of Association, which does not provide for the establishment of an Audit Commission at the Bank. In this regard, the Audit Commission in Sberbank is not elected starting in 2019. Until 2019, the number of members of the Audit Commission was 7 (3 external representatives and 4 representatives of Sberbank).

The Internal Audit Service of the Bank shall:

6.4. Information on Restrictions on Participation in the Authorized Capital of the Issuing Credit Institution

In accordance with the charter of the issuing credit institution, a single shareholder may own: no restrictions.

In accordance with Federal Law No. 86-ФЗ (86-FZ), dated 10 July 2002, "On the Central Bank of the Russian Federation (the Bank of Russia)", at least 50% plus one voting share of Sberbank (controlling stake) is owned by the Bank of Russia.

The Bank of Russia's participatory interest in the authorized capital of Sberbank may be reduced or disposed of to less than 50 percent plus one voting share under the Federal Law.

Total nominal value of shares that may be held by one shareholder under the charter of the issuing credit institution: no restrictions.

Maximum number of votes provided to one shareholder under the charter of the issuing credit institution: no restrictions.

Restrictions on the participatory interest of foreign entities in the authorized capital of the issuing credit institution established by the laws of the Russian Federation and other regulatory legal acts of the Russian Federation: no restrictions.

Other restrictions related to the interest in the authorized capital of the issuing credit institution:

No raised funds, funds from federal budget, free cash, and other property items under the jurisdiction of federal government bodies may be used to form the authorized capital of the issuing credit institution, except in cases provided for by the laws of the Russian Federation; and the funds from

budgets of constituent entities of the Russian Federation, local budgets, free cash, and other property items under the jurisdiction of governmental bodies of constituent entities of the Russian Federation and local self-government authorities may be used to form the authorized capital of the issuing credit institution based on the legislative act of a constituent entity of the Russian Federation or the decision of a local self-government authority, respectively.

Additionally, the acquisition (except in case of acquiring shares when establishing a credit institution) and (or) receipt for trust management of more than 1 percent of shares of the issuing credit institution as a result of one or several transactions by a legal entity or individual requires notification of the Bank of Russia, and of more than 10 percent – preliminary approval of the Bank of Russia.

The requirements above also apply to acquisition of more than 1% of the shares of a credit institution, more than 10% of the shares (shares) of a credit institution by a group of persons.

Also, the preliminary approval of the Bank of Russia is required in the case of acquiring:

- 1) More than 10 percent of shares of the credit institution but not more than 25 percent of shares;
- 2) More than 25 percent of shares of the credit institution but not more than 50 percent of shares;
- 3) More than 50 percent of shares of the credit institution but not more than 75 percent of shares;
- 4) More than 75 percent of shares of the credit institution.

The preliminary approval of the Bank of Russia is also required when, as a result of one or several transactions, a legal entity or individual, directly or indirectly (through third parties), establishes control in respect of the shareholders (members) of the credit institution holding more than 10 percent of shares of the credit institution.

Unitary state enterprises are forbidden to act as founders (members) of credit institutions.

The Charter of the Bank does not provide for other restrictions on participation in the authorized capital of Sberbank.

6.5. Information on Changes in the Composition and Share of Interest of Shareholders (Members) of the Issuing Credit Institution That Own at Least 5 Percent of its Authorized Capital or at Least 5 Percent of its Ordinary Shares.

Composition of shareholders in the issuing credit institution holding at least 5 percent of its share capital or at least 5 percent of its ordinary shares at the record date of the list of persons entitled to participate in each General Meeting of Shareholders of the issuing credit institution held in the last completed financial year preceding the end date of the reporting quarter and for the period from the start date of the current year until the end date of the reporting quarter according to the list of persons entitled to participate in each of such meetings:

1	The Interim Accounting (Financial) Statements are not included in the quarterly report for the 4th quarter.	-

b) Interim financial statements prepared according to internationally accepted principles:

Item No.	Name of the reporting form	Number of annex to the quarterly report
1	2	3
-	none	-

7.3. Consolidated financial statements of the issuing credit institution

a) Annual consolidated financial statements of the issuing credit institution for the last completed reporting year:

Item No.	Name of the reporting form	Number of annex to the quarterly report
1	2	3
1	Annual Consolidated Financial Statements of Sberbank for 2018 with an Auditor's Report are disclosed in the quarterly report for the 1st quarter of 2019.	-

Standards (rules) under which the annual consolidated financial statements were prepared:
International Financial Reporting Standards (IFRS)

b) Interim consolidated financial statements (for 6 or 3 and 9 months of the current year):

Item No.	Name of the reporting form	Number of annex to the quarterly report
1	2	3
1	Condensed Interim Consolidated Statements under IFRS for 9 months of 2019 (as of 30 September 2019) and the audit report on the review.	Appendix #1

7.4. Information on the accounting policy of the issuing credit institution.

Main provisions of the accounting policy of the issuing credit institution defined independently by the issuing credit institution in accordance with the legislation of the Russian Federation on accounting and approved by an order or directive of the person responsible for the organization and the state of the accounting in the issuing credit institution:

The Accounting Policy of Sberbank defines the general accounting methodology in accordance with Federal Law No. 402-ФЗ (402-FZ), dated 6 December 2011, "On Accounting" for ensuring the preparation of accurate information on the Bank's performance.

According to Article 57 of Federal Law No. 86-ФЗ (86-FZ), dated 10 July 2002, "On the Central Bank of the Russian Federation (the Bank of Russia)", the Bank of Russia establishes the rules of banking operations, accounting and reporting, execution and submission of accounting (financial) and statistical reports, and other information required by federal laws, which are mandatory for credit institutions.

In its activities, Sberbank is guided by Federal Law No. 395-1, dated 2 December 1990, "On Banks and Banking Activities" with all further amendments and additions (hereinafter referred to as the "the Federal Law On Banks and Banking Activities"), Federal Law No. 402-ФЗ (402-FZ), dated 6 December 2011, "On Accounting", other laws and regulatory acts effective within the Russian Federation, Bank of Russia Ordinance, the Charter of the Bank, and the resolutions adopted by the Executive Board of the Bank.

The accounting policy of Sberbank shall be based on Bank of Russia Regulation No. 579-II (579-P), dated 27 February 2017, "On the Chart of Accounts for Bookkeeping for Credit Institutions and its Application Procedure" (hereinafter referred to as the "Bank of Russia Regulation No. 579-II (579-P)"), other documents of the Bank of Russia regulating the accounting and reporting, accounting provisions (standards) ensuring the uniform recording of banking operations in the balance sheet accounts.

When maintaining accounting, the following principles and qualitative characteristics must be observed:

- going concern The Bank will continuously carry out its activities in the future and it has no intentions and need for liquidation, a significant reduction in activity or performance of operations on unfavorable terms;

- Recognition of income and expenses on the accrual basis: the financial results of operations (income and expenses) are reflected in the accounting records on the fact of their commission, and not on the receipt or payment of cash (their equivalents), while incomes and expenses are reflected in the accounting accounting in the period to which they relate;

- consistency of accounting rules: The bank should be guided by the same accounting rules, except for cases of significant changes in its activities or changes in the legislation of the Russian Federation, which relate to the activities of the Bank; otherwise, the comparability of the data for the reporting period and the period preceding it should be ensured;

- caution: assets and liabilities, income and expenses should be valued and accounted for reasonably, with sufficient care, so as not to transfer existing risks that potentially threaten the financial situation of the Bank for the following periods. At the same time, the Bank's accounting policy should provide greater readiness to recognize expenses and liabilities in accounting than possible revenues and assets, preventing the creation of hidden reserves (intentional understatement of assets or revenues and deliberate overstating of liabilities or expenses);

- the timeliness of the reflection of transactions: transactions are reflected in the accounting records on the day they are committed, unless otherwise provided by regulatory acts of the Bank of Russia;

- separate reflection of assets and liabilities: accounts of assets and liabilities are assessed separately and are reflected in their detailed form;

- continuity of the incoming balance: balances on balance sheet and off-balance accounts at the beginning of the current reporting period should correspond to balances at the end of the previous period;

- the priority of the content over the form: transactions are reflected in accordance with their economic essence, and not with their legal form;

- openness: reports must reliably reflect the operations of the credit institution, be understandable to the informed user and devoid of ambiguity in reflecting the position of the credit institution.

The Accounting Policy of Sberbank is applied consistently year after year.

Any changes in the accounting policy shall be made under the following conditions:

- Changes in the requirements established by laws of the Russian Federation on accounting, federal and (or) industry standards;

- Development or selection of a new method of accounting, the application of which results in better quality of information about the object of accounting;

- Substantial change in the business environment of the economic entity.

To ensure the comparability of the accounting (financial) statements for a number of years, the change in accounting policy shall be made from the beginning of the reporting year, unless otherwise determined by the cause of such change.

For the purposes of accounting the Accounting Policy for 2019 includes the following main changes in connection with the enactment of new regulatory acts of the Bank of Russia¹¹ in terms of IFRS 9 "Financial instruments" and IFRS 15 "Revenue":

A brief description of the changes introduced:

• Financial instruments are carried at fair value upon initial recognition in accordance with transaction costs directly related to the acquisition/issuuing of the financial instrument, if such an instrument is not subsequently measured at fair value through profit or loss. Profit or loss from initial recognition is reflected in accounting only if the difference between the fair value determined with the use of observed market data and the transaction price is significant.

• For subsequent accounting, financial assets are required to be classified into three measurement categories: those to be measured at amortized cost, those to be measured at FVOCI and those to be measured at FVPL.

Classification for debt instruments is driven by:

- the entity's business model for managing the financial assets and

- the characteristics of the financial asset connected to the contractual cash flows: whether the contractual cash flows represent solely payments of principal and interest ("SPPI").

¹¹ Bank of Russia Regulation No. 604-II (604-P) dated 2 October 2017 'On the Procedure for Reflection on Bookkeeping Accounts by Credit Institutions of Transactions to Attract Funds under Agreements of Bank Investment (Deposit), Loan Agreements, Transactions on Issuance and Redemption (Payment) of Bonds, Promissory Notes, Deposit and Savings Certificates', Bank of Russia Regulation No. 605-II (605-P) dated 2 October 2017 'On the Procedure for Reflection on Bookkeeping Accounts by Credit Institutions of Transactions on Placing Funds under Loan Agreements, Transactions Connected with Concluding Transactions on Acquiring Rights of Claim From Third Parties to Fulfill Pecuniary Obligations, Transactions on Liabilities on Issued Bank Guarantees and Providing Funds', Bank of Russia Regulation No. 606-II (606-P) dated 2 October 2017 'On Reflection on Bookkeeping Accounts by Credit Institutions of Transactions with Securities', Bank of Russia Ordinance No. 5019-Y (5019-U) dated 18 December 2018 "On Amendments to Bank of Russia Regulation No. 579-II (579-P) dated 27 February 2017 'On the Chart of Accounts for Bookkeeping for Credit Institutions and its Application Procedure'", Bank of Russia Ordinance No. 4556-Y (4556-U) dated 2 October 2017 and Bank of Russia Ordinance No. 4858-Y (4858-U) dated 9 July 2018 "On Amendments to Bank of Russia Regulation No. 446-II (446-P) dated 22 December 2014 'On the Procedure for Determining the Income, Expenditure and Other Aggregate Income of Credit Institutions'"

- *The assessment of the business model* within which the financial asset is held is determined at the portfolio level, because this best reflects the way the business is managed and information is provided to management. The information considered includes the stated policies and objectives for the portfolio management, how the performance of the portfolio is evaluated (whether compensation is based on the fair value of the assets managed or the contractual cash flows collected), the frequency, volume and timing of sales in prior periods, as well as the reasons for such sales and its expectations about future sales activity.

- *Assessment whether the cash flows* meet the SPPI criterion is carried out by reviewing the contractual terms of the financial asset. For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as remuneration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks (e.g. liquidity risk and administrative costs), as well as profit margin. In making the assessment, the Group considers:

contingent events that would change the amount and timing of cash flows;

- leverage features;

- prepayment and extension terms;

- terms that limit the Group's claim to cash flows from specified assets (e.g. non-recourse asset arrangements);

and

- features that modify consideration of the time value of money - e.g. periodical reset of interest rates,

which

is

not consistent with the interest payment period.

- Debt instruments the managing of which is driven by the entity's business model for holding assets to collect contractual cash flows are carried at amortized cost.

- Debt instruments that meet the SPPI requirement and are held in a portfolio where an entity both holds to collect assets' cash flows and sells assets are classified as FVOCI.

- Financial assets the managing of which is driven by other business models are measured at FVPL.

- Investments in equity instruments are always measured at fair value. However, management can make an irrevocable election to present changes in fair value in other comprehensive income, provided the instrument is not held for trading.

- Investments into subsidiaries and associates are reflected in accounting without subsequent revaluation.

- In addition to provision for possible losses, adjustments are also made for financial assets in accounting that bring the total reserve amount for the asset to the amount of the estimated reserve determined in accordance with the requirements of IFRS 9. Fair value reserve is measured under IFRS 9 using the expected credit loss model. This model presupposes a 'three stage' approach which is based on the change in credit quality of financial assets since initial recognition. The Group have to record an immediate loss equal to the 12-month ECL on initial recognition of financial assets that are not credit impaired. Where there has been a significant increase in credit risk, fair value reserve is measured using lifetime ECL. This model is applied by the Group to measuring debt financial instruments impairment, and to contingent loan commitments.

The Group's financial liabilities are measured in accounting at amortized cost, with the exception of the financial liabilities that are to be measured at fair value (of derivative financial instruments), and of the financial liabilities classified as measured at fair value based on the decision of Sberbank Executives since the management of such liabilities and the evaluation of its results are carried out by the Group at fair value.

No changes were introduced into Sberbank's Accounting Policy in the reporting quarter (see current version of the Accounting Policy in Annex 2 to the quarterly report).

7.5. Information on the total value of exports and on the share of exports in total sales.

None.

8.1.2. Information on changes in the amount of the authorized capital of the issuing credit institution.

Information on changes in the amount of authorized capital of the issuing credit institution in the last completed reporting year and for the period from the start date of the current year until the end date of the reporting quarter:

In 2018 and during the 12 months of 2019, the authorized capital amount did not change.

8.1.3. Information on the procedure of convening a meeting of the supreme management body of the issuing credit institution.

Name of the supreme management body of the issuing credit institution:

Sberbank General Shareholders' Meeting

Procedure of notifying the shareholders (members) about the meeting of the supreme management body of the issuing credit institution:

The Notice of the General Shareholders' Meeting shall be published / posted in a manner and within the deadlines determined by the Bank's Charter: in the print publication, as well as on the website (www.sberbank.com) in Russian and in English.

Persons (bodies) entitled to convene (demand) an extraordinary meeting of the supreme management body of the issuing credit institution and the procedure for submitting (making) such demands:

The Extraordinary General Shareholders' Meeting is held by resolution of the Supervisory Board of the Bank at its own initiative, a request of the Internal Audit Committee of the Bank or the Audit Organization, as well as by shareholders (shareholder) owning at least 10 percent of the bank's voting shares as of the date of submitting such a demand.

A proposal on submitting items to the agenda of the Meeting shall contain the wording of each proposed issue, and may contain the wording of a decision regarding each issue.

The proposals shall be made specifying the name of the shareholder(s) submitting them, the number and category of shares held by such shareholder(s). Shareholders whose rights to shares are registered with a nominal holder may submit items to the agenda of the General Meeting of Shareholders (and nominate candidates) also by giving instructions (orders) to the person registering their rights to shares in accordance with the legislation of the Russian Federation.

The proposal for nominating candidates shall contain the information on the candidate as stipulated by federal law.

Procedure to determine the date of the meeting of the supreme management body of the issuing credit institution:

Sberbank's Annual General Shareholders' Meeting is held not earlier than 2 months and not later than 6 months after the end of the reporting year.

Persons entitled to submit items to the agenda of the meeting of the supreme management body of the issuing credit institution and the procedure for submitting such proposals:

Shareholder(s) holding in the aggregate at least 2% of voting shares may submit items to the agenda of the annual General Shareholders' Meeting and nominate candidates to the Bank's Supervisory Board and Audit Commission, whose number may not exceed the number of members of the respective body, and the candidate for the position of CEO and Chairman of the Executive Board of the Bank. Such proposals shall be submitted to the Bank within 75 days after the end of the Bank's reporting year.

Proposals on submitting items to the agenda of the General Shareholders' Meeting and nominating candidates shall be made specifying the name of shareholders (shareholder) submitting them, amount, and category of shares held by such shareholders and must be signed by the shareholders (shareholder) or their representatives. Shareholders whose rights to shares are registered with a nominal holder may submit items to the agenda of the General Meeting of Shareholders (and nominate candidates) also by giving instructions (orders) to the person registering their rights to shares in accordance with the legislation of the Russian Federation.

A proposal for submitting items to the agenda of the General Shareholders' Meeting shall contain the wording of each proposed item, and the proposal on nominating candidates must contain the information on the candidate as stipulated by federal law. A proposal for submitting items to the agenda of the General Shareholders' Meeting may contain the wording of resolutions on each item.

A shareholder whose rights to shares are registered with a nominal holder shall attach the statement of the shareholder custody account when submitting an item to the agenda of the General Meeting of Shareholders.

In case of proposals signed by a shareholder's representative acting in accordance with authorities based on a power of attorney, the proposals shall be accompanied by a power of attorney (a copy thereof certified in a manner prescribed by law) that meets the requirements of current legislation, or by other documents certifying such representative's right to act on behalf of the shareholder without a power of attorney.

Persons entitled to review the information (materials) provided for the preparation and conduct of the meeting of the supreme management body of the issuing credit institution and the procedure for reviewing such information (materials):

Within the term stipulated by the Bank's Charter for publishing / announcing the message on conducting a meeting (at least 30 days prior to the meeting), the Bank shall ensure the availability of information (materials) provided by the entities entitled to participate in the meeting, in the manner specified in the notification of the General Meeting, as well as publish such information on the Bank's website in the English and Russian languages (www.sberbank.com).

The Bank shall, at the request of a person entitled to participate in the General Shareholders' Meeting, provide such a person with a copy of information (materials) to be made available to the persons entitled to participate in the General Shareholders' Meeting.

The Bank shall ensure availability of the above information to the persons participating in the General Shareholders' Meeting, also during the holding thereof.

The procedure for publishing (making available to shareholders (members) of the issuing credit institution) the resolutions made by the supreme management body of the issuing credit institution and voting results:

The resolutions passed by the General Shareholders' Meeting and voting results shall be announced by the Counting Commission at the General Shareholders' Meeting during the General Shareholders' Meeting at which the voting took place, and be communicated to the persons on the list of persons entitled to participate in the General Shareholders' Meeting in the form of a report on the voting results by publishing it in the Rossiyskaya Gazeta newspaper and posting it on the Bank's official website (www.sberbank.com) in the Russian and English languages within 4 business days after the closing of the General Shareholders' Meeting or the deadline for accepting completed voting ballots (should the meeting be held in the form of absentee voting).

Resolutions adopted by the General Shareholders' Meeting shall also be disclosed by the Bank by posting the Minutes of the General Shareholders' Meeting on the Bank's website (www.sberbank.com) in the Russian and English languages.

8.2. Information on each category (type) of shares of the issuing credit institution.

State registration number of the shares issue	The date of state registration	Category	Type (for preferred shares)	Nominal value, RUB
1	2	3	4	5
10301481B	11/07/2007	Ordinary shares	-	3
20301481B	11/07/2007	Preferred shares	-	3

The number of shares in circulation (number of placed and not redeemed shares)

State registration number of the shares issue	The number of outstanding shares, pcs
1	2
10301481B	21,586,948,000
20301481B	1,000,000,000

The number of additional shares that may be placed or are in the process of placement (number of shares of the additional issue, for which the state registration was performed, but in respect of which no report on the results of additional issue was registered, or no notice on the results of additional issue was submitted in case if, in accordance with the Federal Law "On the Securities Market", the state registration of the report on the results of additional shares issue is not required):

State registration number of the shares issue	The number of shares in the offering, pcs
1	2
10301481B	0
20301481B	0

The number of declared shares:

State registration number of the shares issue	The number of declared shares, pcs
1	2
10301481B	15,000,000,000

The number of shares on the books of the issuing credit institution:

State registration number of the shares issue	The number of shares at the disposal of the issuing credit institution (in the balance sheet)
1	2

10301481B	0
20301481B	0

The number of additional shares that may be offered as a result of conversion of placed shares into stock or following performance of obligations with regard to the options of the issuing credit institution:

State registration number of the shares issue	The number of shares which may be offered as a result of conversion
1	2
10301481B	0
20301481B	0

Rights conferred by shares to their holders:

State registration number of the shares issue	Rights conferred by shares to their holders
1	2
10301481B	Each ordinary share of the bank confers on its holder the same rights. Shareholders holding ordinary shares are entitled to participate in the General Shareholders' Meeting with the right of vote on all issues within its competence, and are also entitled to receive dividends and, in case of the bank's liquidation, the right to receive a part of its property. The Bank's shareholders have other rights as stipulated by the legislation of the Russian Federation and subject to bank's Charter.
20301481B	Preferred shares of the same type confer on their holders the same rights and have the same nominal value. The holders of preference shares are entitled to dividends in the amount of at least 15 percent of the nominal value of a preference share. The shareholders who own preferred shares have no right of vote at the General Shareholders' Meeting, unless otherwise established by the Federal Law. The Bank's shareholders have other rights as stipulated by the legislation of the Russian Federation and subject to bank's Charter.

8.3. Information on previous offers of issue-grade securities of the issuing credit institution, except for shares of the issuing credit institution.

8.3.1. Information on the issues where all securities have been redeemed.

Information on each issue where all the securities have been redeemed during the last 5 completed reporting years and the period from the start date of the current year to the end date of the reporting quarter:

Status of the securities in the issue (placement has not yet started; offered; placed; outstanding)	Placement has not yet started
The filing date of the notice on the results of the securities placement	Not to be filed for exchange-traded bonds
The number of interest (coupon) periods for which income (coupons, interest) is paid on securities of the issue (for bonds):	
BO-01 (BO-01) Series Exchange-Traded Bonds have one (1) coupon. The coupon period is one (1) year.	
BO-02 (BO-02) Series Exchange-Traded Bonds have one (1) coupon. The coupon period is one (1) year.	
BO-03 (BO-03) Series Exchange-Traded Bonds have one (1) coupon. The coupon period is one (1) year.	
BO-04 (BO-04) Series Exchange-Traded Bonds have one (1) coupon. The coupon period is one (1) year.	
BO-05 (BO-05) Series Exchange-Traded Bonds have one (1) coupon. The coupon period is one (1) year.	
BO-06 (BO-06) Series Exchange-Traded Bonds have one (1) coupon. The coupon period is one (1) year.	
BO-07 (BO-07) Series Exchange-Traded Bonds have twenty (20) coupons. The coupon period is six (6) months.	
BO-08 (BO-08) Series Exchange-Traded Bonds have twenty (20) coupons. The coupon period is six (6) months.	
BO-09 (BO-09) Series Exchange-Traded Bonds have ten (10) coupons. The coupon period is six (6) months.	
BO-10 (BO-10) Series Exchange-Traded Bonds have ten (10) coupons. The coupon period is six (6) months.	
BO-11 (BO-11) Series Exchange-Traded Bonds have ten (10) coupons. The coupon period is six (6) months.	
BO-12 (BO-12) Series Exchange-Traded Bonds have ten (10) coupons. The coupon period is six (6) months.	
BO-13 (BO-13) Series Exchange-Traded Bonds have ten (10) coupons. The coupon period is six (6) months.	
BO-14 (BO-14) Series Exchange-Traded Bonds have twenty (20) coupons. The coupon period is six (6) months.	
BO-15 (BO-15) Series Exchange-Traded Bonds have one (1) coupon. The coupon period is one (1) year.	
BO-16 (BO-16) Series Exchange-Traded Bonds have one (1) coupon. The coupon period is one (1) year.	
BO-20 (BO-20) Series Exchange-Traded Bonds have twenty (20) coupons. The coupon period is six (6) months.	
BO-21 (BO-21) Series Exchange-Traded Bonds have twenty (20) coupons. The coupon period is six (6) months.	

BO-22 (BO-22) Series Exchange-Traded Bonds have thirty (30) coupons. The coupon period is six (6) months.
BO-23 (BO-23) Series Exchange-Traded Bonds have thirty (30) coupons. The coupon period is six (6) months.
BO-24 (BO-24) Series Exchange-Traded Bonds have thirty (30) coupons. The coupon period is six (6) months.
BO-25 (BO-25) Series Exchange-Traded Bonds have one (1) coupon. The coupon period is one (1) year.
BO-26 (BO-26) Series Exchange-Traded Bonds have one (1) coupon. The coupon period is one (1) year.
BO-27 (BO-27) Series Exchange-Traded Bonds have six (6) coupons. The coupon period is six (6) months.
BO-28 (BO-28) Series Exchange-Traded Bonds have six (6) coupons. The coupon period is six (6) months.
BO-29 (BO-29) Series Exchange-Traded Bonds have ten (10) coupons. The coupon period is six (6) months.
BO-30 (BO-30) Series Exchange-Traded Bonds have ten (10) coupons. The coupon period is six (6) months.
BO-31 (BO-31) Series Exchange-Traded Bonds have ten (10) coupons. The coupon period is six (6) months.
BO-32 (BO-32) Series Exchange-Traded Bonds have ten (10) coupons. The coupon period is six (6) months.
BO-33 (BO-33) Series Exchange-Traded Bonds have six (6) coupons. The coupon period is six (6) months.
BO-34 (BO-34) Series Exchange-Traded Bonds have six (6) coupons. The coupon period is six (6) months.
BO-35 (BO-35) Series Exchange-Traded Bonds have ten (10) coupons. The coupon period is six (6) months.
BO-36 (BO-36) Series Exchange-Traded Bonds have ten (10) coupons. The coupon period is six (6) months.
BO-38 (BO-38) Series Exchange-Traded Bonds have twenty (20) coupons. The coupon period is six (6) months.
BO-39 (BO-39) Series Exchange-Traded Bonds have twenty (20) coupons. The coupon period is six (6) months.
BO-40 (BO-40) Series Exchange-Traded Bonds have twenty (20) coupons. The coupon period is six (6) months.
BO-41 (BO-41) Series Exchange-Traded Bonds have twenty (20) coupons. The coupon period is six (6) months.
BO-43 (BO-43) Series Exchange-Traded Bonds have twenty (20) coupons. The coupon period is six (6) months.
BO-44 (BO-44) Series Exchange-Traded Bonds have six (6) coupons. The coupon period is six (6) months.
BO-45 (BO-45) Series Exchange-Traded Bonds have six (6) coupons. The coupon period is six (6) months.
BO-46 (BO-46) Series Exchange-Traded Bonds have ten (10) coupons. The coupon period is six (6) months.
BO-47 (BO-47) Series Exchange-Traded Bonds have fourteen (14) coupons. The coupon period is six (6) months.
BO-48 (BO-48) Series Exchange-Traded Bonds have fourteen (14) coupons. The coupon period is six (6) months.
BO-49 (BO-49) Series Exchange-Traded Bonds have twenty (20) coupons. The coupon period is six (6) months.
BO-50 (BO-50) Series Exchange-Traded Bonds have ten (10) coupons. The coupon period is six (6) months.
BO-51 (BO-51) Series Exchange-Traded Bonds have ten (10) coupons. The coupon period is six (6) months.
Period (date) of maturity of securities issue
